SEA CUSTOMS.

NOTICE is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III. Regulation III. of 1830.

If Goods which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for Re-land and subsequent Re-Export to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.

By Order of the Board of Customs,

Calcutta Custom-House, the 28th September, 1832.

CALCUTTA CUSTOMS.

SEA DEPARTMENT.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not, subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken, if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired; and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export, and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portions of Goods being Re-landed, no such Certificates as those above described will be issued.

But Duplicate or Additional Copies of Documents of which the originals (stated to have been lost or mislaid) might eventually be used to the prejudice of Revenue, here or elsewhere, will, on no account be granted.

CUSTOM HOUSE NOTICES.

TO protect from IMPOSITION such Persons as are strangers in Calcutta, and who employ Natives to transact Business for them at this Office, it is notified, that for every sum taken, as Government Customs or Duty, a receipted Bill is given under the signature of the Collector, or of his Deputy, or his Covenanted Assistant.

CLEARANCES, whether Inward or Outward, can be given only IN REGULAR TURN, and it is for Commanders, or others on their part, to see that their Applications be duly noted with the date and hour of receipt by the Supervisors respectively. Applications for Outward Clearance (or Export Manifests) cannot be received, unless accompanied by Certificate of Inward Clearance, and it is required thus such Applications be presented at least *Five complete days* previously to the date on which PORT CLEARANCE is desired, in order that time may be allowed for the adjustment of Export Cargoes; though it will be issued earlier if practicable.

NO FEES are taken for any AFFIDAVITS sworn in this Office on the subject of Custom House Business; nor are any FEES whatever allowed to be taken by any Persons belonging to this Establishment, whether sitting within the Office, or stationed out of doors.

Importers of GUNPOWDER, are requested to refer to the Notification, by order of the Board of Customs, dated the 18th, and published in the Government Gazette of 23d January 1823.

The Proprietors of DOCK YARDS, and the PUBLIC at large, are requested to take notice, that no Goods, nor Packages, are allowed to be IMPORTED, EXPORTED, RE-LANDED, RE-SHIPPED, TRANSHIPPED, or removed from VESSELS to SLOOPS or BOATS after Shipment, without due sanction from this Office;—whether the same be liable to, or exempt from, DUTY. Attention is directed to Clause Seventh, Section XLV. to Sections LXI LXIV. LXXIV. LXXXII. LXXXIII. & LXXXIV. of Regulation IX. 1810; and to Section III. of Regulation III. of 1830:—also to Clauses IV. and V. of the Government Notification of 28th June 1822, for Conditions of certain exemptions.—[20th March 1830.]

GOODS for ONE VESSEL taken to ANOTHER — Notice is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the Forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III Regulation III. of 1830.

If GOODS which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for RE-LAND, and subsequent RE-EXPORT to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.—[28th September 1832.]

ROWANAHS for GOODS RE-LANDED.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as Fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications, (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired: and such Certificates will have the force and validity of Rowanahs for any remaining period of the cur-

rency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[28th February 1833]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833]

MAFFEE ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by Order of the Board of Customs, dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No. and Date must be given, or whole Despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All applications for MAFFEE ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. The number of each sort of package.—[8th April 1833.]

WEDNESDAY, JANUARY 7, 1835.

Laudable Societies.

AT A GENERAL MEETING of the Members of the Seventh Laudable and Thirteenth Supplementary Laudable Societies, held at the Office of the Secretary, on Monday the 29th of December 1834—

Colonel W. S. Beatson in the Chair.

The following Resolutions and Regulations were adopted as the Constitution and Laws of a new Society, to be established on the 1st of January 1835, to be denominated

THE FIRST NEW CALCUTTA LAUDABLE SOCIETY,

For mutual Life Insurance, and for embodying and continuing

THE SEVENTH LAUDABLE SOCIETY

AND THE

THIRTEENTH SUPPLEMENTARY LAUDABLE SOCIETY

Of Calcutta, as they shall respectively expire. The former on the 31st December 1834, and the latter on the 30th June 1835.

In virtue of the Proceedings of the Meeting of those Societies held at Calcutta, on the 15th of April 1834.

Rules of the first new Calcutta Laudable Society.

Art. 1.—The object of the Association is to provide a fund for the Insurance of Lives, whereby Individuals may secure a provision for their Families after their death, or Creditors may guard themselves against loss, in the event of the decease of their debtors.

2.—In its constitution this Association differs from an office for the Insurance of Lives, (as such offices have been generally constituted in Europe,) in that the whole Fund of the Society accumulates for the benefit of the Insured, and of them alone; that no Insurer reaps a profit from the Institution; and that the charges of management are regulated on so economical a scale as scarcely to form a sensible burthen on the Establishment.

3.—The New Laudable Society shall be considered as having commenced on the 1st of January, 1835, and shall close its first term of 5 years on the 31st of December, 1839, at midnight; but the Society shall nevertheless be considered perpetual, or subsisting, and renewable from time to time, in periods of five, or such number of years as shall be agreed on hereafter, until a majority of the Subscribers or Shareholders, at any General Meeting, called by public advertisement for the purpose, shall decide on its being brought to a final close.

4.—The business of the Society shall be conducted by Directors, a Secretary and Treasurer, with a controlling voice and power in the Shareholders or Members, as hereinafter provided for: and the following parties have been appointed to act accordingly;—T. E. M. Turton, R. H. Cockerell, William Bruce, Benjamin Harding, Esqrs., Captain J. W. J. Ouseley and Baboo Dwarkanath Tagore, as Directors (until a General Meeting of the Society can be held to complete the prescribed number);—Mr. James Cullen, Secretary, and the Union Bank as Treasurers.

5.—The Fund, or Proprietory interest, is to be portioned into Shares; and an individual or individuals may subscribe for a certain number of Shares either on his or her own life, or on any other life. In the former case the Estate of the deceased, or such person or persons as he or she may, by Will or Assignment, have appointed, shall benefit to the extent of the Shares subscribed for; unless in that or either case, the Shares or Interest be specially declared at the time of subscription to be for the benefit of any other person or persons, or be subsequently assigned and made over, according to the rule hereinafter set forth, for the benefit of any other person or persons, in which case, such person or persons shall be entitled to benefit in the event of a lapse and no other.

6.—The number of Shares that can be subscribed for on any one life shall not exceed ten whole Shares, save and excepting in cases of transfer from the Seventh Laudable Society and Thirteenth Supplementary Laudable Society, where more than ten Shares already exist, in the aggregate, in both Schemes.

7.—Persons shall be at liberty to subscribe for half or quarter Shares, either on their own lives, or on the lives of others; and in case of laspe, the Estate of the deceased, or the parties for whose advantage the subscription is declared to be, or who may have become entitled to such advantage by Will or Assignment as above, shall benefit by the Fund in a like fractional proportion.

8.—Shareholders in the Seventh Laudable Society, and in the Thirteenth Supplementary Laudable Society, on the terms and for the considerations hereinafter mentioned, to have the privilege of transferring Interests or Policies in these Societies, as they shall respectively expire, on the 1st of January and 1st of July 1835, without the production of fresh Certificates of Health.

9.—In consideration of the provision made by the Regulation of the Seventh Laudable Society for a bonus for the continuance or renewal of its Policies, and which it is agreed shall be paid over to the new Society, all proposed transfers of Policies belonging to it to the new Society shall be admitted on payment of premium, as hereinafter provided for; but in the case of Policies in the Thirteenth Supplementary Laudable Society, where no such provision is made, an additional premium, or bonus, of Fifty Sicca Rupees per Share for all ages, over and above the regulated payments as above, shall be required before any transfer of Policies from that Society are made.

10.—All applications for admission into the Society from persons residing at any of the King's or Company's Settlements, shall be made by letter to the Secretary, and shall be accompanied by two Certificates of Health, signed by a Medical Gentleman in the King's or Company's Service, (those from other places to the satisfaction of the Directors,) and by an Affidavit sworn to and signed by the individual on whose life the Shares are applied for, such Letter of Application, Certificates and Affidavit, to be according to the following Forms, (printed copies of which may be had on application to the Secretary,) and to be adhered to in all cases, save where the Directors shall deem it right to waive objection.

16.—No application for insurance on any life shall be considered as entitling the party or parties applying for, or connected with the Insurance, to benefit by the Society, until the life to be insured on, shall have been approved of by the Directors, a Certificate of Admission granted under the signature of the Secretary agreeably to the following form, and the amount of the regulated premium paid.

(FORM OF CERTIFICATE OF ADMISSION.)

No. ——

I do hereby certify, that —————— been duly admitted to hold —— Shares in the First New Calcutta Laudable Society, on the life of —————— for the benefit of —————— who shall be entitled, in the event of a lapse of the aforesaid life, to receive such proportion of the Funds of the said Society, as by the established Regulations thereof, published in the *Calcutta Gazette* of the 31st Dec. 1831, may become due by virtue of this subscription, and at such time or times as the said Regulations direct; subject, moreover, to all the several provisions and exceptions by the said Regulations prescribed, and notes hereto subjoined.

I do further acknowledge to have received from the aforesaid ——————
the sum of Sicca Rupees ——————
being the amount of subscription in advance, required by the Regulations of the said Society.—In witness whereof I have hereunto subscribed my name in Calcutta, this —— day of —— in the year of our Lord One Thousand Eight Hundred and Thirty ——

By authority of the Directors,

——————
Secretary.

N. B. It is to be understood, that whatever claim shall arise under this Certificate or Policy of Insurance, shall in the first place be liable for the payment of any

sum or sums with interest thereon, which the parties concerned therein may owe to the Society, and no payment can be made, in the event of a lapse, to the person entitled to benefit thereby under this Certificate, unless notice of such lapse be communicated to the Secretary within one year after the close of the Society, which takes place on the 31st December 1839, in case of the lapse having occurred any where to the eastward of the Cape of Good Hope, or within two years in case of the lapse taking place any where beyond the Cape of Good Hope. Nor shall any such Certificate or Policy be considered in force, or forming a claim on this Society, where it shall be made to appear that any important circumstance connected with the age, constitution, or general health of the party subscribed on, has been concealed, or misrepresented to the Directors.

______________________ *Secretary.*

17.—All persons entering the Society on the 1st of January 1835, or at the commencement of any future continuing term, shall pay a half year's Subscription in advance, but subsequent Subscribers shall be required to pay for a like term in advance, over and above the premium due for the unexpired portion of the current half year in which they may be admitted into the Society.

18.—All Subscriptions (except the first, which is to be paid on admission,) shall be paid within fifteen days of the time at which they become due. If not paid within that time, interest at the rate of six per cent. per annum from the due date of payment shall be added, and any Member who shall not have paid his Subscription, together with the said interest, within one month of the day on which such Subscription shall have become due, shall be considered to have absolutely and entirely forfeited his share or shares.

19.—It shall however rest on the discretion of the Directors to permit renewal after a longer lapse of payment, on receiving such explanations and proofs as may satisfy them, that the parties failing to pay at due date were prevented by circumstances beyond their controul, together with proportionate interest, as aforesaid, for any additional delay that may have occurred.

20.—In all cases it shall rest with the Directors to judge, whether, with reference to the circumstances of situation and distance, the interval which may have elapsed between the date of any Certificate and Affidavit of Health, and the time of their presentment, be reasonable or otherwise, and to admit or reject such Certificate and Affidavit accordingly. In no case, however, is the party subscribing to have any claim on the Funds of the Society in the event of the life lapsing between the date of the Certificate and the date on which the applicant may be admitted a Member as above, unless where the Directors may, at the instance of such applicant, have originally permitted the Subscription to take effect from the date of the Certificate and Affidavit of Health, which it shall at all times be in their discretion to do, on the arrears of Subscription being paid up. In the event, however, of a person dying between the dates of his Certificate and Affidavit of Health and his admission, and the insurance on his life not effected from the date of the Certificate and Affidavit, the amount of premium paid for such insurance shall be refunded.

21.—Any Member or Shareholder shall be at liberty, at any time, to pay up his Subscription for the whole unexpired period between the time of such payment and the close of the current term of the Society, or for any part thereof; and in the event of the lapse of the life subscribed on, such Member, or his representatives, shall be entitled to receive back any part of the subscription money so paid up which would not have been due at the time of the lapse taking place; forfeiting, however, to the Society, all interest which may have intermediately accrued thereon.

22.—Any Member desiring to transfer his interest in any Share or Shares which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement, however, shall not be valid until the Certificate bearing the same shall have been produced to the Secretary, and the transfer duly registered by him in a General Book of Registry to be kept in the office of the Society.

23.—As often as a sum exceeding Sicca Rupees Five Thousand shall be collected in the hands of the Treasurers, it shall be laid out in the purchase of Government Paper, Bank Stock, or in Loans secured by a deposit of Government Paper, to be granted under the controul and authority of the Directors; it being clearly understood that in all cases of loan, the saleable value of the deposit shall be more than sufficient to cover the sum lent. All Public Securities purchased for the Society, shall be specially endorsed to three or more of the Directors, and the interest only shall be made payable to the order of the Secretary.

24.—The person or persons entitled to benefit by the lapse of a life in this Society, shall, on making application to the Secretary in writing, accompanied by such proof of the casualty as may be satisfactory to a majority of the Directors, immediately receive the sum of Four Thousand Sicca Rupees on each Whole Share, Two Thousand Rupees on each Half Share, or One Thousand Rupees on each Quarter Share, which he or they may have held, or be entitled to, on the lapsed life, provided, that in the opinion of the Directors, the state of the Funds of the Society will admit of so large a payment being made. Should the Directors think, however, that the Funds will not allow of an immediate payment of this amount, then such sum only shall be advanced as they may deem proper, and the balance of the prescribed advance shall be paid so soon as the Directors shall be of opinion that the Funds will safely admit of it.

25.—Arrears of Subscription, or any other sums due to the Society by the holders of, or parties beneficially interested in any Policy, Share or Shares on a lapsed life, shall be deducted from the amount of the advance;—and any Certificate, Policy, or Share or Shares shall in like manner be always considered responsible for any debt, the said parties concerned, may owe to the Society.

26.—After the expiration of the first quinquennial term of the Society, the Funds formed from the Subscriptions received during the next or second term, shall in the like manner accumulate and be invested for the purpose of division under the same rules of management as are applicable to the first quinquennial period, and so on, in perpetuity, or till the Society shall be dissolved.

27.—Within one month and fifteen days after the 31st December 1839, the accounts of the New Laudable Society shall be made up, and the existing Funds divided by the number of Shares held on lives subscribed upon in this Society which may have lapsed between its commencement and its close, or may be ascertained previous to the 15th day of February 1840, provided however that the dividend receivable by the parties entitled to benefit by such lapses, shall not, when added to the advance already paid them, make a total exceeding the proportion of Sa. Rs. 6,000 for each whole Share, Sa. Rs. 3,000 for each Half Share, or Sa. Rs. 1,500 for each Quarter Share, unless it shall appear to the Directors, after the lapse of one year's experience of the Society, and be confirmed at the half yearly Meeting of the Shareholders to be held in January 1836, that the sum may be extended, with perfect safety, to Sa. Rs. 7,000 on each lapsed Share, besides leaving a surplus for survivors, in which case the final payments shall be extended to Sa. Rs. 3,000 for each whole Share, Sa. Rs. 1,500 for each Half Share, and Sa. Rs. 750 for each Quarter Share.

28.—After completing the above sum of Sa. Rs. 6,000 or Sa. Rs. 7,000, as shall be hereafter decided on, any surplus which may exist, shall be set apart, and made over, or paid rateably to the holders of Policies or parties beneficially interested in Policies on the lives of survivors on 31st December 1839, at midnight, according to each party's interests therein, and on application to the Secretary.

29.—The Directors to be at liberty, on the application of the party or parties entitled to benefit by the lapse of lives in this Society, to discount, if they shall see fit at any time, the ultimate dividend on Shares; and in cases where fractional Shares are held, in the same ratio, at such rate of interest per annum as they may think fit for the general interests of the Society to charge.

30.—With respect to any lapses of lives occurring before the 31st of December 1839, at midnight, but not ascertained at the period of making up the final Accounts of the first term of the Society, they shall be taken as falling upon the general Funds of the next term, and so on, for each subsequent period of expiry and extension of the association; the same principle ruling against the first term of the New Society in the case of unascertained lapses on a division of the Funds of the Seventh Laudable and Thirteenth Supplementary Laudable Societies.

31.—A Meeting of the Members of the New Laudable Society shall be called half-yearly, by public advertisement, and with at least a week's previous notice, as soon after the 1st of January and 1st of July of each year as practicable, and not later than the 26th of January or 26th of July respectively, when a statement of the Funds of the Society, Books, Accounts, Securities, &c. shall be laid before them by the Secretary and Directors; and no accounts which shall once have been approved by the Directors, and submitted to such meeting and passed, shall afterwards be called in question, unless for some special and manifest error to the extent of 500 Rupees or upwards.

32.—At such half-yearly and all other Meetings of the Society, every Shareholder, wherever resident, shall be entitled to give his voice on any point or question before the Meeting, voting accordingly; and votes to be taken personally or by proxy, or other written authority, signed by the party beneficially interested in the Society as a Policy or Shareholder.

33.—In conducting these stated Meetings, or any other Meetings connected with the business of the Society, or in the settlement of any question relative to the concerns of the Society which may be proposed for the decision of the Members at large, a Member holding ten or more Shares on any one life, shall be entitled to three votes, one holding from five to nine Shares to two votes, and one holding any number of Shares less than five, to one vote only. Members holding Shares on different lives shall be entitled to the number of votes proportioned to the number of Shares which they hold on each life; *but*

any Member holding only a fraction of a Share shall not be entitled to vote.

34.—A majority of votes at any Meeting at which two-thirds of the Society shall be represented, shall be conclusive upon all subjects, even to the removal of any of the Directors, Secretary or Treasurers. In ordinary matters, and in conducting the general business of the Society at such Meetings, save where special provisions are set forth in these Regulations, the voice of the majority present shall be conclusive and binding on all.

35.—In the case of a person transferring his Policy or Policies, or subscribing on the life of another, the party subscribing, and not the party on whose life the transfer or subscription is made, shall be considered a Member of the Society, and have a voice in the management of its concerns. Co-partners or other bodies of individuals may hold one or more Shares jointly on any given life, either for their own benefit or for that of others; but in such case, the parties uniting in the Subscription shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by deputation of one of their number, or by proxy, on all matters thereto relating.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

WEDNESDAY, JANUARY 14, 1835.

Laudable Societies.

AT A GENERAL MEETING of the Members of the Seventh Laudable and Thirteenth Supplementary Laudable Societies, held at the Office of the Secretary, on Monday the 29th of December 1834—

Colonel W. S. BEATSON in the Chair.

The following Resolutions and Regulations were adopted as the Constitution and Laws of a new Society, to be established on the 1st of January 1835, to be denominated

THE FIRST NEW CALCUTTA LAUDABLE SOCIETY,

For mutual Life Insurance, and for embodying and continuing

THE SEVENTH LAUDABLE SOCIETY

AND THE

THIRTEENTH SUPPLEMENTARY LAUDABLE SOCIETY

Of Calcutta, as they shall respectively expire. The former on the 31st December 1834, and the latter on the 30th June 1835.

In virtue of the Proceedings of the Meeting of those Societies held at Calcutta, on the 18th of April 1834.

Rules of the first new Calcutta Laudable Society.

ART. 1.—The object of the Association is to provide a fund for the Insurance of Lives, whereby Individuals may secure a provision for their Families after their death, or Creditors may guard themselves against loss, in the event of the decease of their debtors.

2.—In its constitution this Association differs from an office for the Insurance of Lives, (as such offices have been generally constituted in Europe,) in that the whole Fund of the Society accumulates for the benefit of the Insured, and of them alone; that no Insurer reaps a profit from the Institution; and that the charges of management are regulated on so economical a scale as scarcely to form a sensible burthen on the Establishment.

3.—The New Laudable Society shall be considered as having commenced on the 1st of January, 1835, and shall close its first term of 5 years on the 31st of December, 1839, at midnight; but the Society shall nevertheless be considered perpetual, or subsisting, and renewable from time to time, in periods of five, or such number of years as shall be agreed on hereafter, until a majority of the Subscribers or Shareholders, at any General Meeting, called by public advertisement for the purpose, shall decide on its being brought to a final close.

4.—The business of the Society shall be conducted by Directors, a Secretary and Treasurer, with a controlling voice and power in the Shareholders or Members, as hereinafter provided for: and the following parties have been appointed to act accordingly:—T. E. M. Turton, R. H. Cockerell, William Bruce, Benjamin Harding, Esqrs., Captain J. W. J. Ouseley and Baboo Dwarkanath Tagore, as Directors (until a General Meeting of the Society can be held to complete the prescribed number);—Mr. James Cullen, Secretary, and the Union Bank as Treasurers.

5.—The Fund, or Proprietory Interest, is to be portioned into Shares; and an individual or individuals may subscribe for a certain number of Shares either on his or her own life, or on any other life. In the former case the Estate of the deceased, or such person or persons as he or she may, by Will or Assignment, have appointed, shall benefit to the extent of the Shares subscribed for; unless in that or either case, the Shares or Interest be specially declared at the time of subscription to be for the benefit of any other person or persons, or be subsequently assigned and made over, according to the rule hereinafter set forth, for the benefit of any other person or persons, in which case, such person or persons shall be entitled to benefit in the event of a lapse and no other.

6.—The number of Shares that can be subscribed for on any one life shall not exceed ten whole Shares, save and excepting in cases of transfer from the Seventh Laudable Society and Thirteenth Supplementary Laudable Society, where more than ten Shares already exist, in the aggregate, in both Schemes.

7.—Persons shall be at liberty to subscribe for half or quarter Shares, either on their own lives, or on the lives of others; and in case of lapse, the Estate of the deceased, or the parties for whose advantage the subscription is declared to be, or who may have become entitled to such advantage by Will or Assignment as above, shall benefit by the Fund in a like fractional proportion.

8.—Shareholders in the Seventh Laudable Society, and in the Thirteenth Supplementary Laudable Society, on the terms and for the considerations hereinafter mentioned, to have the privilege of transferring Interests or Policies in these Societies as they shall respectively expire, on the 1st of January and 1st of July 1835, without the production of fresh Certificates of Health.

9.—In consideration of the provision made by the Regulation of the Seventh Laudable Society for a bonus for the continuance or renewal of its Policies, and which it is agreed shall be paid over to the new Society, all proposed transfers of Policies belonging to it to the new Society shall be admitted on payment of premium, as hereinafter provided for; but in the case of Policies in the Thirteenth Supplementary Laudable Society, where no such provision is made, an additional premium, or bonus, of Fifty Sicca Rupees per Share for all ages, over and above the regulated payments as above, shall be required before any transfer of Policies from that Society are made.

10.—All applications for admission into the Society from persons residing at any of the King's or Company's Settlements, shall be made by letter to the Secretary, and shall be accompanied by two Certificates of Health, signed by a Medical Gentleman in the King's or Company's Service, (those from other places to the satisfaction of the Directors,) and by an Affidavit sworn to and signed by the individual on whose life the Shares are applied for, such Letter of Application, Certificates and Affidavit, to be according to the following Forms, (printed copies of which may be had on application to the Secretary,) and to be adhered to in all cases, save where the Directors shall deem it right to waive objection.

13.—The foregoing scale may however be altered at any General Meeting of the Society called for that purpose; and the increase of premium with advancing age on lives insured, shall be annual, and not unaltered or unincreased during any current term of the Society, as in the preceding Laudable Societies.

14.—In cases, however, of applications for Shares on Policies on the lives of parties under Certificates not unobjectionable in every respect, and supposed to involve only a trifling increase of risk, the Directors shall be at liberty to grant admission on enhanced premiums, agreeably to the best of their judgment, and the opinion and recommendation of their medical adviser.

15.—No application for admission into the Society shall be admitted, without being previously submitted to and sanctioned by the Directors; but the Directors shall in all instances be at liberty to reject any application without assigning any reason to the applicant for so doing.

16.—No application for insurance on any life shall be considered as entitling the party or parties applying for, or connected with the Insurance, to benefit by the Society, until the life to be insured on, shall have been approved of by the Directors, a Certificate of Admission granted under the signature of the Secretary agreeably to the following form, and the amount of the regulated premium paid.

(FORM OF CERTIFICATE OF ADMISSION.)

No.

I do hereby certify, that ——— been duly admitted to hold ——— Shares in the First New Calcutta Laudable Society, on the life of ——— for the benefit of ——— who shall be entitled, in the event of a lapse of the aforesaid life, to receive such proportion of the Funds of the said Society, as by the established Regulations thereof, published in the *Calcutta Gazette* of the 31st Dec. 1834, may become due by virtue of this subscription, and at such time or times as the said Regulations direct; subject, moreover, to all the several provisions and exceptions by the said Regulations prescribed, and notes hereto subjoined.

I do further acknowledge to have received from the aforesaid ——— ——— the sum of Sicca Rupees ——— being the amount of subscription in advance, required by the Regulations of the said Society.—In witness whereof I have hereunto subscribed my name in Calcutta, this ——— day of ——— in the year of our Lord One Thousand Eight Hundred and Thirty ———

By authority of the Directors,

———
Secretary.

N. B. It is to be understood, that whatever claim shall arise under this Certificate or Policy of Insurance, shall in the first place be liable for the payment of any

sum or sums with interest thereon, which the parties concerned therein may owe to the Society, and no payment can be made, in the event of a lapse, to the person entitled to benefit thereby under this Certificate, unless notice of such lapse be communicated to the Secretary within one year after the close of the Society, which takes place on the 31st December 1839, in case of the lapse having occurred any where to the eastward of the Cape of Good Hope, or within two years in case of the lapse taking place any where beyond the Cape of Good Hope. Nor shall any such Certificate or Policy be considered in force, or forming a claim on this Society, where it shall be made to appear that any important circumstance connected with the age, constitution, or general health of the party subscribed on, has been concealed, or misrepresented to the Directors.

Secretary.

17.—All persons entering the Society on the 1st of January 1835, or at the commencement of any future continuing term, shall pay a half year's Subscription in advance, but subsequent Subscribers shall be required to pay for a like term in advance, over and above the premium due for the unexpired portion of the current half year in which they may be admitted into the Society.

18.—All Subscriptions (except the first, which is to be paid on admission,) shall be paid within fifteen days of the time at which they become due. If not paid within that time, interest at the rate of six per cent. per annum from the due date of payment shall be added, and any Member who shall not have paid his Subscription, together with the said interest, within one month of the day on which such Subscription shall have become due, shall be considered to have absolutely and entirely forfeited his share or shares.

19.—It shall however rest on the discretion of the Directors to permit renewal after a longer lapse of payment, on receiving such explanations and proofs as may satisfy them, that the parties failing to pay at due date were prevented by circumstances beyond their controul, together with proportionate interest, as aforesaid, for any additional delay that may have occurred.

20.—In all cases it shall rest with the Directors to judge, whether, with reference to the circumstances of situation and distance, the interval which may have elapsed between the date of any Certificate and Affidavit of Health, and the time of their presentment, be reasonable or otherwise, and to admit or reject such Certificate and Affidavit accordingly. In no case, however, is the party subscribing to have any claim on the Funds of the Society in the event of the life lapsing between the date of the Certificate and the date on which the applicant may be admitted a Member as above, unless where the Directors may, at the instance of such applicant, have originally permitted the Subscription to take effect from the date of the Certificate and Affidavit of Health, which it shall at all times be in their discretion to do, on the arrears of Subscription being paid up. In the event, however, of a person dying between the dates of his Certificate and Affidavit of Health and his admission, and the insurance on his life not effected from the date of the Certificate and Affidavit, the amount of premium paid for such insurance shall be refunded.

21.—Any Member or Shareholder shall be at liberty, at any time, to pay up his Subscription for the whole unexpired period between the time of such payment and the close of the current term of the Society, or for any part thereof; and in the event of the lapse of the life subscribed on, such Member, or his representatives, shall be entitled to receive back any part of the subscription money so paid up which would not have been due at the time of the lapse taking place; forfeiting, however, to the Society, all interest which may have intermediately accrued thereon.

22.—Any Member desiring to transfer his interest in any Share or Shares which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate, which endorsement, however, shall not be valid until the Certificate bearing the same shall have been produced to the Secretary, and the transfer duly registered by him in a General Book of Registry to be kept in the office of the Society.

23.—As often as a sum exceeding Sicca Rupees Five Thousand shall be collected in the hands of the Treasurers, it shall be laid out in the purchase of Government Paper, Bank Stock, or in Loans secured by a deposit of Government Paper, to be granted under the controul and authority of the Directors; it being clearly understood that in all cases of loan, the saleable value of the deposit shall be more than sufficient to cover the sum lent. All Public Securities purchased for the Society, shall be specially endorsed to three or more of the Directors, and the interest only shall be made payable to the order of the Secretary.

24.—The person or persons entitled to benefit by the lapse of a life in this Society, shall, on making application to the Secretary in writing, accompanied by such proof of the casualty as may be satisfactory to a majority of the Directors, immediately receive the sum of Four Thousand Sicca Rupees on each Whole Share, Two Thousand Rupees on each Half Share, or One Thousand Rupees on each Quarter Share, which he or they may have held, or be entitled to, on the lapsed life, provided, that in the opinion of the Directors, the state of the Funds of the Society will admit of so large a payment being made. Should the Directors think, however, that the Funds will not allow of an immediate payment of this amount, then such sum only shall be advanced as they may deem proper, and the balance of the prescribed advance shall be paid so soon as the Directors shall be of opinion that the Funds will safely admit of it.

25.—Arrears of Subscription, or any other sums due to the Society by the holders of, or parties beneficially interested in any Policy, Share or Shares on a lapsed life, shall be deducted from the amount of the advance;—and any Certificate, Policy, or Share or Shares shall in like manner be always considered responsible for any debt, the said parties concerned, may owe to the Society.

26.—After the expiration of the first quinquennial term of the Society, the Funds formed from the Subscriptions received during the next or second term, shall in the like manner accumulate and be invested for the purpose of division under the same rules of management as are applicable to the first quinquennial period, and so on, in perpetuity, or till the Society shall be dissolved.

27.—Within one month and fifteen days after the 31st December 1839, the accounts of the New Laudable Society shall be made up, and the existing Funds divided by the number of Shares held on lives subscribed upon in this Society which may have lapsed between its commencement and its close, or may be ascertained previous to the 15th day of February 1840, provided however that the dividend receivable by the parties entitled to benefit by such lapses, shall not, when added to the advance already paid them, make a total exceeding the proportion of Sa. Rs. 6,000 for each whole Share, Sa. Rs. 3,000 for each Half Share, or Sa. Rs. 1,500 for each Quarter Share, unless it shall appear to the Directors, after the lapse of one year's experience of the Society, and be confirmed at the half yearly Meeting of the Shareholders to be held in January 1836, that the sum may be extended, with perfect safety, to Sa. Rs. 7,000 on each lapsed Share, besides leaving a surplus for survivors, in which case the final payments shall be extended to Sa. Rs. 3,000 for each whole Share, Sa. Rs. 1,500 for each Half Share, and Sa. Rs. 750 for each Quarter Share.

28.—After completing the above sum of Sa. Rs. 6,000 or Sa. Rs. 7,000, as shall be hereafter decided on, any surplus which may exist, shall be set apart, and made over, or paid rateably to the holders of Policies or parties beneficially interested in Policies on the lives of survivors on 31st December 1839, at midnight, according to each party's interests therein, and on application to the Secretary.

29.—The Directors to be at liberty, on the application of the party or parties entitled to benefit by the lapse of lives in this Society, to discount, if they shall see fit at any time, the ultimate dividend on Shares; and in cases where fractional Shares are held, in the same ratio, at such rate of interest per annum as they may think fit for the general interests of the Society to charge.

30.—With respect to any lapses of lives occurring before the 31st of December 1839, at midnight, but not ascertained at the period of making up the final Accounts of the first term of the Society, they shall be taken as falling upon the general Funds of the next term, and so on, for each subsequent period of expiry and extension of the association; the same principle ruling against the first term of the New Society in the case of unascertained lapses on a division of the Funds of the Seventh Laudable and Thirteenth Suplementary Laudable Societies.

31.—A Meeting of the Members of the New Laudable Society shall be called half-yearly, by public advertisement, and with at least a week's previous notice, as soon after the 1st of January and 1st of July of each year as practicable, and not later than the 26th of January or 26th of July respectively, when a statement of the Funds of the Society, Books, Accounts, Securities, &c. shall be laid before them by the Secretary and Directors; and no accounts which shall once have been approved by the Directors, and submitted to such meeting and passed, shall afterwards be called in question, unless for some special and manifest error to the extent of 500 Rupees or upwards.

32.—At such half-yearly and all other Meetings of the Society, every Shareholder, wherever resident, shall be entitled to give his voice on any point or question before the Meeting, voting accordingly; and votes to be taken personally or by proxy, or other written authority, signed by the party beneficially interested in the Society, as a Policy or Shareholder.

33.—In conducting these stated Meetings, or any other Meetings connected with the business of the Society, or in the settlement of any question relative to the concerns of the Society which may be proposed for the decision of the Members at large, a Member holding ten or more Shares on any one life, shall be entitled to three votes, one holding from five to nine Shares to two votes, and one holding any number of Shares less than five, to one vote only. Members holding Shares on different lives shall be entitled to the number of votes proportioned to the number of Shares which they hold on each life; but

any Member holding only a fraction of a Share shall not be entitled to vote.

34.—A majority of votes at any Meeting at which two-thirds of the Society shall be represented, shall be conclusive upon all subjects, even to the removal of any of the Directors, Secretary or Treasurers. In ordinary matters, and in conducting the general business of the Society at such Meetings, save where special provisions are set forth in these Regulations, the voice of the majority present shall be conclusive and binding on all.

35.—In the case of a person transferring his Policy or Policies, or subscribing on the life of another, the party subscribing, and not the party on whose life the transfer or subscription is made, shall be considered a Member of the Society, and have a voice in the management of its concerns. Co-partners or other bodies of individuals may hold one or more Shares jointly on any given life, either for their own benefit or for that of others; but in such case, the parties uniting in the Subscription shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by deputation of one of their number, or by proxy, on all matters thereto relating.

36.—Any three of the Directors, or any ten Members having individually an interest to the extent of one Share or more each in the Society, to be at liberty to convene a Meeting by public advertisement with seven days notice; but no Resolution passed at such extraordinary Meeting shall be conclusive, unless the purport of it has been specified in the advertisement convening such Meeting.

In pursuance of the Notification published on the 23d Ultimo, His Excellency the Right Honorable the Governor General of India in Council is now pleased to promulgate the following Copy of a Supplementary Treaty between the British Government and Maharajah Runjeet Singh for establishing a Toll on the Indus.

In conformity with the subsisting relations of friendship as established and confirmed by former Treaties, between the Honorable the East India Company and His Highness Maharajah Runjeet Singh.—And Whereas in the 5th Article of the Treaty concluded at Lahore on the 26th day of December 1832, it was stipulated that a moderate scale of Duties should be fixed by the two Governments in concert, to be levied on all Merchandise in transit up and down the River Indus and Suthledj, the said Governments being now of opinion that owing to the inexperience of the people of these Countries in such matters, the mode of levying duties then proposed (viz. on the value and quantity of goods) could not fail to give rise to mutual misunderstandings and reclamations, have, with a view to prevent these results, determined to substitute a Toll which shall be levied on all Boats with whatever Merchandize laden; the following Articles have therefore been adapted as supplementary to the former Treaty, and in conformity with them each Government engages that the Toll shall be levied, and its amount neither be increased nor diminished except by mutual consent.

ARTICLE 1ST.

A Toll of 570 Rupees shall be levied on all Boats laden with Merchandize in transit on the Rivers Indus and Suthledj between the Sea and Rooper, without reference to their size or to the weight or value of their Cargo, the above Toll to be divided among the different States in proportion to the extent of Territory which they possess on the banks of these rivers.

ARTICLE 2D.

The portion of the above Toll appertaining to the Lahore Chief in right of his Territory on both banks of these Rivers, as determined in the subjoined scale, shall be levied opposite to Mithenkot on Boats coming from the sea towards Rooper, and in the vicinity of Herree ke Pulten, on Boats going from Rooper towards the sea and at no other place.

In right of Territory on the right Bank of the Rivers Indus and Suthledj Rs. 155-4.	In right of Territory on the left Bank of the Rivers Indus and Suthledj, Rs.* The Maharaja's share of Rs. 67-15.

ARTICLE 3D.

In order to facilitate the realization of the Toll due to the different States, as well as for the speedy and satisfactory adjustment of disputes which may arise connected with the safety of the navigation and the welfare of the Trade by the new route, a British Officer will reside opposite to Mithenkote, and a Native Agent on the part of the British Government opposite to Herree ke Pulten. These Officers will be subject to the orders of the British Agent at Loodianah, and the Agents who may be appointed to reside at those places on the part of the other States concerned in the navigation, viz. Bhawlpore and Sindh, together with those of Lahore, will co-operate with them in the execution of their duties.

ARTICLE 4TH.

In order to guard against imposition on the part of Merchants in making false complaints of being plundered of property which formed no part of their Cargoes, they are required, when taking out their passports to produce an Invoice of their Cargo, which being duly authenticated, a copy of it will be annexed to their passports, and wherever their Boats may be brought to for the night, they are required to give immediate notice to the Thannadars or Officers of the place, and to request protection for themselves, at the same time showing the passports they may have received at Mithenkote or Herree kee as the case may be.

ARTICLE 5TH.

Such parts of the 4th, 7th, 9th and 10th Articles of the Treaty of the 26th of December, 1832, as have reference to the fixing a duty on the value and quantity of Merchandise, and to the mode of its collection are hereby rescinded, and the foregoing Articles substituted in their place, agreeably to which, and the conditions of the preamble, the Toll will levied.

* N. B.—A distribution of the shares due to the British Protected States and the Feudatories of the Maharaja on the left bank of the Suthledj, will be determined hereafter.

His Excellency the Right Honorable the Governor General of India in Council is pleased to make the following Appointments:

Lieutenant F. Mackeson, of the 74th Regiment Native Infantry, to be British Agent for the Navigation of the Indus and Suthledj stationed at Mithenkote.

Syud Aseem-oo-deen to be Native British Agent for the Navigation of the Indus, to be stationed at such mouth of the River as may be determined by the Governor General's Agent for the affairs of Sindh.

NOTIFICATIONS.

A NUMBER of unclaimed and rejected Letters having accumulated in the General Post Office, a confidential person was appointed by Government in the year 1832, to open and examine them, in order to ascertain previous to their being destroyed, whether Hoondies, Bank Notes, Papers, and other articles of value to the parties concerned, might not, in some instances, be found. The result has been that many such Enclosures have been discovered, and with a view to enable those to whom they belong to claim the same, a list is now published.

The Hoondies, Bank Notes, and other Documents above referred to, will, on application to the Post Master General, be delivered to such persons as may satisfy that Officer, of their title to receive them, free of any charge for Postage.

Deputy Post Masters in the Mofussil will be pleased to look carefully over this List, and to cause extracts to be made of all such Entries, as refer to persons residing in their Divisions, embodying them in an Advertisement in the language in most common use for their own Offices, and transmitting copies to the Magistrates and Judges of the Districts, through which their divisions pass, to be stuck up in their respective Cutcheries.

General Post Office, the 6th January, 1835. J. E. ELLIOT, *Post Master General.*

JUDICIAL AND REVENUE DEPARTMENT, THE 5TH FEBRUARY, 1835.

His Excellency the Right Honorable the Governor General of India in Council is pleased to direct that the following Documents relative to the Construction of Roads within the Bengal and Agra Presidencies, be published for general information.

Abstract Memoir on Roads within the Bengal Presidency (including Agra,) with Tabular Statement and Sketch Maps, 1st January, 1835.

As introductory to the following Tabular Statement it is necessary to explain that before the year 1830, of the Roads enumerated below, the following had been undertaken and in progress, or partly, or wholly, completed.

1st. The Cuttack Road (unfinished.)	261 Miles.
2d. From Cuttack towards Ganjam, (a small portion only formed,)	82 ditto.
3d. The Barrackpore and Berhampore Road, (completed,)	95 ditto.
4th. The Benares and Allahabad Road, (completed,)	70 ditto.
5th. The Mirzapore and Jubbulpore Road, (unfinished,)	239 ditto.
6th. A branch road from Jubbulpore towards Saugor, (a small part only formed,)	76 ditto.
Total	823 Miles.

On these Roads (exclusive of the Road between Benares and Allahabad 70 miles,) there had been expended, from their commencement up to the end of April, 1833, Rs. 23,86,524 0 0

Of this sum the Cuttack Road had cost,	15,21,696	0	0
The Jubbulpore Road,	4,41,210	0	0
The Berhampore Road,	2,69,630	0	0
The Nerbudda branch Roads,	90,398	0	0
The Cuttack and Ganjam Road,	63,588	0	0

The Cuttack Road was commenced in 1811, originating in a bequest of 1,50,000 Rupees by Rajah Sookmoy Roy, whose object was to facilitate communication with Jaggernauth. The residue of the expenditure has, with a view to the general benefit of the country, been paid by Government, and the Road is now finished.

The continuation of this Road, towards Ganjam, was undertaken solely by Government, but as yet it remains in an unfinished state, though in progress under the Executive Engineer of the Division of Public Works. This Road will extend to the Southern limits of the Bengal Presidency, and there join the high Road from Fort St. George.

The Road from Barrackpore to Berhampore, 95 miles, was finished in 1829 by hired labor. It was undertaken principally with the view of forming a Military communication between the two Stations.

From Benares to Allahabad, the Road was executed by hired labor and completed in 1823; and the same object principally guided Government in forming it.

The Mirzapore and Jubbulpore Road was undertaken by Government in 1823, for the purpose of opening a communication with the recently acquired Saugor and Nerbudda Territories, by which the valuable produce of those and the neighbouring Districts, especially in Cotton, might with facility be exported. With the same view it was proposed to continue that Road into the Valley of the Nerbudda, and onwards to Nagpore. But with the exception of that portion which extends between Mirzapore and Jubbulpore, the remainder of the proposed Roads in this District (save a small part of the Saugor Road) were not undertaken until 1833, when the Main Road was completed; and with the view of opening to the Commerce of Bengal the Cotton Trade of Central India, the Branch Roads in those Territories beyond Jubbulpore contained in this Table, were then directed to be consecutively executed —and this is now in progress.

The condition of the Roads at this Presidency having early attracted the attention of the Governor General, in the several Tours which he made through the Provinces, with the view of facilitating internal Commerce and improving the Resources of the State, a Plan on an enlarged scale, which should be permanent, was devised by His Lordship for opening an extended communication throughout the Country. A Minute by the Governor General dated the 25th March 1831, enters fully into this subject. In this and in other Documents, the general scheme and detailed instructions are laid down, for the guidance of the subordinate authorities, in the execution of the work: an outline only of which can be here given.

In the first instance a main line of Road was directed to be formed, extending from Calcutta to Delhie. This great line running longitudinally through the Country forms the grand Trunk from which Branch Roads were to diverge, leading, on either hand, to the principal Cities and Towns, and Commercial Marts in the several Districts through which the main line should pass.

The Plan thus instituted by the Governor General embraced at that time the formation, or repair, or metalling of Roads to the extent of about 1800 miles. Its execution was confided to the Superintendence of the Military Board, acting under the direction of Government; and the funds set apart for the work were, under the control of Government, committed to the charge of that Board. The Military Board, as the head of the Department of Public Works, having at its disposal all the science and practical experience in such work which the Government of the Country affords; and being a permanent Body, it was expected by the Governor General that with such means whatever might be the amount of funds so appropriated, they would be systematically and economically applied.

But the pecuniary resources of the Government did not admit of large expenditure, however usefully it might be devoted. The Governor General therefore found it indispensable to meet this emergency, and to devise other means for attaining the important objects in contemplation.

A Resolution of Government to withdraw all Prisoners from the charge of Magistrates, and to place them under the scientific Officers of the Department of Public Works, founded on the Governor General's Minute of the 25th March 1831, and dated 1st September of that year, was accordingly passed.

Of the Roads detailed in this Table, the great line extending from Calcutta to Delhie as before noticed, received special attention; and upon that line, under the superintendence of Captains Drummond and Thomson, the first location of Convicts was directed to be made.

So favorable was the result, that it became immediately obvious that an instrument of great power had been placed at the disposal of those who controlled the Department of Public Works, and the system was followed up to the extent exhibited in this Table. It remains only to give a brief account of the manner in which this special and important branch of that Department is conducted.

The Prisoners are placed entirely under the management of the Executive Engineers, and Officers appointed to superintend the work for which the Convicts are destined. Those Officers are likewise charged with the duty of paying them their diet money, and with clothing them. Medical attendance of Native Doctors, and Medicines, are supplied to the Prisoners—one Native Doctor being stationed with each Gang of Convicts, and in case of unusual sickness the services of the nearest European Surgeon are made available at the requisition of the Officer in charge.

Shopkeepers have also been established with the several Gangs, for the purpose of ensuring to the Prisoners a due supply of wholesome food, and the greatest care has been enjoined to prevent them from spending their money allowance on noxious articles, as spirits, opium, &c. to excess; which they are too apt to do, even to the sale of their clothes, if not prevented. They are lodged in Tents, or in huts prepared for them, according to the nature of the country, the season, or other circumstances.

The plan adopted by Executive Officers in working the Convicts, is to fix their daily task (under instructions that the labor exacted shall be moderate) and when finished, at however early an hour, to dismiss them. Rewards for good conduct have also been authorized; and it has been a special object of solicitude to endeavor to devise some means by which moral improvement might be introduced among them.

It is difficult to ascertain the exact extent of labor which Convicts are able to perform. Being, however, in general hardy and healthy men, mostly in the prime of life, there is no reason why, on such work, under good management, they should not be able to do as much as the common laborer paid by the day.

That the expense attending the introduction of this system of labor must be trifling, may be gathered from a report of the Military Board, who were called upon to state "the result of the labor of Convicts compared with the cost of guarding and maintaining them." *12th September 1834.* They observed "that when prisoners are sentenced to hard labour, they must, at all events, be guarded and maintained by the Government. They must be supplied with Tools to labor with, people to direct their labor; and if detached from their Jail—with Tents or huts to shelter them. Thus the principal expenditure was equally applicable to the former system, whilst it is believed that in most cases the labor performed was comparatively unimportant to the State. Under the present system not only is the labor of these men directed to specific objects of public importance, and guided by scientific Officers; but there is reason to believe that the expense of guarding the Convicts, and all cost attending their employment under Executive Officers, will not exceed, but rather fall short of the cost of maintaining and guarding them under Magistrates in their Jails. One Executive Officer has stated that there will be a considerable saving, arising from the discharge of large Civil Establishments. It has, however, been ascertained that the amount of extra charges will at all events be trifling. So that, inasmuch as the quantum of labor obtained from the Convict will be much greater than heretofore, and inasmuch as that labor being more systematically directed, its value will be much augmented, no doubt can remain, that the result will be advantageous in an eminent degree, and beneficial to the State."

Thus a system for the general improvement of India has been established, which, from its permanency of character, cannot fail, in time, to secure the object in view—whilst, as it advances, it must bring into action the capabilities of this Great Region for employing its dense yet (comparatively) idle population in promoting internal Commerce, and in opening the Field for the exchange of its valuable produce for the merchandize of other Nations.

CUSTOM HOUSE NOTICES.

TO protect from IMPOSITION such Persons as are strangers in Calcutta, and who employ Natives to transact Business for them at this Office, it is notified, that for every sum taken, as Government Customs or Duty, a receipted Bill is given under the signature of the Collector, or of his Deputy, or his Covenanted Assistant.

CLEARANCES, whether Inward or Outward, can be given only IN REGULAR TURN, and it is for Commanders, or others on their part, to see that their Applications be duly noted with the date and hour of receipt by the Supervisors respectively. Applications for Outward Clearance (or Export Manifests) cannot be received, unless accompanied by Certificate of Inward Clearance, and it is required that such Applications be presented at least *Five complete days* previously to the date on which PORT CLEARANCE is desired, in order that time may be allowed for the adjustment of Export Cargoes; though it will be issued earlier if practicable.

NO FEES are taken for any AFFIDAVITS sworn in this Office on the subject of Custom House Business; nor are any FEES whatever allowed to be taken by any Persons belonging to this Establishment, whether sitting within the Office, or stationed out of doors.

Importers of GUNPOWDER, are requested to refer to the Notification, by order of the Board of Customs, dated the 18th, and published in the Government Gazette of 23d January 1823.

The Proprietors of DOCK YARDS, and the PUBLIC at large, are requested to take notice, that no Goods, nor Packages, are allowed to be IMPORTED, EXPORTED, RE-LANDED, RE-SHIPPED, TRANSHIPPED, or removed from VESSELS to SLOOPS or BOATS after Shipment, without due sanction from this Office;—whether the same be liable to, or exempt from, DUTY. Attention is directed to Clause Seventh, Section XLV. to Sections LXI. LXIV. LXXIV. LXXXII. LXXXIII. & LXXXIV. of Regulation IX. 1810; and to Section III. of Regulation III. of 1830:—also to Clauses IV. and V. of the Government Notification of 28th June 1822, for Conditions of certain exemptions.—[20th March 1830.]

GOODS for ONE VESSEL taken to ANOTHER.—Notice is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the Forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III. Regulation III. of 1830.

If GOODS which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for RE-LAND, and subsequent RE-EXPORT to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.—[28th September 1832.]

ROWANAHS for GOODS RE-LANDED.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as Fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken if any be leviable on such Goods under the Regulations. But upon request, made on the face of Re-land Applications, (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired: and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[28th February 1833.]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year, for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood, and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833.]

MAFFER ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by Order of the Board of Customs, dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No. and Date must be given, or whole Despatches must be produced for Inspection at the Custom House;—otherwise Transit Duty will be charged.

All applications for MAFFEE ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. The number of each sort of package.—[8th April 1833.]

H. T. PRINSEP, *Secy. to Govt.*

POLITICAL DEPARTMENT,

5TH FEBRUARY, 1835.

In pursuance of the Notification published on the 23d ultimo, His Excellency the Right Honorable the Governor General of India in Council is now pleased to promulgate the following copy of a Supplementary Treaty between the British Government and Nawab Bahawul Khan of Bhawlpoor, for establishing a Toll on the Indus.

Whereas in the 6th Article of the Treaty concluded between the Honorable the East India Company and the Bhawlpoor Government, dated the 22d of February 1833, it was stipulated, that a moderate scale of duties should be fixed by the two Governments in concert, to be levied on all Merchandize in transit up and down the Rivers Indus and Suthledj, the said Governments being now of opinion that owing to the inexperience of the people of these countries in such matters the mode of levying duties then proposed (viz. on the value and quantity of goods) could not fail to give rise to mutual misunderstandings and reclamations, have, with a view to prevent these results, determined to substitute a Toll which shall be levied on all boats with whatever Merchandize laden, the following Articles have therefore been adopted as Supplementary to the former Treaty, and in conformity with them each Government engages that the Toll shall be levied, and its amount neither be increased nor diminished, except with the consent of both parties.

ARTICLE 1ST.

A Toll of 570 Rupees shall be levied on all boats laden with Merchandize in transit on the Rivers Indus and Suthledj between the Sea and Rooper, without reference to their size, or to the weight or value of their cargo, the above Toll to be divided among the different States in proportion to the extent of territory which they possess on the banks of these Rivers.

ARTICLE 2D.

The portion of the above Toll appertaining to the Bhawlpoor State and amounting to Rupees 108 12-2¼ shall be levied opposite to Mithenkot on boats coming from the Sea towards Rooper, and in the vicinity of Herree ke Peltin, on boats going from Rooper towards the Sea, and at no other place.

ARTICLE 3D.

In order to facilitate the realization of the Toll due to the different States, as well as for the speedy and satisfactory adjustment of any disputes which may arise connected with the safety of the Navigation and the welfare of the trade by the new route, a British Officer will reside near Mithenkot, and a Native Agent on the part of the British Government in the vicinity of Herree ke Peltin. These Officers will be subject to the orders of the British Agent at Loodeeanah, and the Agents who may be appointed to reside at those places on the part of the other States concerned in the Navigation, will co-operate with them in the execution of their duties.

ARTICLE 4TH.

The British Government binds itself, that the British Officer who may reside near Mithenkot shall not engage in trade, and (in conformity with the 4th Article of the former Treaty) that he shall not interfere in any way with the internal administration of the Bhawlpoor Government.

ARTICLE 5TH.

To order to guard against imposition on the part of Merchants in making false complaints of being plundered of property which they never possessed, they are required, when taking out their passports, to produce an Invoice of their cargo, which being duly authenticated, a copy of it will be annexed to their passports.

ARTICLE 6TH.

Such parts of the 6th, 7th, 11th, 13th, and 14th Articles of the Treaty of the 22d of February 1833, as have reference to the fixing a duty on the value and quantity of Merchandize and to the mode of its collection are hereby rescinded, and the foregoing Articles substituted in their place, agreeably to which, and the conditions of the preamble, the Toll shall be levied.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

H. T. PRINSEP, *Secy. to the Govt.*

ON THE NAVIGATION OF THE STRAITS OF MALACCA.
By Captain W. Hamley, R. N.

Compass Bearings.

The following is an extract of a letter from Capt. W. Hamley, R. N., lately in command of H. M. S. Wolf, on the East India Station, to Vice-Admiral Sir John Gore, the Commander-in-Chief. Notwithstanding there is so much information on the places alluded to by Captain Hamley in that invaluable work of Capt. Horsburgh, the East India Directory, which no one in those seas ever thinks of being without, yet the remarks we have extracted contain so much important and very desirable information on the navigation of the strait in general, that we are satisfied they will be acceptable to our East India commanders, and shall therefore give them without further comment:—

In running over for the straits, through whatever channel of the Nicobar Islands a ship may have come, she should endeavour to reach as far to the northward as Pulo Buton, as she is then likely to carry northerly winds to the entrance of Penang harbour; whereas, if she gets to the southward, there is often great delay from light winds, and a strong set down the straits, which renders it difficult to get round the north end of Penang.

After making Pulo Buton, she may run down outside the Lancarvis and Ladda Islands, at any distance most advisable from circumstances; but, should she have to go inside towards the Queda shore, she should not go into less than eight fathoms, as there is a bank extending at least three miles off, on which there is at times a great break, when the wind sets in from the south-west. I was obliged twice to slip, and run under the Boontings for shelter, where there is good anchorage in a S. W. wind.

After passing outside the Boontings, a vessel may run midway between the Malay shore and the Island of Penang; rather nearer the Malay shore is the deepest water. I have never gone in without having a quarter four fathoms cast on the mud bank, which stretches from side to side; but, as the bottom is

Off Cocob, also, there is very good anchorage, in from eleven to thirteen fathoms. Good anchorage extends all the way along this side to Barn Island, which is the entrance of Singapore strait. A ship should never attempt running through the Singapore strait in the night, except very well acquainted, particularly as she may always have good anchorage off Barn Island.

The greatest danger is Tree Island, on the south side of the entrance. It is very low sand, with a single tree on it, and a dangerous reef, extending almost to Red Island. It cannot be seen far off, being so very low; there is generally a strong set towards it. The tides here are very strong, and not at all regular, as I have known them run eighteen hours one way. In rounding the Coney, off Barn Island, you may pass within two and a half cables' length of it, and then stand for St. John, which forms the harbour of Singapore.

The anchorage on the east side of the Rabit and Coney is not so good, being twenty-four and thirty fathoms, with a rocky bottom, particularly towards the south shore.

The Buffalo Rock is visible at high-water, but should not be approached nearer than half a mile. There is plenty of room to beat by the marks laid down by Horsburgh.

The anchorage at Singapore is good, in four and five fathoms, with the flagstaff bearing N. W. by W. soft mud, and the water generally smooth, there is little danger. After passing the mud bank, the water deepens to seven, eight, and nine fathoms: the flagstaff on the fort bearing S. by E. half a mile, eight fathoms is good anchorage.

There is a good passage through the south channel for ships not drawing more than seventeen feet, and might be made a very safe one, if properly buoyed off: the only marks at present are the fishing-stakes, which are liable to be moved. I have gone through several times by the lead and stakes without difficulty.

In leaving Penang for the eastward, or coming to it, several days may be saved by taking this channel, instead of having to beat round the north end.

In leaving Penang, to go down the straits, it is well to keep on the Malay side, taking care to keep outside the Kio Flat that extends some distance off shore. You may pass close to the Dindings, and outside the white and black rocks of the Sambilongs. Running down the straits, a ship should keep on the edge of the north sands, which is the best guide. There is generally a set towards the Arrows, which are dangerous rocks, with reefs about, and extending some distance from them. I found good anchorage off the Long Arrows, in eight fathoms, when set on in light and variable winds.

The Round Arrow is the mark for running between the sands, until Parcelar Hill is made. A ship should never borrow too much on the south sands, as they are the most dangerous, and have deep water close to, but run along the north sands, in from fourteen to fifteen fathoms, passing over the south end of the two-and-a-half-fathom bank, in from eight to fifteen fathoms. After clearing the sands, you will have Parcelar Hill for a guide, till Cape Ricardo is made. The Bambeck Shoal, about three miles off shore, lying in a line with Parcelar Point and Cape Ricardo, is easily avoided. Here is the narrowest part of the straits, being only about nine miles between the Bambeck Shoal and the Pyramids on the south sands, which are the most dangerous, having deep water close to, and only one and a half and two fathoms in some parts.

From Cape Ricardo, keeping about three miles off shore, there are no dangers as far as Malacca but what are visible.

Fisher's Island, to the northward of Malacca, should not be approached nearer than a mile. The best achorage is in about eight fathoms, with the flag-staff bearing N. E. by E.

Leaving Malacca for Singapore, you may pass any distance outside the Water Islands, but not between them. To the southward, there is good anchorage all the way to Mount Formosa, in from ten to fifteen fathoms, two or three miles off shore. Off Formosa, there is a bank with only one and a half fathom on it, extending four miles off shore.

From Formosa to Pulo Pisang there are no dangers; but you must not run inside of Pisang, as there is a flat extending to the southward, to Pulo Cocob. Pulo Pisang itself stands on the edge of the flat. There is good anchorage in fourteen fathoms, about a mile and a half off Pisang.

A ship navigating the straits should have a stream-anchor at the bows, ready for letting go, as the tides are strong; and there being anchorage in almost every part, it saves a great deal.

The soundings and banks, as laid down in the charts, and Horsburgh's directions, are generally correct, and perfectly safe to run by.

The water is generally smooth, with land and sea-breezes. In the months of July and August there are very heavy squalls at times, called "Sumatras;" they do not last long: but a ship should always shorten sail in time; they give plenty of warning.

Remarks on the Strait and Roads of Singapore. *By Mr. J. S. Taylor, while acting Master of H. M. S. Wolf in 1832.*

Compass Bearings.

Rounded the Coney at two and a half cables' distance, in sixteen and seventeen fathoms. A reef extends from the Coney to the southward a good cable-length, which, at high-water, is nearly covered. I do not think this reef is explained by Horsburgh. I should have thought by his Directions, Coney to be a bluff steep rock to the southward. When this reef is covered, you may be sure it is, or very near, high-water. Anchored in twenty-four fathoms, with the kedge, (to stop tide,) half a mile southard of the Coney.

Anchored several times while working through the straits in twenty and twenty-four fathoms; the last time twenty-one fathoms, between Middle and St. John Islands, (working through) to stop tide. Bottom hard yellow clay. Centre of Middle Island, W. by N. ½ N.; south end of St. John, N. E. by E. ¾ E. Buffalo South, (easterly,) saw the reef eastward of Middle Island very plain, S. W. by W. ½ W. about a third of a mile from where we anchored. These soundings also agreed with Horsburgh, and his marks for tacking from the northern shore very good. In standing towards the south side, having a commanding breeze, we stood far beyond his marks, which you may do if you can make certain of keeping your breeze, and the two Ledges and the Buffalo distinctly seen. Rounded Signal Island at one cable and a half, seventeen and eighteen fathoms; at two cables, nineteen and twenty fathoms.

Working into Singapore Roads in the night, cloudy and dark, Signal Island not seen, a ship should be careful she does not stand over too far to the western shore. We put the helm down in nine fathoms and a half, (quarter flood,) had seven fathoms in stays; laid N. N. E. had three fathoms almost immediately. Kept away N. E. and deepened to four fathoms. I have since seen in the loose paper that accompanies Horsburgh, (of one sheet,) under the head of Singapore Anchorage, almost a similar thing. The Bridgewater, anchoring in nine fathoms veering half a cable, had only a quarter four at low-water. As this side is steep to, a ship in the night should be careful how far she stands over, especially if the flood has made.

We anchored five or six times in the Roads: the best anchorage appears to be (for a man of war) with Signal Island from S. to S. by W. and the flagstaff N. W. by W. in from three to eight and nine fathoms, at low-water. You are more out of the way of merchantmen here, and nearer the river, for landing, &c. We always anchored in three fathoms at low-water, and near these bearings.

Throughout the straits, the bottom is soft mud, except the northern part of Singapore Straits, which I have mentioned.

Tides in the Straits of Mallacca.* *By Mr. J. S. Taylor, acting Master of H. M. S. Wolf, between November 1832, and March 1833.*

Penang.—Anchorage off Fort Cornwallis Point, H. W.† at a quarter before four. Velocity, two miles and a third per hour. Spring-tides very regular. H. W. on shore nearly two hours sooner.

Arroas.—A few miles N. N. E. of Fort Cornwallis Point: H. W. at half-past six.

Cape Rachado.—Five miles west of Cape Rachado, H. W. about a quarter to eight. Found the tides between Parcelar Hill and the Cape regular, setting fair through the straits. Velocity, from one to two miles per hour, (neaps.)

Malacca.—H. W. in the roads at a quarter past nine. Velocity, two miles and a quarter per hour, (springs,) setting about W. N. W. and E. S. E. Were very regular. H. W. two hours earlier at the river.

North End of Long Middle Bank.—H. W. about ten, setting fair through the straits.

South End of Long Middle Bank.—H. W. about noon, setting fair through the straits.

Pulo Pisang.—H. W. half-past ten. Velocity, from 1-6 to 2-2 knots per hour.

Two Miles South of Pulo Cocob.—H. W. about one. Velocity, from 2 to 2-6 knots per hour, setting W. N. W. and E. S. E.

Trek Island.—H. W. half-past eleven, if at all regular.

The Coney and Singapore Straits.—H. W. at eleven, if at all regular. The tides between St. John and the Coney are sometimes very irregular indeed, the flood from the China Sea sometimes running sixteen hours together, and the velocity from 2½ to 4½ knots per hour, setting fair through the straits E. N. E. and W. S. W. It requires great attention to the steerage. This is in the north-east monsoon, and the flood running in the manner it does is, I rather think, owing to the strong winds in the China Sea at this season.

St. John Island.—H. W. about ten, if at all regular.

Singapore Roads.—H. W. at nine. Tides pretty regular here, setting N. E. and S. W. from 1 to 1½ knots per hour.

SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, MARCH 4, 1835.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorised to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

CUSTOM HOUSE NOTICES.

TO protect from IMPOSITION such Persons as are strangers in Calcutta, and who employ Natives to transact Business for them at this Office, it is notified, that for every sum taken, as Government Customs or Duty, a receipted Bill is given under the signature of the Collector, or of his Deputy, or his Covenanted Assistant.

CLEARANCES, whether Inward or Outward, can be given only IN REGULAR TURN, and it is for Commanders, or others on their part, to see that their Applications be duly noted with the date and hour of receipt by the Supervisors respectively. Applications for Outward Clearance (or Export Manifests) cannot be received, unless accompanied by Certificate of Inward Clearance, and it is required that such Applications be presented at least *Five complete days* previously to the date on which PORT CLEARANCE is desired, in order that time may be allowed for the adjustment of Export Cargoes: though it will be issued earlier if practicable.

NO FEES are taken for any AFFIDAVITS sworn in this Office on the subject of Custom House Business; nor are any FEES whatever allowed to be taken by any Persons belonging to this Establishment, whether sitting within the Office, or stationed out of doors.

Importers of GUNPOWDER, are requested to refer to the Notification, by order of the Board of Customs, dated the 18th, and published in the Government Gazette of 23d January 1823.

The Proprietors of DOCK YARDS, and the PUBLIC at large, are requested to take notice, that no Goods, nor Packages, are allowed to be IMPORTED, EXPORTED, RE-LANDED, RE-SHIPPED, TRANSHIPPED, or removed from VESSELS to SLOOPS or BOATS after Shipment, without due sanction from this Office;—whether the same be liable to, or exempt from, DUTY. Attention is directed to Clause Seventh, Section XLV. to Sections LXI LXIV. LXXIV. LXXXII. LXXXIII. & LXXXIV. of Regulation IX. 1810; and to Section III. of Regulation III. of 1830:—also to Clauses IV. and V. of the Government Notification of 28th June 1822, for Conditions of certain exemptions.—[20th March 1830.]

GOODS for ONE VESSEL taken to ANOTHER.—Notice is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the Forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III. Regulation III. of 1830.

If GOODS which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for RE-LAND, and subsequent RE-EXPORT to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.—[28th September 1832.]

ROWANAHS for GOODS RE-LANDED.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as Fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications, (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired: and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[28th February 1833.]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833.]

MAFFEE ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by Order of the Board of Customs, dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either

Sea Import No. and Date must be given, or whole Despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All applications for MAFFER ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. The number of each sort of package.—[8th April 1848.]

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days' sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

GENERAL ORDERS BY HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, *5th March*, 1835.

No. 64 of 1835.—The result of the multiplied enquiries on the subject of Canteens instituted by His Excellency the Commander in Chief, has satisfied the Right Honorable the Governor General of India in Council that the Canteen System has been productive of much good and may be made still more beneficial.

The reports of the Commanding Officers of His Majesty's Regiments, and of the Company's European Troops, are almost universally in its favour, but a want is much felt of some uniform system, calculated to ensure a constant and scrupulous appropriation of the surplus money arising from the profits of the Canteen, to purposes tending to encrease the happiness and comfort of the men and their families.

The Canteen Fund arises from the difference between the price at which the Government issue the Liquor, and the price at which it is retailed to the Soldier. In Bengal the Government issue Rum at the rate of 2 Rupees per Gallon, and it is retailed at 1 anna per dram or 40 annas per Gallon. The settlement of the rates of issue at Madras and Bombay belongs to those Governments respectively.

In Bengal since the establishment of Canteens, compensation in lieu of Liquor is paid to the European Soldier, at the rate of 3 Rupees 2 annas per mensem for a month of 30 days, at Stations were two drams per man were daily issued, and at half that sum at Stations where only one dram was allowed. Compensation in lieu of Liquor in kind is paid by the Commissariat to Pay Masters of His Majesty's Regiments, and to Quarter Masters of the Honorable Company's European Corps, on Monthly Abstract Returns, countersigned by Commanding Officers, who are authorized to direct the stoppage of such compensation as a punishment for petty offences in like manner as they were formerly allowed to stop the drams for which it is substituted. Compensation is also stopped for the period men may be in Hospital, or in Confinement. The amount of these stoppages, when made

for petty offences, is to be carried to the credit o the Canteen Fund. Payment or stoppage at Madras and Bombay of compensation for Liquor, will, like the rates of issue, be regulated by the Governments of those Presidencies.

In the Presidency of Madras the Canteen Fund has, at times, been allowed to accumulate to such a degree, that His Majesty 46th Regiment carried to England nearly 40,000 Rupees of Canteen Savings. The 300 men who volunteered further service in India, received no part of this money, which, had it been employed in India for the benefit of the Soldier, would have essentially contributed to the increase of his comforts, while its distribution would have been just and equal.

The management, also, has been, in many instances, unnecessarily expensive, giving to individuals extravagant salaries, and undue profits, to the prejudice of the Fund, and of those interested in its prosperity.

To correct, therefore, these defects, and to introduce such improvements, as subsequent experience has suggested, the Governor General of India in Council is pleased to substitute for the rules now in force, the following Regulations, applicable to all the Presidencies, for the government of Canteens and the management of their Funds.

Regulations for Regimental Canteens.

In every Regiment the Canteen Fund shall be managed by a standing quarterly Committee, composed of a Captain, and two Subalterns of not less than 5 years standing, under the direction and controul of the Commanding Officer. The Books of the Committee to be kept with the greatest regularity, and be open to public inspection.

This standing quarterly Committee is to superintend the whole business of the Canteen, and a steady Non-Commissioned Officer to be selected by the Commanding Officer, is to be placed under their orders as Canteen Serjeant.

The Commanding Officer is at liberty, if he shall deem it expedient, to appoint a Subordinate Committee of Non-Commissioned Officers, to act under the orders of the standing quarterly Committee, for the purpose of more immediate superintendance of the general management of the Canteen; but to have no concern in any money payments or contracts.

The Canteen Establishment in each Regiment to be as follows:

1 Canteen Serjeant,..........	50	Rupees.
1 European Assistant, ...	16	,,
1 Native Writer, ...	12	,,

The number of Native Servants required, to be determined by the standing quarterly Committee, with the sanction of the Commanding Officer, and specified in each quarterly Return.

No Surplus Fund from the savings of the Canteen shall be permitted to accrue beyond the sum of 3000 Rupees.

The residue shall be employed, under the discretion of the Commanding Officer, for the benefit of the Regimental School; the Soldiers' Library, their Mess Necessaries; their Amusements; in Charity to their Widows and Orphans, and to their old and discharged Comrades; in aid and assistance of the Women and Children on their removal from one Station to another, and the payment of the Canteen Establishment.

As it is much to be desired, that every means should be employed to induce the Soldier to give the preference to Malt Liquor, rather than to Spirits, the attention of Commanding Officers and Committees is particularly called to this important point; and to the expediency of adopting every practicable means of reducing the price of Beer, without sacrificing the goodness of its quality. Whatever sum can be spared from the savings of the Canteen, without interfering with the distribution already detailed, is to be employed to that effect, but to no other purpose, without a special sanction from Head-Quarters.

A Report of the Proceedings and Management of the Canteen of each Regiment is to be submitted quarterly, through the General Officer Commanding the Division; from the King's Corps to the Adjutant General King's Troops, or his Deputies; and from the Company's to the Adjutants General of the Army; for submission to their respective Commanders in Chief, who will transmit them to the Commander in Chief of India.

The following rules are laid down for the government of Canteens:

No Arrack or Country made Spirits, except that furnished by the Commissariat, will be allowed in the Canteen.

The Canteen Serjeant, who is to perform the Office of Steward in the Canteen, and not of Contractor, will provide Bread, Butter, Cheese, Sugar, Limes, Lime-juice, Coffee, Tea, Tobacco, and Cigars, to be paid for, in the first instance, out of the Canteen Fund; and retailed at prices to be fixed by the standing quarterly Committee, with the sanction of the Commanding Officer.

The Canteen is to be provided, out of the Fund, with convenient Tables and Forms, and with Tumblers, Glasses and Spoons; also with Skettles, Quoits, Draft Boards, &c., but neither Cards nor Dice are to be allowed, and gambling of every description is positively forbidden.

There is to be a separate room in the Canteen for the Non-Commissioned Officers, distinct from that occupied by the Privates.

The Canteen is to be opened in the hot season, or from 1st April to 1st November, from Gun-fire until 10 A. M., and again from 5 P. M. until watch-setting. During the cold season, or from 1st November to 1st April, from Gun-fire until 12 o'clock, and again from 4 P. M. until watch-setting.

After the Canteen shall have been closed for the night no person is to be admitted until the following morning, at the fixed time of opening it.

No person who may appear intoxicated is to be permitted to enter the Canteen, nor is any man to be permitted to remain there in a state of intoxication.

No man who is under punishment is to be allowed to enter the Canteen. The names of the men under punishment, will be furnished by the Serjeant Major, and placed in a board that they may be known and prevented from entering.

The Captain of the Day and Orderly Officer will visit the Canteen, within the hours of its being open, specifying their having done so in their Reports.

An Orderly Serjeant to be relieved daily, will attend constantly at the Canteen, when open, for the purpose of assisting the Canteen Serjeant in preserving order and regularity; and he will report on the instant, to the Officer on duty, any irregularity he is unable to repress. A small Guard will also be attached to the Canteen unless there be a Guard near it.

The standing quarterly Committee for the management of the Canteen, will, with the sanction of the Commanding Officer, give orders for such supplies of Wine, Beer, Spruce and Ginger Beer, and Spirits, as may from time to time, be judged necessary; and, under his direction, fix in addition to the prime cost of Liquor, such a rate of profit as will be sufficient to indemnify the Fund for contingent losses and charges, including carriage and insurance, and to contribute to the furtherance of the general objects of the Canteen Fund. The Committee will also give its particular attention to the quality of the supplies and to the delivery to the relieving Committee, of a correct statement of Stock-in-hand, and orders given.

No Spirituous Liquor, Wine, or Beer, shall, on any account, be sold or issued from the Canteen, directly or indirectly, to any Native whatsoever, whether a follower of the Regiment or otherwise; nor shall any of these articles be allowed to be taken or sent away from the Canteen, except on special occasions, when the Soldier requiring them, for himself or his family, must produce an Order, signed by the Officer Commanding his Company, who will report his having granted it to the Commanding Officer, as well as the quantity permitted to be taken away.

Any person who may break or destroy a part of the furniture, or of the articles belonging to the Canteen, is to be at the expence of repairing or replacing the same, and if necessary he is to be put under stoppages for this purpose, by his own consent, unless he prefer appealing to a Court Martial. If the Canteen Serjeant neglect to enforce this rule, he will make good the loss himself.

The Canteen Serjeant will be held responsible that it be always kept clean and properly ventilated, and that it be regularly lighted from dark until closed for the night.

The prices of all articles supplied by the Canteen, and the rules for its guidance, are to be

copied in a legible hand, and to be hung up in a conspicuous part of the Canteen.

The men are expected to attend the Canteen either in their Regimental, or in a clean and neat fatigue dress.

Returns of each day's consumption of Liquor are to be furnished daily by the Canteen Serjeant; and submitted by the standing quarterly Committee to the Commanding Officer every Monday.

The Committee, with the approbation of the Commanding Officer, are to fix upon the form of a plain and distinct set of Books, which are to be kept by the Canteen Serjeant, shewing the quantities of Wine, Beer, Spirits, &c. that are expended, and the profit to the Fund upon each article. These Books, as well as the general Account Books of the standing quarterly Committee, are to be produced at every half yearly inspection.

All the minor rules for the government of the Canteen, are left to the judgment and discretion of Commanding Officers, with the Proviso, that Tea and Coffee are always to be ready at the Canteen at day-break, for such men as chuse to pay for them, and that no man is to be allowed more than one dram before 10 o'clock A. M.

This General Order is to supersede all former Orders upon the subject of Canteens, or the employment of their Funds.

The Governor General of India in Council, with the concurrence of the Commander in Chief, is further pleased to direct, that the European Soldiery be not confined to the Barracks except during the heat of the day in the hot season, or when under punishment; it being considered that more injury is done to the minds and bodies of men by the despondency and misery produced by confinement, than could possibly arise from moderate exposure.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the proceedings of Government in the Financial Department is published for general information :

Read a Letter from Committtee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council having given to these papers his anxious and attentive consideration, resolves as follows :

First. That an Office for the Insurance of Lives, under the guarantee and on the Credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1836.

The following extract from the Proceedings of Government in the Financial Department, is published for general information :

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows :

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to those Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

No. 70 of 1835.—The Right Hon'ble the Commander in Chief having deemed it necessary to alter to a certain extent the distribution of the Divisional Staff of the Army, and having been pleased, in furtherance of that object, and in the exercise of his legitimate and unquestionable authority, to remove Assistant Adjutant General of Division Captain J. H. Mackinlay, from Cawnpore to Meerut; that Officer, forgetting the respect and obedience due to the Head of the Army, has thought proper not only to remonstrate against His Excellency's Orders, but as Deputy Post Master at Cawnpore, to appeal against them to Government through the Post Master General.

AUSPICIO REGIS ET SENATUS ANGLIÆ

SECOND SUPPLEMENT TO

The Calcutta Gazette.

Published by Authority.

WEDNESDAY, MARCH 18, 1835.

FORT WILLIAM,

JUDICIAL AND REVENUE DEPARTMENT, THE 5TH MARCH, 1835.

His Excellency the Right Honorable the Governor General of India in Council is pleased to direct, that the following Documents relative to Works of Public Utility constructed by Individuals at their own private cost within the Bengal and Agrah Presidencies, be published for general information

MEMOIR.

Works of Public Utility executed by Private Individuals.

The Governor General, at an early period, having been impressed with a conviction that many Individuals of opulence among the Native inhabitants of these Provinces, if encouraged by Government would readily be induced to undertake the execution, at their own expense, of Works of Public Utility, considered it of much importance to make the wishes of Government known through the principal Civil Officers with the view of directing their attention to the subject; and requiring their best exertions in promoting an object, which, if successfully instituted, could not fail to be highly advantageous to the country at large.

It was not doubted by His Lordship that, if zealously supported by the local authorities, the earnest desire of Government would be very generally gratified by the acquiescence of a people whose national not to say religious usages, strongly dispose them to acts of public benevolence.

District Committees were formed composed partly of Native Gentlemen in the neighbourhood, with the view of creating in them an interest in the Work of General Improvement, and it was hoped that through their influence and exertions considerable progress would be made in concert with the Department of Public Works, in benefiting the Districts to which they belonged and consequently the country in general.

It was the intention of the Governor General to mark by the special approbation of Government, the Individuals who might thus be distinguished as public benefactors—And, in pursuance of this design, in January 1834, it was directed that a Report should be furnished from each District within the Bengal Provinces, stating the Works of Public Utility which had within these few years been executed by Individuals at their own private cost.

It is satisfactory to observe that of the Works reported, although there are few on a very extensive scale, yet that there are many of importance, and that from their number they form a considerable addition to the operations of General Improvement which have been instituted and are advancing throughout our Territories

The following is a Summary of the principal Works referred to,—

1st.—Four Iron Suspension Bridges.

2d.—Eighty-six Bridges of Masonry

3d.—Seventy different Roads, some of considerable extent, as 24 and 28 miles.

4th.—Four Hundred and Twelve Tanks

5th.—One Hundred and Thirteen Wells.

6th.—One Hundred and Seven Ghauts

7th.—Fifteen Serayes for the accommodation of Travellers, besides Plantations and avenues of Trees by the way side along the various Public Roads, and other Minor Works, contributing to the comfort of the Traveller and the convenience of the Public.

It is due to the public spirited Individuals who have thus contributed to the benefit of their Country, that their names should be known, and His Lordship in Council has accordingly directed the Tabular Statements inserted below, to be published. But it would not be doing justice to the sentiments entertained by His Lordship were he not to mark by special selection among this honorable body. The following who have been pre-eminently distinguished

Rajah Tazchund Bahadoor, late Rajah of Burdwan
Her Highness Bala Baee, Sister of the late Maha Rajah Dowlut Row Scindia.
Her Highness Begum Sumroo
Rajah Sookmoy Roy, deceased.
Raja Putnee Mull
Rajah Seebchunder Roy
Rajah Nursing Roy
Hukeem Mehndee Alee Khan
Rajah Mittrajeet Sing
Rajah Kishenchund
Rajah Anund Kishwur Sing.
Rajah Jāeperkash Sing
Rajah Gopal Inderam
Ranee Zoorun Nissa, of Purneeah
Baboo Kaleenauth Roy, of Takee
Baboo Kalee Potahdar, of Jessore

To those estimable Individuals who have thus taken the lead in, and to those who have contributed towards an object no less honorable to themselves than beneficial to their Country, the thanks of Government are eminently due It is hoped that they will persevere in a course which must be equally gratifying to them as it is demonstrative of an enlightened understanding which places them in advance of the age in which they live. His Lordship trusts that their valuable example will be cordially followed to an extent which shall enable Government to direct the public labor and resources to specific objects of great and general importance, being fully assured that few measures would tend more to the general welfare of this interesting Country than such an union of public effort with private munificence

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of JAMES CALDER AND OTHERS, heretofore Trading in Co-partnership at Calcutta, as Merchants and Agents, under the Style and Firm of MACKINTOSH AND COMPANY, Insolvents.

At a Court holden on Saturday, the Seventh day of March, One Thousand Eight Hundred and Thirty-five, upon application in behalf of Messieurs Robert Castle Jenkins and Thomas Holroyd, the Assignees of the Estate and Effects of the said Insolvents, with an Affidavit in verification thereof, whereby it appears that the aggregate amount of the Debts claimed to be due by the joint Estate of the said Insolvents, (exclusive of those secured by mortgage) is Sicca Rupees (2,32,53,492) Two Crore, Thirty-two Lacs, Fifty-three Thousand, Four Hundred and Ninety-two. That a Dividend upon the said sum at the rate of (5) Five per cent. would amount to the sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand, Six Hundred and Seventy-four, Nine Annas and Seven Pies. That the said Assignees are possessed of Funds, Acceptances, Indigo and other Property available for the purpose of a Dividend belonging to the said Estate amounting at least to the sum of Sicca Rupees (12,00,000) Twelve Lacs. That all the Property of the said Insolvents is not situated, and that all their Debtors and Creditors are not resident, within the limits of the Charter of the East India Company; and that Twelve Calendar Months have not yet expired since the publication of the Notice in the *London Gazette* of the Adjudication of Insolvency in this matter under the provisions of the Statute 9th Geo. IV. Cap. 73, and it is therefore necessary for the said Assignees, in making a Dividend amongst the Creditors of the said Insolvents, to reserve One-Third of the amount now in their possession pursuant to the provisions of the said Statute; that if the full amount of One-Third Part of the said sum so in the possession of the said Assignees as aforesaid be deducted and reserved in the terms of the said Statute, there will remain in the hands of the said Assignees the sum of Sicca Rupees (8,00,000) Eight Lacs, for division among the Creditors of the said Insolvents and payment of the commission of the said Assignees, and that such last mentioned sum is somewhat more than sufficient to pay a Dividend of Sicca Rupees (3-5-4) Three, Five Annas, and Four Pie per cent. in the whole Debts so due by the said late Firm as aforesaid, exclusive of those secured by mortgage.—It was Ordered, that One-Third of the said sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand Six Hundred and Seventy-four, Nine Annas and Seven Pies, so in the hands of the said Assignees as aforesaid, be forthwith invested in Government Securities, and that the said Securities be deposited in the hands of the Government Agents and remain there until One year shall have elapsed after the publication of a Notice in the *London Gazette* of the said Adjudication.—and It was further Ordered, that the said Assignees do forthwith pay a Dividend of Sicca Rupees (3) Three per cent. upon the claims admitted on the Schedules of the said Insolvents, when and as soon as such claims shall be severally duly substantiated to the satisfaction of the said Assignees.

Notice whereof is hereby given.

SATURDAY, MARCH 21, 1835.

GENERAL ORDERS BY HIS EXCELLENCY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 5TH MARCH, 1835.

No. 55 of 1835.—The Right Honorable the Governor General of India in Council is pleased to notify to the Army engaged in the Campaign of 1817-18, under the General Command of the late Marquis of Hastings, that Distribution Statements and Nominal Rolls of all Officers and Men of the *Company's Service*, who are declared entitled to Share in the Second Payment of that portion of the Deccan Booty designated "Constructive Capture," have been received from the Honorable the Court of Directors, with instructions to effect the payments forthwith.

The following List of the "Bengal General Staff" employed during the Campaign, whose claims are admitted under that head, is published for the information of those concerned; but, adverting to the voluminous extent of Regimental Claimants, it is only deemed expedient to furnish each Corps or Separate Detachment engaged during the War, with Distribution Rolls and Statements specially appertaining to such Corps or Detachments. All Individuals (the General Staff excepted) who served on this occasion, will accordingly prefer their Claims to the Regimental Committee of the Corps to which they were respectively attached, in the form and manner prescribed by General Orders No. 72 of 1828; and the Claims of those on the Staff List, will be preferred direct to the Presidency Pay Master, by Parties concerned, or by their Representatives, accompanied in the latter Case by Vouchers shewing that the Applicants are legally entitled or authorized to receive the Shares claimed.

The Claims of the 47th Regiment Native Infantry, late 1st Battalion 24th Regiment Native Infantry, one of the Corps entitled to Share in the present Distribution, will be adjusted in the manner prescribed by General Orders, No. 159, dated 7th August 1829.

An Abstract Figured Statement, shewing the aggregate amount of Shares admitted to each Corps, or Separate Troop or Company, will be furnished to the Accountant General and Presidency Pay Master, and any further information required by those Functionaries from the Prize Lists, may be obtained on application to the Secretary to the Government of India in the Military Department.

The mode of preferring Claims, the Forms of Distribution, and the Rules laid down in General Orders No. 72 of 1828, are declared applicable to the present occasion, and the period of closing the Proceedings of the several Committees is limited to the 1st of May 1836, on or before which date, the Documents and Reports connected therewith, will be transmitted to the General Prize Committee at the Presidency, to enable that Committee to fill up the Rolls for re-transmission to the Hon'ble the Court of Directors.

The unappropriated Balances remaining in the hands of Committees, are to be remitted in the manner prescribed, to the General Treasury, and a Statement thereof furnished to the General Prize Committee.

BENGAL GENERAL STAFF.

Distribution List for a second payment made on account of the Proceeds of the Booty acquired by the combined operations of the Forces which served under the Command of the Most Noble Francis, Marquis of Hastings, in the War against the Pindarees and certain of the Mahratta States in the years 1817 and 1818.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee, and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

In the matter of James Calder and Others, heretofore Trading in Co-partnership at Calcutta, as Merchants and Agents, under the Style and Firm of Mackintosh and Company, Insolvents.

At a Court holden on Saturday, the Seventh day of March, One Thousand Eight Hundred and Thirty-five, upon application in behalf of Messieurs Robert Castle Jenkins and Thomas Holroyd, the Assignees of the Estate and Effects of the said Insolvents, with an Affidavit in verification thereof, whereby it appears that the aggregate amount of the Debts claimed to be due by the joint Estate of the said Insolvents, (exclusive of those secured by mortgage) is Sicca Rupees (2,32,53,492) Two Crore, Thirty-two Lacs, Fifty-three Thousand, Four Hundred and Ninety-two. That a Dividend upon the said sum at the rate of (5) Five per cent. would amount to the sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand, Six Hundred and Seventy-four, Nine Annas and Seven Pies. That the said Assignees are possessed of Funds, Acceptances, Indigo and other Property available for the purpose of a Dividend belonging to the said Estate amounting at least to the sum of Sicca Rupees (12,00,000) Twelve Lacs. That all the Property of the said Insolvents is not situated, and that all their Debtors and Creditors are not resident, within the limits of the Charter of the East India Company; and that Twelve Calendar Months have not yet expired since the publication of the Notice in the *London Gazette* of the Adjudication of Insolvency in this matter under the provisions of the Statute 9th Geo. IV. Cap. 73, and it is therefore necessary for the said Assignees, in making a Dividend amongst the Creditors of the said Insolvents, to reserve One-Third of the amount now in their possession pursuant to the provisions of the said Statute; that if the full amount of One-Third Part of the said sum so in the possession of the said Assignees as aforesaid be deducted and reserved in the terms of the said Statute, there will remain in the hands of the said Assignees the sum of Sicca Rupees (8,00,000) Eight Lacs, for division among the Creditors of the said Insolvents and payment of the commission of the said Assignees, and that such last mentioned sum is somewhat more than sufficient to pay a Dividend of Sicca Rupees (3-5-4) Three, Five Annas, and Four Pie per cent. in the whole Debts so due by the said late Firm as aforesaid, exclusive of those secured by mortgage—It was Ordered, that One-Third of the said sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand Six Hundred and Seventy-four, Nine Annas and Seven Pies, so in the hands of the said Assignees as aforesaid, be forthwith invested in Government Securi-

FINANCIAL DEPARTMENT,
THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834 Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows;

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

Court for the Relief of Insolvent Debtors at Calcutta.

In the matter of JAMES CALDER AND OTHERS, heretofore Trading in Co-partnership at Calcutta, as Merchants and Agents, under the Style and Firm of MACKINTOSH AND COMPANY, Insolvents.

At a Court holden on Saturday, the Seventh day of March, One Thousand Eight Hundred and Thirty-five, upon application in behalf of Messieurs Robert Castle Jenkins and Thomas Holroyd, the Assignees of the Estate and Effects of the said Insolvents, with an Affidavit in verification thereof, whereby it appears that the aggregate amount of the Debts claimed to be due by the joint Estate, of the said Insolvents, (exclusive of those secured by mortgage) is Sicca Rupees (2,32,53,492) Two Crore, Thirty-two Lacs, Fifty-three Thousand, Four Hundred and Ninety-two. That a Dividend upon the said sum at the rate of (5) Five per cent. would amount to the sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand, Six Hundred and Seventy-four, Nine Annas and Seven Pies. That the said Assignees are possessed of Funds, Acceptances, Indigo and other Property available for the purpose of a Dividend belonging to the said Estate amounting at least to the sum of Sicca Rupees (12,00,000) Twelve Lacs. That all the Property of the said Insolvents is not situated, and that all their Debtors and Creditors are not resident, within the limits of the Charter of the East India Company; and that Twelve Calendar Months have not yet expired since the publication of the Notice in the *London Gazette* of the Adjudication of Insolvency in this matter under the provisions of the Statute 9th Geo. IV. Cap. 73, and it is therefore necessary for the said Assignees, in making a Dividend amongst the Creditors of the said Insolvents, to reserve One-Third of the amount now in their possession pursuant to the provisions of the said Statute: that if the full amount of One-Third Part of the said sum so in the possession of the said Assignees as aforesaid be deducted and reserved in the terms of the said Statute, there will remain in the hands of the said Assignees the sum of Sicca Rupees (8,00,000) Eight Lacs, for division among the Creditors of the said Insolvents and payment of the commission of the said Assignees, and that such last mentioned sum is somewhat more than sufficient to pay a Dividend of Sicca Rupees (3-5-4) Three, Five Annas, and Four Pie per cent. in the whole Debts so due by the said late Firm as aforesaid, exclusive of those secured by mortgage—It was Ordered, that One-Third of the said sum of Sicca Rupees (11,62,674-9-7) Eleven Lacs, Sixty-two Thousand Six Hundred and Seventy-four, Nine Annas and Seven Pies, so in the hands of the said Assignees as aforesaid, be forthwith invested in Government Securities, and that the said Securities be deposited in the hands of the Government Agents and remain there until One year shall have elapsed after the publication of a Notice in the *London Gazette* of the said Adjudication—and It was further Ordered, that the said Assignees do forthwith pay a Dividend of Sicca Rupees (3) Three per cent. upon the claims admitted on the Schedules of the said Insolvents, when and as soon as such claims shall be severally duly substantiated to the satisfaction of the said Assignees.

Notice whereof is hereby given.

Vessels to be Surveyed previous to Registry.

XV. And in order to enable the Collector and Controller of His Majesty's Customs to grant a Certificate truly and accurately describing every Ship or Vessel to be Registered in pursuance of this Act, and also to enable all other Officers of His Majesty's Customs, on due Examination, to discover whether any such Ship or Vessel is the same with that for which a Certificate is alleged to have been granted; be it enacted, That previous to the Registering or granting of any Certificate of Registry as aforesaid some one or more Person or Persons appointed by the Commissioners of His Majesty's Customs (taking to his or their Assistance, if he or they shall judge it necessary, one or more Person or Persons skilled in the Building and Admeasurement of Ships,) shall go on board of every such Ship or Vessel as is to be Registered, and shall strictly and accurately examine and admeasure every Ship or Vessel as to all and every Particular contained in the Form of the Certificate herein-before directed, in the presence of the Master, or of any other Person who shall be appointed for that purpose on the part of the Owner or Owners, or in his or their Absence by the said Master; and shall deliver a true and just Account in writing of all such Particulars of the Built, Description, and Admeasurement of every such Ship or Vessel as are specified in the Form of Certificate above recited to the Collector and Controller authorized as aforesaid to make such Registry and grant such Certificate of Registry; and the said Master or other Person attending on the part of the Owner or Owners is hereby required to sign his Name also to the Certificate of such Surveying or Examining Officer, in Testimony of the Truth thereof, provided such Master or other Person shall consent and agree to the several Particulars set forth and described therein.

Mode of Admeasurement to ascertain Tonnage.

XVI. And be it further enacted, That for the purpose of ascertaining the Tonnage of Ships or Vessels, the Rule for Admeasurement shall be as follows; (that is to say,) the Length shall be taken on a straight Line along the Rabbet of the Keel, from the Back of the Main Stern-post to a perpendicular Line from the fore Part of the Main Stem under the Bowsprit, from which subtracting Three-fifths of the Breadth, the Remainder shall be esteemed the just Length of the Keel to find the Tonnage; and the Breadth shall be taken from the Outside of the Outside Plank in the broadest part of the Ship, whether that shall be above or below the Main Wales, exclusive of all manner of Doubling Planks that may be wrought upon the Sides of the Ship; then multiplying the Length of the Keel by the Breadth so taken, and that Product by Half the Breadth and dividing the whole by Ninety-four, the Quotient shall be deemed the true Contents of the Tonnage.

Mode of ascertaining Tonnage when Vessels are afloat.

XVII. And whereas it would in some Cases endanger Ships or Vessels to cause them to be laid on Shore; be it therefore enacted, That in Cases where it may be necessary to ascertain the Tonnage of any Ship or Vessel when afloat, according to the foregoing Rule, the following method shall be observed; (that is to say,) drop a Plumb Line over the Stern of the Ship, and measure the Distance between such Line and the after part of the Stern-Post at the Load

water-mark, then measure from the Top of the Plumb Line, in a parallel Direction with the water, to a perpendicular Point immediately over the Load water-mark at the fore part of the Main Stem, subtracting from such Measurement the above Distance, the Remainder will be the Ship's Extreme, from which is to be deducted, three Inches for every Foot of the Load Draught of Water for the Rake abaft, also Three Fifths of the Ship's Breadth for the Rake forward, the Remainder shall be esteemed the just Length of the Keel to find the Tonnage, and the Breadth shall be taken from Outside to Outside of the Plank in the broadest part of the Ship, whether that shall be above or below the Main Wales, exclusive of all manner of Sheathing or Doubling that may be wrought on the Side of the Ship; then multiplying the Length of the Keel for Tonnage by the Breadth so taken, and that Product by Half the Breadth, and dividing by Ninety-four the Quotient shall be deemed the true Contents of the Tonnage.

Engine Room in Steam Vessels to be deducted.

XVIII. Provided always, and be it further enacted, That in each of the several Rules herein-before prescribed, when used for the Purpose of ascertaining the Tonnage of any Ship or Vessel propelled by Steam, the Length of the Engine Room shall be deducted from the whole Length of such Ship or Vessel, and the Remainder shall, for such Purpose, be deemed the whole Length of the same.

Tonnage when so ascertained to be ever after deemed the Tonnage.

XIX. And be it further enacted, That whenever the Tonnage of any Ship or Vessel shall have been ascertained according to the Rule herein prescribed (except in the case of Ships or Vessels which have been admeasured afloat), such Account of Tonnage shall ever after be deemed the Tonnage of such Ship or Vessel, and shall be repeated in every subsequent Registry of such Ship or Vessel, unless it shall happen that any Alteration has been made in the Form and Burthen of such Ship or Vessel, or it shall be discovered that the Tonnage of such Ship or Vessel had been erroneously taken and computed.

Entry of Bill of Sale to be valid, except in certain cases.

XXXV. And be it further enacted, That when and so soon as the Particulars of any Bill of Sale or other Instrument by which any Ship or Vessel, or any Share or Shares thereof, shall be transferred, shall have been so entered in the Book of Registry as aforesaid, the said Bill of Sale or other Instrument shall be valid and effectual to pass the Property thereby intended to be transferred as against all and every Person and Persons whatsoever, and to all Intents and Purposes, except as against such subsequent Purchasers and Mortgagees who shall first procure the Indorsement to be made upon the Certificate of Registry of such Ship or Vessel in manner herein-after mentioned.

When a Bill of Sale has been entered for any Shares, Thirty Days shall be allowed for Indorsing the Certificate of Registry before any other Bill of Sale for the same shall be entered.

XXXVI. And be it further enacted, That when and after the Particulars of any Bill of Sale or other Instrument by which any Ship or Vessel, or any Share or Shares thereof, shall be transferred, shall have been so entered in the Book of Registry as aforesaid, the Collector and Controller shall not enter in the Book of Registry the Particulars of any other Bill of Sale or Instrument purporting to be a Transfer by the same Vendor or Mortgagor, or Vendors or Mortgagors of the same Ship or Vessel, Share or Shares thereof, to any other Person or Persons, unless Thirty Days shall elapse from the Day on which the Particulars of the former Bill of Sale or other Instrument were entered in the Book of Registry; or in case the Ship or Vessel was absent from the Port to which she belonged at the Time when the Particulars of such former Bill of Sale or other Instrument were entered in the Book of Registry, then unless Thirty Days shall have elapsed from the Day on which the Ship or Vessel arrived at the Port to which the same belonged; and in case the Particulars of two or more such Bills of Sales or other Instruments as aforesaid shall at any Time have been entered in the Book of Registry of the said Ship or Vessel, the Collector and Controller shall not enter in the Book of Registry, the Particulars of any other Bill of Sale or other Instrument as aforesaid, unless Thirty Days shall in like manner have elapsed from the Day on which the Particulars of the last of such Bill of Sale or other Instrument were entered in the Books of Registry, or from the Day on which the Ship or Vessel arrived at the Port to which she belonged, in case of her absence as aforesaid; and in every case where there shall at any Time happen to be two or more Transfers by the same Owner or Owners of the same Property in any Ship or Vessel entered in the Book of Registry as aforesaid, the Collector and Controller are hereby required to Indorse upon the Certificate of Registry of such Ship or Vessel, the Particulars of that Bill of Sale or other Instrument under which the Person or Persons claims or claim Property, who shall produce the Certificate of Registry for that Purpose within Thirty Days next after the Entry of his said Bill of Sale or other Instrument in the Book of Registry as aforesaid, or within Thirty Days next after the Return of the said Ship or Vessel to the Port to which she belongs, in case of her Absence at the time of such Entry as aforesaid, and in case no Person or Persons shall produce the Certificate of Registry within either of the said Spaces of Thirty Days, then it shall be lawful for the Collector and Controller, and they are hereby required, to Indorse upon the Certificate of Registry the Particulars of the Bill of Sale or other Instrument to such Person or Persons as shall first produce the Certificate of Registry for that Purpose, it being the true Intent and Meaning of this Act that the several Purchasers and Mortgagees of such Ship or Vessel, Share or Shares thereof, when more than one appear to claim the same Property, or to claim Security on the same Property, in the same Rank and Degree, shall have Priority one over the other, not according to the respective

Nature of the Priority intended in this Act.

Times when the Particulars of the Bill of Sale or other Instrument by which such Property was transferred to them were entered in the Book of Registry as aforesaid, but according to the time when the Indorsement is made upon the Certificate of Registry as aforesaid: Provided always, that if the Certificate of Registry shall be lost or mislaid, or shall be detained by any Person whatever, so that the Indorsement cannot in due time be made thereon, and Proof thereof shall be made by the Purchaser or Mortgagee, or his known Agent, to the satisfaction of the Commissioners of His Majesty's Customs, it shall be lawful for the said Commissioners to grant such further time as to them shall appear necessary for the recovery of the Certificate of Registry, or for the Registry *de novo* of the said Ship or Vessel under the Provisions of this Act, and thereupon the Collector and Controller shall make a Memorandum in the Book of Registers of the further time so granted and during such time no other Bill of Sale shall be entered for the Transfer of the same Ship or Vessel, or the same Share or Shares thereof, or for giving the same Security thereon.

Provision in case Certificate be mislaid.

XXXVII. And be it further enacted, That if the Certificate of Registry of such Ship or Vessel shall be produced to the Collector and Controller of any Port where she may then be, after any such Bill of Sale shall have been recorded at the Port to which she belongs, together with such Bill of Sale, containing a Notification of such Record, signed by the Collector and Controller of such Port as before directed, it shall be lawful for the Collector and Controller of such other Port to Indorse on such Certificate of Registry (being required so to do) the Transfer mentioned in such Bill of Sale, and such Collector and Controller shall give Notice thereof to the Collector and Controller of the Port to which such Ship or Vessel belongs, who shall Record the same in like manner as if they had made such Indorsement themselves, but inserting the name of the Port at which such Indorsement was made: Provided always, that the Collector and Controller of such other Port shall first give Notice to the Collector and Controller of the Port to which such Ship or Vessel belongs of such requisition made to them to Indorse the Certificate of Registry, and the Collector and Controller of the Port to which such Ship or Vessel belongs shall thereupon send information to the Collector and Controller of such other Port, whether any and what other Bill or Bills of Sale have been Recorded in the Book of the Registry of such Ship or Vessel, and the Collector and Controller of such other Port having such information shall proceed in manner directed by this Act in all respects to the Indorsing of the Certificate of Registry as they would do if such Port were the Port to which such Vessel belonged.

Bills of Sale may be produced after Entry at other Ports than those to which Vessels belong, and Transfers indorsed on Certificate of Registry.

Previous Notice to be given to Officers at the Port of Registry.

XXXVIII. And be it further enacted, That if it shall become necessary to Register any Ship or Vessel *de novo*, and any Share or Shares of such Ship or Vessel shall have been sold since she was last Registered, and the Transfer of such Share or Shares shall not have been Recorded and Indorsed in manner herein-before directed, the Bill of Sale thereof shall be produced to the Collector and Controller of His Majesty's Customs, who are to make Registry of such Ship or Vessel, otherwise such Sale shall not be Noticed in such Registry *de novo*, except as herein-after excepted: Provided always, that upon the future Production of such Bill of Sale, and of the existing Certificate of Registry, such Transfer shall and may be Recorded and Indorsed as well after such Registry *de novo* as before.

If, upon Registry *de novo*, any Bill of Sale shall not have been recorded, the same shall then be produced.

Bill of Sale previous to Registry may be Recorded after Registry.

XXXIX. And be it further enacted, That if upon any change of Property in any Ship or Vessel the Owner or Owners shall desire to have the same Registered *de novo*, although not required by this Act, and the Owner or proper number of Owners shall attend at the Custom House at the Port to which such Ship or Vessel belongs for that purpose, it shall be lawful for the Collector and Controller of His Majesty's Customs at such Port to make Registry *de novo* of such Ship or Vessel at the same Port, and to grant a Certificate thereof, the several Requisites herein-before in this Act mentioned and directed being first duly observed and complied with.

Upon change of Property Registry *de novo* may be granted if desired, although not required by Law.

XL. And whereas great Inconvenience hath arisen from the Registering Officers being served with Subpœnas requiring them to bring with them and produce, on Trials in Courts of Law relative to the Ownery of Vessels or otherwise, the Oaths or Declarations required to be taken by the Owners thereof prior to the Registering thereof, and the Books of Registry, or Copies or Extracts therefrom: And whereas it would tend much to the Dispatch of Business if the Attendance of such Registering Officers with the same upon such Trials were dispensed with; be it therefore enacted, That the Collector and Controller of His Majesty's Customs at any Port or Place, and the Person or Persons acting for them respectively, shall, upon every reasonable Request by any Person or Persons whomsoever, produce and exhibit for his, her, or their Inspection and Examination any Oath or Declaration sworn or made by any such Owner or Owners, Proprietor or Proprietors, and also any Register or Entry in any Book or Books

Copies of Declaration, &c., and of Extracts from Books of Registry admitted in Evidence.

of Registry required by this Act to be made or kept relative to any Ship or Vessel, and shall, upon every reasonable Request by any Person or Persons whomsoever, permit him, her, or them to take a Copy or Copies, or an Extract or Extracts thereof respectively; and that the Copy and Copies of any such Oath or Declaration, Register or Entry, shall, upon being proved to be a true Copy or Copies thereof respectively, be allowed and received as Evidence upon every Trial at Law, without the Production of the Original or Originals, and without the Testimony or Attendance of any Collector or Controller, or other Person or Persons acting for them respectively, in all Cases, as fully and to all Intents and Purposes as such Original or Originals, if produced by any Collector or Collectors, Controller or Controllers, or other Person or Persons acting for them, could or might legally be admitted or received in Evidence.

Vessels or Shares sold in the absence of Owners without formal Powers.

XLI. And be it further enacted, That if the Ship or Vessel, or the Share or Shares of any Owner thereof who may be out of the Kingdom, shall be sold in his Absence by his known Agent or Correspondent, under his Directions, either expressed or implied, and acting for his Interest in that Behalf, and such Agent or Correspondent who shall have executed a Bill of Sale to the Purchaser of the whole of such Ship or Vessel, or of any Share or Shares thereof, shall not have received a legal Power to execute the same, it shall be lawful for the Commissioners of His Majesty's Customs, upon Application made to them, and Proof to their satisfaction of the fair dealings of the Parties, to permit such Transfer to be Registered, if Registry *de novo* be necessary, or to be Recorded and Indorsed, as the case may be, in manner directed by this Act, as if such legal Power had been produced, and also if it shall happen that any Bill of Sale cannot be produced, or if, by reason of Distance of Time, or the Absence or Death of Parties concerned, it cannot be proved that a Bill of Sale for any Share or Shares in any Ship or Vessel had been executed, and Registry *de novo* of such Ship or Vessel shall have become necessary, it shall be lawful for the Commissioners of His Majesty's Customs, upon Proof to their satisfaction of the fair dealings of the Parties to permit such Ship or Vessel to be Registered *de novo* in like manner, as if a Bill of Sale for the Transfer of such Share or Shares had been produced: Provided always, That in any of the cases herein-mentioned good and sufficient Security shall be given to produce a legal Power or Bill of Sale within a reasonable time, or to abide the future Claims of the absent Owner, his Heirs and Successors, as the case may be; and at the future Request of the Party whose Property has been so transferred, without the Production of a Bill of Sale from him or from his lawful Attorney, such Bond shall be available for the Protection of his Interest, in addition to any Powers or Rights which he may have in Law or Equity against the Ship or Vessel, or against the Parties concerned, until he shall have received full Indemnity for any loss or injury sustained by him.

Commissioners may permit Record of such Sales or Registry *de novo* as the case may require;

And in other Cases where Bills of Sale cannot be produced;

Security being given to produce legal Powers or abide future Claims.

Transfer by way of Mortgage.

XLII. And be it further enacted, That when any Transfer of any Ship or Vessel, or of any Share or Shares thereof, shall be made only as a Security for the Payment of a Debt or Debts, either by way of Mortgage, or of Assignment to a Trustee or Trustees for the purpose of selling the same for the payment of any Debt or Debts, then and in every such case the Collector and Controller of the Port where the Ship or Vessel is Registered, shall, in the Entry in the Book of Registry, and also in the Indorsement on the Certificate of Registry, in manner hereinbefore directed, state and express that such Transfer was made only as a Security for the Payment of a Debt or Debts, or by way of Mortgage, or to that effect; and the Person or Persons to whom such Transfer shall be made, or any other Person or Persons claiming under him or them as a Mortgagee or Mortgagees, or a Trustee or Trustees only, shall not by reason thereof be deemed to be the Owner or Owners of such Ship or Vessel, Share or Shares thereof, nor shall the Person or Persons making such Transfer be deemed by reason thereof to have ceased to be an Owner or Owners of such Ship or Vessel, any more than if no such Transfer had been made, except so far as may be necessary for the Purpose of rendering the Ship or Vessel, Share or Shares so transferred, available by Sale or otherwise for the Payment of the Debt or Debts for securing the Payment of which such Transfer shall have been made.

Mortgagee not to be deemed an Owner.

Transfers of Ships for Security of Debts being Registered, Rights of Mortgagee not affected by any Act of Bankruptcy of Mortgagor, &c.

XLIII. And be it further enacted, That when any Transfer of any Ship or Vessel, or of any Share or Shares thereof, shall have been made as a Security for the Payment of any Debt or Debts either by way of Mortgage or of Assignment as aforesaid, and such Transfer shall have been duly Registered according to the Provisions of this Act, the Right or Interest of the Mortgagee or other Assignee as aforesaid shall not be in any manner affected by any Act or Acts of Bankruptcy committed by such Mortgagor or Assignor, Mortgagors or Assignors, after the Time when such Mortgage or Assignment shall have been so Registered as aforesaid, notwithstanding such Mortgagor or Assignor, Mortgagors or Assignors, at the time he or they shall so become Bankrupt as aforesaid, shall have in his or their Possession, Order and Disposition, and shall be the reputed Owner or Owners of the said Ship or Vessel, or the Share or Shares thereof, so by him

or them Mortgaged or Assigned as aforesaid, but that such Mortgage or Assignment shall take place of and be preferred to any Right, Claim, or Interest which may belong to the Assignee or Assignees of such Bankrupt or Bankrupts in such Ship or Vessel, Share or Shares thereof, any Law or Statute to the contrary thereof notwithstanding.

XLIV. And be it further enacted, That it shall and may be lawful for any Governor, Lieutenant Governor, or Commander-in-Chief of any His Majesty's Colonies, Plantations, Islands, or Territories, and they are hereby respectively authorized and required if any Suit, Information, Libel, or other Prosecution or Proceeding of any Nature or Kind whatever shall have been commenced or shall hereafter be commenced in any Court whatever in any of the said Colonies, Plantations, Islands, or Territories, respectively, touching the Force and Effect of any Register granted to any Ship or Vessel, upon a Representation made to any such Governor, Lieutenant Governor, or Commander-in-chief, to cause all Proceedings thereon to be stayed, if he shall see just cause so to do, until His Majesty's Pleasure shall be known and certified to him by His Majesty, by and with the Advice of His Majesty's Privy Council; and such Governor, Lieutenant Governor, or Commander-in-Chief is hereby required to transmit to one of His Majesty's Principal Secretaries of State, to be laid before His Majesty in Council, an authenticated Copy of the Proceedings in every such Case, together with his Reasons for causing the same to be stayed, and such Documents (properly verified) as he may judge necessary for the Information of His Majesty.

Governors of Colonies, &c. may cause Proceedings in Suits to be stayed.

XLV. And be it further enacted, That if any Person or Persons shall falsely make Declaration to any of the Matters herein-before required to be verified by Declaration, or if any Person or Persons shall counterfeit, erase, alter, or falsify any Certificate or other Instrument in Writing required or directed to be obtained, granted, or produced by this Act, or shall knowingly or wilfully make use of any Certificate or other Instrument so counterfeited, erased, altered, or falsified, or shall wilfully grant such Certificate or other Instrument in Writing, knowing it to be false, such Person or Persons shall for every such Offence forfeit the Sum of Five hundred Pounds.

Penalty of 500£ on Persons making false Declaration, or falsifying any Document.

XLVI. And be it further enacted, That all the Penalties and Forfeitures inflicted and incurred by this Act shall and may be sued for, prosecuted, recovered and disposed of in such Manner, and by such Ways, Means, and Methods, as any Penalties or Forfeitures inflicted or which may be incurred for any Offences committed against any Law relating to the Customs may now legally be sued for, prosecuted, recovered, and disposed of, and that the Officer or Officers concerned in Seizures or Prosecutions under this Act shall be entitled to and receive the same Share of the Produce arising from such Seizures as in the case of Seizures for unlawful Importation, and to such Share of the Produce arising from any pecuniary Fine or Penalty for any Offence against this Act as any Officer or Officers is or are now by any Law or Regulation entitled to upon Prosecutions for pecuniary Penalties.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1831, Nos 9 to [illegible], and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

FINANCIAL DEPARTMENT, THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834 Nos 9 to 20, and 10th February last, Nos 1 to 6 being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

Applications for Outward Clearance (or Export Manifests) cannot be received, unless accompanied by Certificate of Inward Clearance, and it is required that such Applications be presented at least *Five complete days* previously to the date on which PORT CLEARANCE is desired, in order that time may be allowed for the adjustment of Export Cargoes; though it will be issued earlier if practicable.

NO FEES are taken for any AFFIDAVITS sworn in this Office on the subject of Custom House Business; nor are any FEES whatever allowed to be taken by any Persons belonging to this Establishment, whether sitting within the Office, or stationed out of doors.

Importers of GUNPOWDER, are requested to refer to the Notification, by order of the Board of Customs, dated the 18th, and published in the Government Gazette of 23d January 1823.

The Proprietors of DOCK YARDS, and the PUBLIC at large, are requested to take notice, that no Goods, nor Packages, are allowed to be IMPORTED, EXPORTED, RE-LANDED, RE-SHIPPED, TRANSHIPPED, or removed from VESSELS to SLOOPS or BOATS after Shipment, without due sanction from this Office;—whether the same be liable to, or exempt from, DUTY. Attention is directed to Clause Seventh, Section XLV, to Sections LXI. LXIV. LXXIV. LXXXII. LXXXIII. & LXXXIV. of Regulation IX. 1810; and to Section III. of Regulation III. of 1830:—also to Clauses IV. and V. of the Government Notification of 28th June 1822, for Conditions of certain exemptions.—[20th March 1830.]

GOODS for ONE VESSEL taken to ANOTHER.—Notice is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the Forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III. Regulation III. of 1830.

If GOODS which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for RE-LAND, and subsequent RE-EXPORT to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.—[28th September 1832.]

ROWANAHS for GOODS RE-LANDED.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re exported until after the Rowanahs are time-expired, then such Goods are considered as Fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications, (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired: and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[28th February 1833.]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833.]

MAFFER ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1834, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information :

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows :

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £5 per Cent per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

FINANCIAL DEPARTMENT.

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 3d instant.

Read again Proceedings of dates 1st December 1834, Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the

correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and, the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

9. A quantity of 40,00,000 Lacs of Maunds of Salt will be exposed for Sale at Nine periodical Sales. But it is hereby expressly declared that the entire quantity put up at the before mentioned Nine Sales from March 1835 to February 1836, both Months inclusive, shall not exceed 40,00,000 of Maunds, moreover, it is provided that the number of Sales shall be reduced below Nine; should it please Government to sell the entire quantity of Salt at any less number of Sales.

10. The Public are assured that no more than 40,00,000 Lacs of Maunds of Salt will be sold within the period above stated. But it will of course be competent to Government to diminish that quantity should circumstances render a reduction expedient, or to sell it as provided in the three following Conditions.

11. In the event of no bids in excess of the upset price being made for all or any of the Salt put up, at any Sale of the Year, that is to say, at any Sale or Sales from March 1835 to February 1836, both Months inclusive, such Salt for which there is no bid in excess of the upset price shall at the discretion of the Board of Customs, Salt and Opium either be put up to Public Sale in Calcutta at some future period between the Months of March 1835 to February 1836, or be sold by Private Sale in Calcutta, or be sold in the Interior by Private or Public Sale by the Government Officers as hereinafter provided.

12. The whole or any portion of the Salt appropriated under the above Condition to Private Sale, may be sold in quantities of not less than One Hundred Maunds to any Person applying for the same at the Office of the Secretary to the Board of Customs, Salt and Opium, or to such Collectors of Land Revenue as may be directed to dispose of the same by the Board of Customs, Salt and Opium.

13. The price per Hundred Maunds of the Salt to be sold by Private Sale under the preceding Conditions shall be determined by the average price per Hundred Maunds, for which Salt from the same Ghaut or Golah has been sold at all or any of the Sales of the preceding Six Months, from which average price a deduction of five per Cent. on account of Ready Money payments (as hereinafter prescribed) may be made at the discretion of the Board of Customs, Salt and Opium. If no Salt has been sold from the said Ghaut or Golah at any Sale of the preceding Six Months, then the Board of Customs, Salt and Opium, shall fix a price per Hundred Maunds for the said Salt appropriated to Private Sale.

14. Notice of the quantity of Salt appropriated to Private Sale, and the Conditions on which it is obtainable shall be sent as soon as possible after the appropriation of the Salt, to all the principal Salt Marts and to the Collectors and other Cutcherries in the vicinity of those Marts.

15. Parties desirous to purchase any quantity of the reserved Salt not less than One Hundred Maunds, shall receive Chars and Rowanahs for the same on paying the price (through a Sub-Treasurer's Receipt) into this Office, or on paying the price in Sicca Rupees into the Treasury of the Collector of Patna, Dacca, Moorshedabad, Chittagong, Jessore, Midnapore, Hooghly, Burdwan, Bhaugulpore, Purneah, and such other Treasuries as may be determined upon by the Board of Customs, Salt and Opium.

16. On the production at the Office of the Board of Customs, Salt and Opium, of the Collector's acknowledgements for the payment, and on the arrival of his advice (which shall be sent without delay) that such Receipts have been granted by him, Chars and Rowanahs will be issued in the names of the Parties who have purchased the Salt to themselves or their authorized Vakeels, provided however that if the Salt be already disposed of prior to the intimation of the Collector reaching this Office, the Money paid into his Treasury shall be returned without Interest, and this Condition is to be distinctly explained to the Individuals making payment at the time the Money is received.

17. The above quantity of 40,00,000 Maunds of Salt is exclusive of the quantity not exceeding Twelve thousand Maunds, which will be delivered in the Course of the said period to the French Government at Chandernagore for the Consumption of the Inhabitants of that Settlement agreeable to the Provisions of the Convention concluded between Great Britain and France under date the Seventh March 1815. It is also to be considered exclusive of any Salt which Government may direct to be sold by Retail under the Provisions of Regulation X. of 1826.

18. All the Salt now advertised for Sale is to be cleared out from the Government Golahs within Four Months from the date of its being purchased, and in failure thereof the Purchasers will be subjected to the payment of a consolidated Golah Rent and Wastage at the rate of One

Rupee per mensem for each One Hundred Maunds of Salt purchased by him under this Notification. It is further Notified with reference to the Provisions of Clause II, Section XXXVI., Regulation X. of 1819, that the Board of Customs, Salt and Opium, will on no account renew a Rowanah or Rowanahs covering Salt, which purchasers may have failed to clear out within Twenty-four Months from the day of its Sale; and that the Article will in this case be held forfeited to Government, and it is further declared that no objection as to the quality of Salt, whether the same shall have been affected by Storm, Inundation, or any other cause whatever, shall be received from any Purchaser unless such objection shall be made within three Calendar Months from the day of the Purchase of the Salt, the quality of which may be objected.

19. No Interest shall be claimable by or be paid to the Board on Money due on account of Salt purchased under these Conditions of Sale, nor shall any Interest be claimable by or be paid to Purchasers in the event of Purchase Money being refunded to them by order of Government or the Board.

20. The Superintendent of the Sale shall be empowered to reject the bid of any Individual, unless he shall, if required, tender at the time of bidding, a Deposit in Cash or Government Securities (at par for the principal amount only) of Ten per Cent. on the price of each lot he may propose to purchase.

21. For the facility of the Purchaser or Purchasers the said Board will grant Chars and Rowanahs, authorizing the delivery of the above Salt to the Purchaser or Purchasers, or to the Bearers of such Chars and Rowanahs, and it is especially and distinctly declared that the Assignee or Assignees of any Char and Rowanah shall be entitled to receive such quantity of Salt as may be specified in such Char and Rowanah, on application and delivery of the Char to the Salt Agent to whom the same may be addressed, and all Chars and Rowanahs will be recognized by the Board of Customs, Salt and Opium, as negotiable documents in as much as if they were Government Promissory Notes and similarly transferable.

22. It is to be understood by the Purchasers of Salt under this Advertisement that in the event of any dispute or difference arising, touching or concerning any Purchase of Salt, under the foregoing Conditions of Sale, or touching any Covenant, Clause, or Proviso, as herein before contained the same shall and may be tried, construed, determined and decided in and by the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the Jurisdiction of the said Supreme Court shall be waived.

By Order of the Board of Customs, Salt and Opium, the 14th April, 1835,

W. R. YOUNG, *Secretary.*

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834 Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government, Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

No. 105 of 1835.—The Honorable the Governor General of India in Council is pleased to lay down the following Rules for the Appointment and Promotion of Officers in the Commissariat Department:

1st. The Commissariat at the Presidencies of Fort William and Agra together, and of the Presidencies of Fort Saint George and Bombay severally, shall consist of

One Commissary General.
One Deputy Commissary General.
Assistant Commissaries General.
Deputy Assistant ditto ditto.
Sub-Assistant ditto ditto.

The number of each of the three latter grades being regulated from time to time by the several Governments respectively according to the necessities of the service; and it shall be considered the imperative duty of the several Commissaries General to report to Government, whenever they may find, that the number of Officers can be reduced consistently with the efficiency of their respective Departments.

2nd. All Appointments to the Commissariat shall be made from the European Commissioned Ranks of the Honorable Company's Army, but no Officer shall be held eligible to be appointed, who has not passed an examination in the Native Languages.

3rd. Every Officer on his first appointment to the Commissariat shall enter the Department at the bottom of the Junior Grade. The only exception to this rule will be in the case of the Commissary General, who may be selected from the Army at large, and be at once appointed Head of the Department; due attention and consideration being of course given to the services, claims, and fitness of the Officers already serving, or who may have served in the Department.

4th. No Sub-Assistant shall be promoted to the grade of Deputy Assistant who has not served three years in the former, and no Deputy Assistant to the grade of Assistant Commissary General, who has not served four years as a Deputy-Assistant, or seven years in the Department; nor shall any Assistant Commissary General be promoted to be Deputy Commissary General who has not served five years as an Assistant, or twelve years in the Department.

5th. If there should be no Officer in one grade of sufficient length of service in the Commissariat, qualified under these rules to be promoted to the next, an Officer will be appointed, when a vacancy occurs, to the lowest grade, and the promotion will be made only when the obstacle here supposed no longer exists. But Seniority alone is not the only qualification for promotion from one grade to another, as superior claims founded on services performed and supported by the recommendation of the Commissary General will have the preference, as laid down in General Orders by the Supreme Government dated the 22d December 1815, 27th March 1819, and 24th April 1822; provided the individual shall have served in the Department the period necessary under these rules to qualify him for promotion.

6th. All Officers of the Commissariat are subject to the Staff Regulations on being promoted from one rank to another in their repective Regiments, but any Officer in charge of a branch of the Department on actual Field Service, or with a foreign expedition, who may become ineligible by Regimental promotion, may be continued in charge until such time as the Commissary General can relieve him without inconvenience to the public service.

7th. Officers leaving the Department on Furlough to Europe, if re-appointed after their return, will have to enter at the bottom of the list of Sub-Assistants; but Officers compelled by sickness to return to Europe on Medical Certificate, and Officers removed from the Department by promotion in their Regiments, will be held eligible to be re-appointed to any grade which their previous length of service in the Department may entitle them to hold under these rules and the general regulations of the service: provided that, on re-appointment, they are not placed above any who were previously their Seniors.

8th. Officers temporarily appointed to the Commissariat by Government, will receive while so employed, an allowance of 150 Rupees per mensem, but without any claim to be confirmed in the Office, and the same rule will apply to temporary appointments made on emergency by Commanding Officers, on the application of Officers of the Commissariat suddenly obliged to quit their charge or otherwise, provided such appointments be confirmed by Government.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

By Order of the Hon'ble the Vice President in Council,

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Govern-

ment, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

7. It is hereby further stipulated that each Lot of Salt purchased shall be paid for within Three Calendar Months from the day on which the same shall be sold, and that in Case the whole or any part of the Price or Purchase Money of such Salt shall not be paid on or before the time herein last mentioned, the whole of the Deposit made upon such Lot or Lots as shall not be so paid for, whether the said Deposit is made in Government Securities, or Receipts of the Sub-Treasurer, or in Cash, shall become forfeited to the East India Company, and the whole of the Salt which may then remain unpaid for shall be disposed of on account of the said East India Company at such time or times, and in such manner as the Board of Customs, Salt and Opium, may determine and in the same manner as if the said Salt had not been previously sold.

10. The Public are assured that no more than 40,00,000, Lacs of Maunds of Salt will be sold within the period above stated. But it will of course be competent to Government to diminish that quantity should circumstances render a reduction expedient, or to sell it as provided in the three following Conditions.

11. In the event of no bids in excess of the upset price being made for all or any of the Salt put up at any Sale of the Year, that is to say, at any Sale or Sales from March 1835 to February 1836, both Months inclusive, such Salt for which there is no bid in excess of the upset price shall at the discretion of the Board of Customs, Salt and Opium, either be put up to Public Sale in Calcutta at some future period between the Months of March 1835 to February 1836, or be sold by Private Sale in Calcutta, or be sold in the Interior by Private or Public Sale by the Government Officers as hereinafter provided.

12. The whole or any portion of the Salt appropriated under the above Condition to Private Sale, may be sold in quantities of not less than One Hundred Maunds to any Person applying for the same at the Office of the Secretary to the Board of Customs, Salt and Opium, or to such Collectors of Land Revenue as may be directed to dispose of the same by the Board of Customs, Salt and Opium.

13. The price per Hundred Maunds of the Salt to be sold by Private Sale under the preceding Conditions shall be determined by the average price per Hundred Maunds, for which Salt from the same Ghaut or Golah has been sold at all or any of the Sales of the preceding Six Months, from which average price a deduction of five per Cent. on account of Ready Money payments (as hereinafter prescribed) may be made at the discretion of the Board of Customs, Salt and Opium. If no Salt has been sold from the said Ghaut or Golah at any Sale of the preceding Six Months, then the Board of Customs, Salt and Opium, shall fix a price per Hundred Maunds for the said Salt appropriated to Private Sale.

14. Notice of the quantity of Salt appropriated to Private Sale, and the Conditions on which it is obtainable shall be sent as soon as possible after the appropriation of the Salt, to all the principal Salt Marts and to the Collectors and other Cutcherries in the vicinity of those Marts.

15. Parties desirous to purchase any quantity of the reserved Salt not less than One Hundred Maunds, shall receive Chars and Rowanahs for the same on paying the price (through a Sub-Treasurer's Receipt) into this Office, or on paying the price in Sicca Rupees into the Treasury of the Collector of Patna, Dacca, Moorshedabad, Chittagong, Jessore, Midnapore, Hooghly, Burdwan, Bhaugulpore, Purneah, and such other Treasuries as may be determined upon by the Board of Customs, Salt and Opium.

16. On the production at the Office of the Board of Customs, Salt and Opium, of the Collector's acknowledgements for the payment, and on the arrival of his advice (which shall be sent without delay) that such Receipts have been granted by him, Chars and Rowanahs will be issued in the names of the Parties who have purchased the Salt to themselves, or their authorized Vakeels, provided however that if the Salt be already disposed of prior to the intimation of the Collector reaching this Office, the Money paid into his Treasury shall be returned without Interest, and this Condition is to be distinctly explained to the Individuals making payment at the time the Money is received.

17. The above quantity of 40,00,000 Maunds of Salt is exclusive of the quantity not exceeding Twelve thousand Maunds, which will be delivered in the Course of the said period to the French Government at Chandernagore for the Consumption of the Inhabitants of that Settlement agreeable to the Provisions of the Convention concluded between Great Britain and France under date the Seventh March 1815. It is also to be considered exclusive of any Salt which Government may direct to be sold by Retail under the Provisions of Regulation X. of 1826.

18. All the Salt now advertised for Sale is to be cleared out from the Government Golahs within Four Months from the date of its being purchased, and in failure thereof the Purchasers will be subjected to the payment of a consolidated Golah Rent and Wastage at the rate of One

Rupee per mensem for each One Hundred Maunds of Salt purchased by him under this Notification. It is further Notified with reference to the Provisions of Clause II., Section XXXVI., Regulation X. of 1819, that the Board of Customs, Salt and Opium, will on no account renew a Rowanah or Rowanahs covering Salt, which purchasers may have failed to clear out within Twenty-four Months from the day of its Sale; and that the Article will in this case be held forfeited to Government, and it is further declared that no objection as to the quality of Salt, whether the same shall have been affected by Storm, Inundation, or any other cause whatever, shall be received from any Purchaser unless such objection shall be made within three Calendar Months from the day of the Purchase of the Salt, the quality of which may be objected.

19. No Interest shall be claimable by or be paid to the Board on Money due on account of Salt purchased under these Conditions of Sale, nor shall any Interest be claimable by or be paid to Purchasers in the event of Purchase Money being refunded to them by order of Government or the Board.

20. The Superintendent of the Sale shall be empowered to reject the bid of any Individual, unless he shall, if required, tender at the time of bidding, a Deposit in Cash or Government Securities (at par for the principal amount only) of Ten per Cent. on the price of each lot he may propose to purchase.

21. For the facility of the Purchaser or Purchasers the said Board will grant Chars and Rowanahs, authorizing the delivery of the above Salt to the Purchaser or Purchasers, or to the Bearers of such Chars and Rowanahs, and it is especially and distinctly declared that the Assignee or Assignees of any Char and Rowanah shall be entitled to receive such quantity of Salt as may be specified in such Char and Rowanah, on application and delivery of the Char to the Salt Agent to whom the same may be addressed, and all Chars and Rowanahs will be recognized by the Board of Customs, Salt and Opium, as negotiable documents in as much as if they were Government Promissory Notes and similarly transferable.

22. It is to be understood by the Purchasers of Salt under this Advertisement that in the event of any dispute or difference arising, touching or concerning any Purchase of Salt, under the foregoing Conditions of Sale, or touching any Covenant, Clause, or Proviso, as herein before contained the same shall and may be tried, construed, determined and decided in and by the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea, and Pleas to the Jurisdiction of the said Supreme Court shall be waived.

By Order of the Board of Customs, Salt and Opium, the 14th April, 1835.

WEDNESDAY, APRIL 29, 1835.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

FINANCIAL DEPARTMENT,
THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d instant.

Read again Proceedings of dates 1st December 1834 Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on those Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

In the matter of Raujkissore Sen, late of Goopeekistno Paul's Street, at Nimtollah, in Calcutta, Merchant and Trader, now a Prisoner confined for Debt in the Gaol of Calcutta.

At a Court holden on Saturday, the Twenty-fifth day of April last, upon the the application of Mr. Nathaniel Hudson, Attorney for and on behalf of Sumboochunder Holdar, of Aheereetollah Street, in the Town of Calcutta, Merchant and Trader, and upon reading a Petition of the said Sumboochunder Holdar, setting forth that the said Sumboochunder Holdar is a Creditor of the said Raujkissore Sen, for money lent and advanced by the said Sumboochunder Holdar to the said Raujkissore Sen, and Debnarain Sen, Sibnarain Sen, Ramnarain Sen, and Nubkissore Sen, who were formerly in Partnership with the said Raujkissore Sen in the Trade or Business of Merchants and Bankers, and carried on such their Trade or Business under the Name, Style and Firm of Mothurmohun Sen and Raujkissore Sen, in the Town of Calcutta aforesaid, and for which money so lent the said Raujkissore Sen, Debnarain Sen, Sibnarain Sen, Ramnarain Sen, and Nubkissore Sen, granted to the said Sumboochunder Holdar, under the said Partnership style of Mothoormohun Sen and Raujkissore Sen, an acknowledgement in the Bengallee characters, commonly called a Pauth, upon which there is now justly due and owing to the said Sumboochunder Holdar, for principal the sum of Sicca Rupees Seven Thousand and Five Hundred, and for balance of Interest the sum of Sicca Rupees Four Thousand Six Hundred and Eight and Twelve Annas, making together the sum of Sicca Rupees Twelve Thousand One Hundred and Eight and Twelve Annas. That the said Raujkissore Sen was on the Twenty-first day of March last, committed to the Common Gaol of Calcutta, under a writ of capias ad respondendum issued out of the Supreme Court at Calcutta, against him the said Raujkissore Sen, and Debnarain Sen, Sibnarain Sen, Ramnarain Sen, and Nubkissore Sen, and Hurrischunder Sen, and Isserchunder Sen, surviving sons of Raujnarain Sen, deceased, and Saumachurn Sen, called Sumboochunder Sen, surviving son of Roopnarain Sen, deceased, for the sum of Sicca Rupees Twenty-six Thousand Two Hundred and Forty-five, at the suit of Radamadub Mitter and Hurrynarain Mitter, Sons, Heirs and legal personal Representatives of Ramcaunt Mitter, deceased; where he has ever since continued a Prisoner, being for a period exceeding twenty-one days. That the said Sumboochunder Holdar hath been advised, and believes that the said Raujkissore Sen is a person, who by an Act passed in the Sixth Year of the Reign of his late Majesty, entitled an Act to amend the Law relating to Bankrupts, is deemed a Trader liable to become Bankrupt, and praying that the Court would be pleased to proceed in like manner as if the said Raujkissore Sen had petitioned this Court for Relief under an Act passed in the Ninth Year of the Reign of his late Majesty, entitled an Act to provide for the Relief of Insolvent Debtors in the East Indies, and that upon enquiry into truth of the said Petition, and being satisfied thereof, the Court would adjudge the said Petition to be true, and that the said Raujkissore Sen had committed an Act of Insolvency within the meaning of the said last mentioned Act. And upon reading an Affidavit of Sumboochunder Holdar, in verification of the facts stated in the said Petition; It was Adjudged, that the said Petition was true, and that the said Raujkissore Sen had committed an Act of Insolvency, under the Provisions of the Statute 9th Geo. CUSTOM HOUSE NOTICES.

TO protect from IMPOSITION such Persons as are strangers in Calcutta, and who employ Natives to transact Business for them at this Office, it is notified, that for every sum taken, as Government Customs or Duty, a receipted Bill is given under the signature of the Collector, or of his Deputy, or his Covenanted Assistant.

CLEARANCES, whether Inward or Outward, can be given only IN REGULAR TURN, and it is for Commanders, or others on their part, to see that their Applications be duly noted with the date and hour of receipt by the Supervisors respectively. Applications for Outward Clearance (or Export Manifests) cannot be received, unless accompanied by Certificate of Inward Clearance, and it is required that such Applications be presented at least *Five complete days* previously to the date on which PORT CLEARANCE is desired, in order that time may be allowed for the adjustment of Export Cargoes; though it will be issued earlier if practicable.

NO FEES are taken for any AFFIDAVITS sworn in this Office on the subject of Custom House Business; nor are any FEES whatever allowed to be taken by any Persons belonging to this Establishment, whether sitting within the Office, or stationed out of doors.

Importers of GUNPOWDER, are requested to refer to the Notification, by order of the Board of Customs, dated the 18th, and published in the Government Gazette of 23d January 1823.

The Proprietors of DOCK YARDS, and the PUBLIC at large, are requested to take notice, that no Goods, nor Packages, are allowed to be IMPORTED, EXPORTED, RE-LANDED, RE-SHIPPED, TRANSHIPPED, or removed from VESSELS to SLOOPS or BOATS after Shipment, without due sanction from this Office;—whether the same be liable to, or exempt from, DUTY. Attention is directed to Clause Seventh, Section XLV. to Sections LXI. LXIV. LXXIV. LXXXII. LXXXIII. & LXXXIV. of Regulation IX. 1810; and to Section III. of Regulation III. of 1830:—also to Clauses IV. and V. of the Government Notification of 28th June 1822, for Conditions of certain exemptions.—[20th March 1830.]

GOODS for ONE VESSEL taken to ANOTHER.—Notice is hereby given, that if Goods passed through this Office for a specified Vessel, be taken, directly or indirectly, and put on board of any Vessel other than that for which the said Goods have been passed through the Forms of this Office, no Drawbacks, nor Certificates for other Presidencies, will be granted. And if such Goods be seized in illegal transit to, or when alongside of, a Vessel other than that for which they have been passed through this Office, they will be liable to eventual confiscation under Section III. Regulation III. of 1830.

If GOODS which have been passed for a specified Vessel, cannot, for whatever reason, be taken on board that Vessel, and are fairly brought back to the Custom House for RE-LAND, and subsequent RE-EXPORT to the same Vessel, or to any other, or for regular Transhipment, every facility will, as usual, be afforded for such transactions.—[28th September 1832.]

ROWANAHS for GOODS RE-LANDED.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as Fresh Exports, are treated as if they had never been protected by Rowanahs, and Duty is taken if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications, (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired; and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[28th February 1833.]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833.]

MAFFER ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by Order of the Board of Customs, dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No. and Date must be given, or whole Despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All applications for MAFFER ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. If no Salt has been sold from the said Ghaut or Golah at any Sale of the preceding Six Months, then the Board of Customs, Salt and Opium, shall fix a price per Hundred Maunds for the said Salt appropriated to Private Sale.

14. Notice of the quantity of Salt appropriated to Private Sale, and the Conditions on which it is obtainable shall be sent as soon as possible after the appropriation of the Salt, to all the principal Salt Marts and to the Collectors and other Cutcherries in the vicinity of those Marts.

15. Rupee per mensem for each One Hundred Maunds of Salt purchased by him under this Notification. It is further Notified with reference to the Provisions of Clause II, Section XXXVI., Regulation X. of 1819, that the Board of Customs, Salt and Opium, will on no account renew a Rowanah or Rowanahs covering Salt, which purchasers may have failed to clear out within Twenty-four Months from the day of its Sale; and that the Article will in this case be held forfeited to Government, and it is further declared that no objection as to the quality of Salt, whether the same shall have been affected by Storm, Inundation, or any other cause whatever, shall be received from any Purchaser unless such objection shall be made within three Calendar Months from the day of the Purchase of the Salt, the quality of which may be objected.

19. No Interest shall be claimable by or be paid to the Board on Money due on account of Salt purchased under these Conditions of Sale, nor shall any Interest be claimable by or be paid to Purchasers in the event of Purchase Money being refunded to them by order of Government or the Board.

20. The Superintendent of the Sale shall be empowered to reject the bid of any Individual, unless he shall, if required, tender at the time of bidding, a Deposit in Cash or Government Securities (at par for the principal amount only) of Ten per Cent. on the price of each lot he may propose to purchase.

21. For the facility of the Purchaser or Purchasers the said Board will grant Chars and Rowanahs, authorizing the delivery of the above Salt to the Purchaser or Purchasers, or to the Bearers of such Chars and Rowanahs, and it is especially and distinctly declared that the Assignee or Assignees of any Char and Rowanah shall be entitled to receive such quantity of Salt as may be specified in such Char and Rowanah, on application and delivery of the Char to the Salt Agent to whom the same may be addressed, and all Chars and Rowanahs will be recognized by the Board of Customs, Salt and Opium, as negotiable documents in as much as if they were Government Promissory Notes and similarly transferable.

22. FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the *Governor General in Council* has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one *Life* a larger risk than One Lakh of Rupees.

account of Ready Money payments (as hereinafter prescribed) may be made at the discretion of the Board of Customs, Salt and Opium. If no Salt has been sold from the said Ghaut or Golah at any Sale of the preceding Six Months, then the Board of Customs, Salt and Opium, shall fix a price per Hundred Maunds for the said Salt appropriated to Private Sale.

14. Notice of the quantity of Salt appropriated to Private Sale, and the Conditions on which it is obtainable shall be sent as soon as possible after the appropriation of the Salt, to all the principal Salt Marts and to the Collectors and other Cutcherries in the vicinity of those Marts.

15. Parties desirous to purchase any quantity of the reserved Salt not less than One Hundred Maunds, shall receive Chars and Rowanahs for the same on paying the price (through a Sub-Treasurer's Receipt) into this Office, or on paying the price in Sicca Rupees into the Treasury of the Collector of Patna, Dacca, Moorshedabad, Chittagong, Jessore, Midnapore, Hooghly, Burdwan, Bhaugulpore, Purneah, and such other Treasuries as may be determined upon by the Board of Customs, Salt and Opium.

16. On the production at the Office of the Board of Customs, Salt and Opium, of the Collector's acknowledgements for the payment, and on the arrival of his advice (which shall be sent without delay) that such Receipts have been granted by him, Chars and Rowanahs will be issued in the names of the Parties who have purchased the Salt to themselves or their authorized Vakeels, provided however that if the Salt be already disposed of prior to the intimation of the Collector reaching this Office, the Money paid into his Treasury shall be returned without Interest, and this Condition is to be distinctly explained to the Individuals making payment at the time the Money is received.

17. The above quantity of 40,00,000 Maunds of Salt is exclusive of the quantity not exceeding Twelve thousand Maunds, which will be delivered in the Course of the said period to the French Government at Chandernagore for the Consumption of the Inhabitants of that Settlement agreeable to the Provisions of the Convention concluded between Great Britain and France under date the Seventh March 1815. It is also to be considered exclusive of any Salt which Government may direct to be sold by Retail under the Provisions of Regulation X. of 1826.

18. All the Salt now advertised for Sale is to be cleared out from the Government Golahs within Four Months from the date of its being purchased, and in failure thereof the Purchasers will be subjected to the payment of a consolidated Golah Rent and Wastage at the rate of One Rupee per mensem for each One Hundred Maunds of Salt purchased by him under this Notification. It is further Notified with reference to the Provisions of Clause II, Section XXXVI., Regulation X. of 1819, that the Board of Customs, Salt and Opium, will on no account renew a Rowanah or Rowanahs covering Salt, which purchasers may have failed to clear out within Twenty-four Months from the day of its Sale; and that the Article will in this case be held forfeited to Government, and it is further declared that no objection as to the quality of Salt, whether the same shall have been affected by Storm, Inundation, or any other cause whatever, shall be received from any Purchaser unless such objection shall be made within three Calendar Months from the day of the Purchase of the Salt, the quality of which may be objected.

19. No Interest shall be claimable by or be paid to the Board on Money due on account of Salt purchased under these Conditions of Sale, nor shall any Interest be claimable by or be paid to Purchasers in the event of Purchase Money being refunded to them by order of Government or the Board.

20. The Superintendent of the Sale shall be empowered to reject the bid of any Individual, unless he shall, if required, tender at the time of bidding, a Deposit in Cash or Government Securities (at par for the principal amount only) of Ten per Cent. on the price of each lot he may propose to purchase.

21. For the facility of the Purchaser or Purchasers the said Board will grant Chars and Rowanahs, authorizing the delivery of the above Salt to the Purchaser or Purchasers, or to the Bearers of such Chars and Rowanahs, and it is especially and distinctly declared that the Assignee or Assignees of any Char and Rowanah shall be entitled to receive such quantity of Salt as may be specified in such Char and Rowanah, on application and delivery of the Char to the Salt Agent to whom the same may be addressed, and all Chars and Rowanahs will be recognized by the Board of Customs, Salt and Opium, as negotiable documents in as much as if they were Government Promissory Notes and similarly transferable.

22. It is to be understood by the Purchasers of Salt under this Advertisement that in the event of any dispute or difference arising, touching or concerning any Purchase of Salt, under the foregoing Conditions of Sale, or touching any Covenant, Clause, or Proviso, as herein before contained the same shall and may be tried, construed, determined and decided in and by the Supreme Court of Judicature at Fort William in Bengal, and all and every Plea and Pleas to the Jurisdiction of the said Supreme Court shall be waived.

FINANCIAL DEPARTMENT,

THE 7TH MARCH, 1835.

The following extract from the Proceedings of Government in the Financial Department, is published for general information:

Read a Letter from Committee for the Assurance of Lives, dated 2d Instant.

Read again Proceedings of dates 1st December 1834, Nos. 9 to 20, and 10th February last, Nos. 1 to 6, being the reports of the Committee and the correspondence that has passed between Government and the Committee on the subject of establishing a Government Institution for the Insurance of Lives.

The Right Honorable the Governor General in Council have given to these papers his anxious and attentive consideration, resolves as follows:

First. That an Office for the Insurance of Lives, under the guarantee and on the credit of Government, shall be established at Calcutta. That it shall grant Policies on the Lives of all classes of Persons, European and Native, with a power, however, to the Managing Directors of absolute rejection of a Life without reason assigned, in case they shall see reason to think the risk likely to be disadvantageous.

Second. That the Committee be required to prepare Rules for establishing the office on the footing proposed, being careful to leave a predominant influence in the management to the Government Directors and the appointment of all Officers to the Governor General in Council. The Directors not named by the Government to be elected by the assured.

Third. That the Committee in preparing the Rules shall insert provisions such as to allow facilities in the transfer of Policies and risks from other existing Institutions, and if agreed to by the Managers and persons concerned in those Institutions, to arrange for the incorporation of the business of those concerns with that of the Government Office on such terms as may be found consistent with the Rules to be established for the latter. The Committee will make free and unreserved communication to these Institutions of the measures directed to this end which it may intend to recommend to Government, and will receive from the Managers of them any suggestions or objections they may desire to offer, it being an object of much anxiety with the Governor General in Council to avoid inflicting any injury or disadvantage on these Establishments that can possibly be avoided.

Fourth. Although the question whether any limit shall be placed on the amount to be secured on one risk is one of detail regulation to be provided for in the Rules, still the Governor General in Council has deemed it of sufficient importance to be taken into the special consideration of Government. It is the opinion of His Lordship in Council, that the Government Office should not incur upon one Life a larger risk than One Lakh of Rupees.

FINANCIAL DEPARTMENT,

THE 13TH MAY, 1835.

The following extract from the Proceedings of Government, in the Financial Department, is published for general information:

Read three letters from the Government Committee for the Assurance of Lives, severally dated the 1st, 5th and 9th instant, with their enclosures.

Read again the Proceedings of Government,

dated the 7th of March,	No. 18 and 19.
15th of April,	No. 1 to 5.
22d Idem,	No. 1 to 4 and
29th Idem,	No. 1 to 10.

Read also letters from the Committee, one dated the 20th of April and the other without date, with their respective enclosures.

Resolution.—The Honorable the Governor General of India in Council perceives from the recent Reports submitted by the Committee appointed with the view to the Establishment of an Institution for the Assurance of Lives, that the operations of the proposed Institution which it was determined to establish under the guarantee and on the credit of Government by the Resolution in the Financial Department, dated the 7th of March last, cannot be commenced on a footing of amicable arrangement with the existing Societies, and that if the Government Office were to be opened before the present misunderstandings were removed, great disadvantage and injury might be inflicted on individuals assured in the present Societies, and satisfied with their Security.

The Community has not evinced that degree of interest and inclination towards the projected Government Institution which would lend the Governor General in Council to the belief that a very general desire obtains for the existence of such an Office. A portion indeed of the Society at Calcutta has openly declared a hostile disposition to the Government Scheme.

Under the above circumstances, as the Supreme Government has had no other object or purpose in view, from lending the influence of its credit and the aid of the Public Servants to an Institution for the Assurance of Lives, than the benefit of the Community, which, as above shewn, would appear to be generally well contended with the means of Life Insurance and with the Security afforded by the present Institutions, the "Universal," the "Oriental" and the "Laudables,"—it is this day resolved by the Honorable the Governor General of India in Council that the Resolution of the 7th of March be revoked; and that a reference be made to the Honorable the Court of Directors on the subject of establishing such an Institution hereafter; and further, that no Office on the guarantee of the Government for the Assurance of Lives shall be opened until such a measure shall have been authorized and prescribed by the Court of Directors of the East India Company.

Ordered, that a copy of the foregoing Resolution be communicated to the Committee with reference to their letters dated the 1st, 5th and 9th ultimo, and that the thanks of the Government be expressed to the Members of that Committee and to Mr. Gurnia for the valuable, zealous and public spirited services which they have rendered by their investigations and labours connected with the project of the proposed Institution.

MARINE REGULATIONS.

Under the Orders of Government, the following "proposed Amendments and Modifications of certain Pilot and Port Regulations" are published for general information, and will be continued from this date for four consecutive regular Gazettes prior to adoption.

Amendment in Rule 16 Page 24 of Rules and Regulations for the better order and government of the Bengal Pilot Service, as noted in the Sentences in Italics.

"It is however to be distinctly understood that the Vessel (Pilot) nearest to the strange Sail is instantly to examine her night or day, *and put a Pilot on board of her* without waiting for any order from the Senior Pilot, or *without referring her to any other Vessel whatever, especially in the night, subject however to the *discretion vested in the Senior Pilot present,* to whom he is to communicate any information he may obtain; during the night however, should any suspicion arise as to the stranger being an Enemy, the signal is to be made and every precaution taken to secure the Pilot Vessel.

* NOTE.—This discretion is as follows, and forms part of the Rule in question.

It is the duty of every Pilot to give Pilotage assistance to the utmost extent of his power, with promptitude and zeal, without reference to rotation.—When, however, it can be effected without delay or injury to the service, those Pilots who have been longest out may be selected by the Senior Officer present.

Additional Paragraph to the Notification now under publication, touching the position of Pilots, the whole to be subsequently published in all British as well as Indian Ports.

Vessels approaching the station on seeing the Pilot Vessels are requested in the day to make for that Vessel on board of which they will see a large Red Flag flying at the main, (the customary signal for the next turn-Pilot) whenever they can do so without great inconvenience and delay. In the night the vessel having the next-turn Pilot on board is ordered to burn a Maroon every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood, however, that any Pilot Vessel, which may be first seen, is bound immediately to use every exertion to put a Pilot on board night or day, without referring to any turns, and that this latter is only allowed when no delay is occasioned thereby.

Referring to the revised rule under date 21st December 1830, which strictly forbids Pilots on pain of dismissal from moving Vessels in the river on any account at a greater than a certain fixed draft of water, it is proposed to substitute the following:

Pilots are required on their responsibility to move Vessels at the drafts of water noted in the margin* being those beyond which they have hitherto been restricted from moving Vessels, which restriction is hereby withdrawn; and Pilots are at liberty if they so think fit to move Vessels at greater drafts on requisition of the Commander.

Amendment in the practice of requiring from Vessels arriving at the Sand Heads three separate Reports—Lists of Crews, Passengers, Nautical Information, &c. &c. viz. one to the Marine Board, one to the Police Magistrate, one to the Master Attendant.

That the Report to the Police Magistrates be discontinued, that, that to the Marine Board be confined to Report of Arrival, Tonnage, and Date of receiving Pilot on board; and that to the Master Attendant to the above, and to List of Passengers and particulars of any Nautical Information obtained during the Voyage; the practice of sending Manifests from Kedgeree to the Marine Board having been discontinued.

ALTERATION OF RULES.

PRESENT RULE.	PROPOSED RULES.
All Pilots are strictly prohibited from bringing any inward bound Ship or Vessel after sunset beyond the Floating Light Vessel, or from keeping any Ship or Vessel under way in the River after that time.	Pilots in the exercise of their discretion are cautioned against bringing any inward bound Ship or Vessel beyond the Floating Light in the S. W. Monsoon, whereby anchoring in the Eastern Channel for the night may become necessary; and they are prohibited from moving vessels during the night in the spaces noted in the margin.* In all other parts of the River they are at liberty to move Vessels according to their discretion during the night, *with the concurrence of the Commander or* Commanding Officer on board.

*1st. From the upper part of Saugor Roads to Kedgeree Roads (or through Lloyd's Channel).
2d From Kedgeree to Mud Point (or through the New Channel).
3d. From Tumlook to Fultah Point (or over the James and Mary).

To prevent accidents occurring, the following Rule is to be strictly attended to by all Vessels in the River between Saugor and Calcutta:

Vessels at anchor to shew a Light during the night at the Starboard fore yard arm.

Vessels underway *with a Steamer* to carry a Light at each fore yard arm, the Steamer shewing one where most convenient.

Without a Steamer, to shew a Light at the fore top gallant mast head.

Referring to the order which directs, that no Vessel shall be moved in the River without the Commander, and Principal Officers being on board, it is proposed to introduce the following Rule:

It being necessary in the management of a Ship or Vessel in this River that the Pilots' local knowledge and directions should be aided by the utmost possible efficiency in the equipments of the Vessel, and the presence of such Commander and Officer being on some occasions essential to that efficiency, it is therefore not expedient that Pilots should be compelled to move Vessels in the absence of such Commander or Officers unless satisfied that their presence on board may individually in any case be dispensed with. It is therefore competent to a Pilot in charge of a Vessel to decline to move her in the absence of her Commander or Officers, in the event of his considering such absence to render the Vessel inefficient. He will of course exercise this discretion, as all others, subject to responsibility, and any Commander seeing reason to question the exercise of this discretion will refer to the Master Attendant, whose decision is to be final.

By Order of the Marine Board,

C. B. GREENLAW, *Secretary.*

Fort William, Marine Board Office,
The 14th May, 1835.

NOTICE.

POSITION OF PILOTS.

REFERENCES having been made to the Marine Board, with a view to ascertain the position in which Pilot Vessels may be expected to be found at the different Seasons of the Year, the following is published for general information:

During the S. W. Monsoon, from the 15th of March till the 15th of September, the Pilot Vessels Cruize during the day off Point Palmyras, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Light on the Point, bearing West to W. by S. if, however, about the beginning of September, the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels haul off to the Eastward, and may be found in a line between the Light on the Point and the Floating Light Vessel.

From the 15th September to the 15th March, the Pilot Vessel's Cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the Night East and West of each other, in Latitude 21° to 21° 10' North.

FINANCIAL DEPARTMENT,

THE 18TH MAY, 1835.

The following extract from the Proceedings of Government, in the Financial Department, is published for general information.

Read three letters from the Government Committee for the Assurance of Lives, severally dated the 1st, 5th and 9th instant, with their enclosures.

Read again the Proceedings of Government,

dated the 7th of March,	No. 18 and 19.
16th of April,	No. 1 to 5.
22d Idem;	No. 1 to 4 and
29th Idem,	No. 1 to 14.

Read also letters from the Committee, one dated the 29th of April and the other without date, with their respective enclosures.

Resolution.—The Honorable the Governor General of India in Council perceives from the recent Reports submitted by the Committee appointed with the view to the Establishment of an Institution for the Assurance of Lives, that the operations of the proposed Institution which it was determined to establish under the guarantee and on the credit of Government by the Resolution in the Financial Department, dated the 7th of March last, cannot be commenced on a footing of amicable arrangement with the existing Societies; and that if the Government Office were to be opened before the present misunderstandings were removed, great disadvantage and injury might be inflicted on individuals assured in the present Societies, and satisfied with their Security.

The Community has not evinced that degree of interest and inclination towards the projected Government Institution which would lead the Governor General in Council to the belief that a very general desire obtains for the existence of such an Office. A portion indeed of the Society at Calcutta has openly declared a hostile disposition to the Government Scheme.

Under the above circumstances, as the Supreme Government has had no other object or purpose in view, from lending the influence of its credit and the aid of the Public Servants to an Institution for the Assurance of Lives, than the benefit of the Community, which, as above shewn, would appear to be generally well contended with the means of Life Insurance and with the Security afforded by the present Institutions, the "Universal," the "Oriental" and the "Laudables,"—it is this day resolved by the Honorable the Governor General of India in Council that the Resolution of the 7th of March be revoked; and that a reference be made to the Honorable the Court of Directors on the subject of establishing such an Institution hereafter; and farther, that no Office on the guarantee of the Government for the Assurance of Lives shall be opened until such a measure shall have been authorized and prescribed by the Court of Directors of the East India Company.

Ordered, that a copy of the foregoing Resolution be communicated to the Committee with reference to their letters dated the 1st, 5th and 9th ultimo, and that the thanks of the Government be expressed to the Members of that Committee and to Mr. Curnin for the valuable, zealous and public spirited services, which they have rendered by their investigations and labours connected with the project of the proposed Institution.

NOTICE.

POSITION OF PILOTS.

REFERENCES having been made to the Marine Board, with a view to ascertain the position in which Pilot Vessels may be expected to be found at the different Seasons of the Year, the following is published for general information:

During the S. W. Monsoon, from the 15th of March till the 15th of September, the Pilot Vessels Cruize during the day off Point Palmyras, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Light on the Point, bearing West to W. by S. if, however, about the beginning of September, the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels haul off to the Eastward, and may be found in a line between the Light on the Point and the Floating Light Vessel.

From the 15th September to the 15th March, the Pilot Vessel's Cruze during the day between Saugor Sand and Western Sea Reef, anchoring in the Night East and West of each other, in Latitude 21° to 21° 10' North.

By Order of the Marine Board,

CHAS. B. GREENLAW, *Secretary.*

Fort William, the 2d January, 1835.

No. 1096.

MARINE REGULATIONS.

Under the Orders of Government, the following "proposed Amendments and Modifications of certain Pilot and Port Regulations" are published for general information, and will be continued from this date for four consecutive regular Gazettes prior to adoption.

Amendment in Rule 16 Page 24 of Rules and Regulations for the better order and government of the Bengal Pilot Service, as noted in the Sentences in Italics.

"It is however to be distinctly understood that the Vessel (Pilot) nearest to the strange Sail is instantly to examine her night or day, *and put a Pilot on board of her* without waiting for any order from the Senior Pilot, or *without referring her to any other Vessel whatever, especially in the night, subject however to the *discretion vested in the Senior Pilot present,* to whom he is to communicate any information he may obtain; during the night however, should any suspicion arise as to the stranger being an Enemy, the signal is to be made and every precaution taken to secure the Pilot Vessel.

* Note.—This discretion is as follows, and forms part of the Rule in question.

It is the duty of every Pilot to give Pilotage assistance to the utmost extent of his power, with promptitude and zeal, without reference to rotation.—When, however, it can be effected without delay or injury to the service, those Pilots who have been longest out may be selected by the Senior Officer present.

Additional Paragraph to the Notification now under publication touching the position of Pilots, the whole to be subsequently published in all British as well as Indian Ports.

Vessels approaching the station on seeing the Pilot Vessels are requested in the day to make for that Vessel on board of which they will see a large Red Flag flying at the main, (the customary signal for the next turn-Pilot) whenever they can do so without great inconvenience and delay. In the night the vessel having the next-turn Pilot on board is ordered to burn a Maroon every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood, however, that any Pilot Vessel, which may be first seen, is bound immediately to use every exertion to put a Pilot on board night or day, without referring to any turns, and that this latter is only allowed when no delay is occasioned thereby.

Referring to the revised rule under date 21st December 1830, which strictly forbids Pilots on pain of dismissal from moving Vessels in the river on any account at a greater than a certain fixed draft of water, it is proposed to substitute the following:

Pilots are required on their responsibility to move Vessels at the drafts of water noted in the margin* being those beyond which they have hitherto been restricted from moving Vessels, which restriction is hereby withdrawn; and Pilots are at liberty if they so think fit to move Vessels at greater drafts on requisition of the Commander.

Amendment in the practice of requiring from Vessels arriving at the Sand Heads three separate Reports—Lists of Crews, Passengers, Nautical Information, &c. &c. viz. one to the Marine Board, one to the Police Magistrates, one to the Master Attendant.

That the Report to the Police Magistrates be discontinued, that, that to the Marine Board be confined to Report of Arrival, Tonnage, and Date of receiving Pilot on board; and that to the Master Attendant to the above, and to List of Passengers and particulars of any Nautical Information obtained during the Voyage; the practice of sending Manifests from Kedgeree to the Marine Board having been discontinued.

ALTERATION OF RULES.

Present Rule.	Proposed Rules.
All Pilots are strictly prohibited from bringing any inward bound Ship or Vessel after sunset beyond the Floating Light Vessel, or from keeping any Ship or Vessel under way in the River after that time.	Pilots in the exercise of their discretion are cautioned against bringing any inward bound Ship or Vessel beyond the Floating Light in the S. W. Monsoon, whereby anchoring in the Eastern Channel for the night may become necessary; and they are prohibited from moving vessels during the night in the spaces noted in the margin.* In all other parts of the River they are at liberty to move Vessels according to their discretion during the night, *with the concurrence of the Commander* or Commanding Officer on board.

*1st. From the upper part of Saugor Roads to Kedgeree Roads (or through Lloyd's Channel).
2d. From Kedgeree to Mud Point (or through the New Channel).
3d. From Tumlook to Fultah Point (or over the James and Mary).

To prevent accidents occurring, the following Rule is to be strictly attended to by all Vessels in the River between Saugor and Calcutta:

Vessels at anchor to shew a Light during the night at the Starboard fore yard arm.

Vessels underway *with a Steamer* to carry a Light at each fore yard arm, the Steamer shewing one where most convenient.

Without a Steamer, to shew a Light at the fore top gallant mast head.

Referring to the order which directs, that no Vessel shall be moved in the River without the Commander, and Principal Officers being on board, it is proposed to introduce the following Rule:

It being necessary in the management of a Ship or Vessel in this River that the Pilots' local knowledge and directions should be aided by the utmost possible efficiency in the equipments of the Vessel, and the presence of such Commander and Officer being on some occasions essential to that efficiency, it is therefore not expedient that Pilots should be compelled to move Vessels in the absence of such Commander or Officers unless satisfied that their presence on board may individually in any case be dispensed with. It is therefore competent to a Pilot in charge of a Vessel to decline to move her in the absence of her Commander or Officers, in the event of his considering such absence to render the Vessel inefficient. He will of course exercise this discretion, as all others, subject to responsibility, and any Commander seeing reason to question the exercise of this discretion will refer to the Master Attendant, whose decision is to be final.

FINANCIAL DEPARTMENT,

THE 13TH MAY, 1835.

The following extract from the Proceedings of Government, in the Financial Department, is published for general information:

Read three letters from the Government Committee for the Assurance of Lives, severally dated the 1st, 5th and 9th instant, with their enclosures.

Read again the Proceedings of Government, dated the 7th of March, No. 18 and 19.
15th of April, No. 1 to 5.
22d Idem, No. 1 to 4 and
29th Idem, No. 1 to 10.

Read also letters from the Committee, one dated the 29th of April and the other without date, with their respective enclosures.

Resolution.—The Honorable the Governor General of India in Council perceives from the recent Reports submitted by the Committee appointed with the view to the Establishment of an Institution for the Assurance of Lives, that the operations of the proposed Institution which it was determined to establish under the guarantee and on the credit of Government by the Resolution in the Financial Department, dated the 7th of March last, cannot be commenced on a footing of amicable arrangement with the existing Societies, and that if the Government Office were to be opened before the present misunderstandings were removed, great disadvantage and injury might be inflicted on individuals assured in the present Societies, and satisfied with their Security.

The Community has not evinced that degree of interest and inclination towards the projected Government Institution which would lead the Governor General in Council to the belief that a very general desire obtains for the existence of such an Office. A portion indeed of the Society at Calcutta has openly declared a hostile disposition to the Government Scheme.

Under the above circumstances, as the Supreme Government has had no other object or purpose in view, from lending the influence of its credit and the aid of the Public Servants to an Institution for the Assurance of Lives, than the benefit of the Community, which, as above shewn, would appear to be generally well contended with the means of Life Insurance and with the Security afforded by the present Institutions, the "Universal," the "Oriental" and the "Laudables,"—it is this day resolved by the Honorable the Governor General of India in Council that the Resolution of the 7th of March be revoked; and that a reference be made to the Honorable the Court of Directors on the subject of establishing such an Institution hereafter; and further, that no Office on the guarantee of the Government for the Assurance of Lives shall be opened until such a measure shall have been authorized and prescribed by the Court of Directors of the East India Company.

Ordered, that a copy of the foregoing Resolution be communicated to the Committee with reference to their letters dated the 1st, 5th and 9th ultimo, and that the thanks of the Government be expressed to the Members of that Committee and to Mr. Curnin for the valuable, zealous and public spirited services which they have rendered by their investigations and labours connected with the project of the proposed Institution,

An Act to amend the Law relating to Insolvent Debtors in *India*. [14th *August* 1834.

WHEREAS an Act was passed in the Ninth Year of the Reign of His late Majesty King *George* the Fourth, 9 G. 4. c. 73. intituled *An Act to provide for the Relief of Insolvent Debtors in the* East Indies *until the First Day of* March *One thousand eight hundred and thirty-three*; and by another Act passed 2 W. 4. c. 43. ed in the Second Year of the Reign of His present Majesty King *William* the Fourth the said Act was continued in force until the First Day of *March* One thousand eight hundred and thirty-six: And whereas, in and by the said Act to provide for the Relief of Insolvent Debtors in the *East Indies*, certain Provisions were enacted as to a Commission of Bankruptcy issuing against any such Insolvent Debtor as therein mentioned, and as to the Proceedings consequent thereon; and amongst other Things it was enacted, that a Certificate obtained under such Commission as therein provided should have the same Force and Effect in all Places situate without the Limits of the *East India* Company's Charter as if the same had been duly signed in the usual Way after such Bankrupt had duly surrendered and passed his last Examination, and it was also by the said Act amongst other Things provided and enacted, that whenever it shall be made to appear to the Satisfaction of any Court for Relief of Insolvent Debtors, upon the Application of any Insolvent, his Assignee or Assignees, or any of his or her Creditors, that the Estate of such Insolvent Debtor which shall have come to the Hands of the Assignee or Assignees shall have produced sufficient to pay and discharge Three Fourths of the Amount of the Debts which shall have been established in such Court, or that Creditors to the Amount of more than One Half in Number and Value of the Debts which shall have been so established shall signify their Consent in Writing thereto, it shall be lawful for such Court to inquire into the Conduct of the said Insolvent, and if it shall appear to such Court that the said Insolvent has acted fairly and honestly towards his or her Creditors, such Court shall be fully authorized and empowered thereupon to order that the said Insolvent shall be for ever discharged from all Liability whatsoever for or in respect of such Debts so established as aforesaid, and such Court shall, in the Order to be drawn up, specify and set forth the Names of such Creditors; and after any such Order shall have been so made no further Proceedings shall be had in the Matter of the Petition before the Court, unless upon Appeal made to the Supreme Court of Judicature of the Presidency where such Court for the Relief of Insolvent Debtors shall be holden as thereby authorized; and it was by the said recited Act also provided, that no such Order as last aforesaid shall prevent any Creditor who shall not have been resident within the Limits of the Charter of the said United Company at any Time between the filing of such Petition and the making of such Order as last mentioned, and who shall not have taken Part in any of the Proceedings under the said Petition, from bringing any Suit or Action in the *East Indies* for the Purpose of obtaining Execution against the Goods, Estate, or Effects of such Insolvent for any unsatisfied Claim of such Creditor, nor from bringing any Suit or Action for such Claim in any Court of the United Kingdom of *Great Britain* and *Ireland*, or elsewhere without the Limits of the said United Company's Charter, against such Insolvent, in the same Manner and with the like Consequences and Effects as if such Order as last mentioned had not been made: And whereas it is expedient to extend and add to the Provisions of the said Acts, so as to give to Insolvent Debtors, being Traders, who shall have acted fairly and honestly towards their Creditors, an additional and more complete Discharge, and also to render more effectual the Means of obtaining such Discharge, and at the same Time to preserve to such Insolvent Debtors such Relief as is already afforded by the said recited Acts: And whereas under the Provisions of the Act passed in the First and 1 & 2 W. 4. c. 56. Second Years of His present Majesty King *William* the Fourth, intituled *An Act to establish a Court in Bankruptcy*, a Fiat is issued in Bankruptcy in lieu of a Commission of Bankrupt in every Case where the Lord Chancellor, by virtue of any former Act had heretofore Power to issue a Commission of Bankrupt: Be it therefore enacted by the King's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That any Person who now is or who shall hereafter become an Insolvent Debtor within the Intent and Meaning of the said Act of the Ninth Year of the Reign of His Majesty King *George* the Fourth, either upon Petition filed, or by Adjudication on an Act of Insolvency as therein provided, and who at the Time of such Petition being filed or Adjudication made as aforesaid shall have been or shall be a Person who, by an Act passed in the Sixth 6 G. 4. c. 16. Notice of such Petition to be inserted in the Gazette of the Presidency, and in the London Gazette.

Creditors who shall not dissent within 14 Months to be deemed to assent.

Court may then order Discharge, unless 1-6th dissent or a Fiat in Bankruptcy issue, under the General Bankrupt Acts.

empowered to order the Discharge of the said Insolvent from Liability for Debts, Claims, and Demands of and against such Insolvent; and such Order shall operate (save as herein-after provided) as a Release and Discharge from all Debts, Claims, and Demands for which such Insolvent was liable at the Time of his Petition for Relief being filed, or of any such Act of Insolvency committed as aforesaid (as the Case may be), and whether within the Limits of the Charter of the said United Company, or elsewhere, and whether such Debts, Claims, and Demands shall or shall not have been established in such Court as aforesaid: Provided nevertheless, that such Order shall not operate as a Release of Discharge of any Person who was Partner with such Insolvent, or jointly bound or liable with him.

Order of Court to discharge all Debts both in India and elsewhere.

But not to discharge Partners.

II. Provided always, and be it further enacted, That in case any Fiat in Bankruptcy shall be issued in *England* against any such Insolvent Trader as aforesaid, under the Provisions of the said Act, intituled *An Act to provide for the Relief of Insolvent Debtors in the East Indies*, or under the Provisions of any other Act passed or to be hereafter passed respecting Insolvent Debtors in the *East Indies*, then and in such Case such Order for Discharge as aforesaid shall not operate as a Discharge of the Debt, Claim, and Demand of any Creditor who shall not have been resident within the limits of the Charter of the said United Company at any Time between the filing of such Petition and the making of such Order as last-mentioned, nor shall any such Creditor be debarred from bringing any Suit or Action for such Debt, Claim, or Demand in any Court of the United Kingdom of *Great Britain* and *Ireland*, or elsewhere without the Limits of the said United Company's Charter, against such Insolvent, in the same Manner and with the like Consequences and Effects as if such Order as last mentioned had not been made.

If any Fiat of Bankruptcy shall be issued under the Acts for Relief of Insolvent Debtors in India, then the Discharge to be confined to India;

III. Provided nevertheless, and be it further enacted, That in such last-mentioned Case, upon any Application made to the Commissioner acting in such Fiat as aforesaid, to sign the Certificate of such Insolvent, and after the same shall have been signed by the requisite Number of Creditors under the Provisions of the said Act, intituled *An Act to provide for the Relief of Insolvent Debtors in the East Indies*, or any other Act passed or hereafter to be passed respecting Insolvent Debtors in the *East Indies*, then if it shall be made to appear to such Commissioner that such Order for a Discharge has been made by the Court in the *East Indies* as aforesaid, and if such Commissioner shall sign such Certificate, he shall also certify in Writing upon such Certificate that such Insolvent has obtained such Order for Discharge in the *East Indies* as aforesaid, and thereupon such Certificate shall have the same Force and Effect, as well within as without the Limits aforesaid, as a Certificate duly obtained under the said Act of the Sixth Year of the Reign of His Majesty King *George* the Fourth, intituled *An Act to amend the Laws relating to Bankrupts*, or in any other Act passed or to be hereafter passed respecting Bankrupts.

but on the Order for Discharge being proved to the Commissioner, and on his signing the Bankrupt's Certificate, such Certificate to be a general Discharge from all Debts.

6 G. 4. c. 16.

IV. And be it enacted, That any such Insolvent Trader who shall not be made a Bankrupt under the Provisions of the said Act for the Relief of Insolvent Debtors in the *East Indies*, or of any other Act passed or hereafter to be passed respecting Insolvent Debtors in the *East Indies*, if he shall, after such Order for his Discharge shall have been made as aforesaid, be arrested, or have any Action brought against him for any Debt, Claim, or Demand for which he was so liable as aforesaid, either within the Limits of the Charter of the said United Company or elsewhere, shall be discharged upon Common Bail, and may plead in general that the Cause of Action accrued before he became insolvent, and may give this Act and the special Matter in Evidence; and such Order as aforesaid, duly sealed with the Seal of the said Court, shall be sufficient Evidence in all Courts and Places whatsoever of all the Proceedings precedent to such Order being made, and of the same being duly obtained; and if any such Insolvent Trader shall be taken in Execution or detained in Prison for such Debt, Claim, or Demand where Judgment has been obtained before such Order of the Court for his Discharge as aforesaid, it shall be lawful for any Judge of the Court wherein such Judgment has been obtained, on such Insolvent producing such Order as aforesaid, to order any Officer who shall have such Insolvent in Custody by virtue of such Execution to discharge such Insolvent without exacting any Fee, and such Officer shall be hereby indemnified for so doing; and any such Insolvent Trader who shall be a Bankrupt under the Provisions of the said last-mentioned Act, and who shall be arrested within the Limits of the Charter of the said Company, shall be so discharged, and may so plead, and shall have otherwise such Relief within the said Limits, as herein-before mentioned; and if he shall also obtain such Certificate as herein-before provided, he may be at liberty to avail himself either of such Certificate, or of such Order of Discharge as aforesaid, for the Purposes of his Discharge within the Limits aforesaid.

In case there is no Bankruptcy, the Order of Discharge to have effect everywhere.

If there be a Bankruptcy, Discharge to be confined to India.

If Certificate obtained, it may be pleaded in India.

V. And be it further enacted, That in case any Fiat in Bankruptcy (other than a Fiat under the Provisions of the said Act, intituled *An Act to provide for the Relief of Insolvent Debtors in the East Indies*, or any other Act relating to the Insolvent Debtors in the *East Indies*) be issued against any such Insolvent Trader within the Period of Eight Calendar Months from the Time of such Petition for Relief being filed, or of such Adjudication of Insolvency being made, as the Case may be, and such Insolvent Trader shall be duly adjudged a Bankrupt under such Fiat, then and in such Case such Court is aforesaid shall not be authorized and empowered to make any such Order for Discharge as aforesaid.

If a Fiat under the Bankrupt Act within Eight Months after Petition for Discharge, the Court to make no Order.

VI. And be it further enacted, That after the Expiration of such Eight Calendar Months as aforesaid no Fiat shall issue against any such Insolvent, upon any petitioning Creditor's Debt due before the filing of such Petition for Relief, or such Adjudication of Insolvency (as the Case may be); and in case any Fiat shall issue against such Insolvent Trader as aforesaid upon a petitioning Creditor's Debt incurred subsequently to such filing of the Petition for Relief or to such Adjudication of Insolvency as aforesaid, such Fiat shall not in any Manner affect, invalidate, or interfere, with the Proceedings under the Insolvency previously existing in the *East Indies*, nor shall the Assignees under such Fiat acquire any Right or Title to take possession of, demand, sue for, or recover any Property or Interest, Real or Personal, wheresoever situate, which belonged to such Insolvent at the Time of such Petition for Relief being filed, or of such Adjudication of Insolvency as aforesaid, but the Assignee or Assignees appointed by such Court for the Relief of Insolvent Debtors shall have the sole and exclusive Right and Title thereto; and all Debts, Claims, and Demands due and payable to such Insolvent at the Time of such Petition for Relief being filed, or of such Adjudication of Insolvency as aforesaid, shall be established under such Insolvency, and shall not be provable under such last-mentioned Fiat.

But no Fiat to issue against a Trader who is already before the Insolvent Court after the Eight Months from the Petition for Discharge.

VII. And whereas by the said recited Act of the Ninth Year of the Reign of His late Majesty King *George* the Fourth it is enacted, that all such Insolvent Debtors as therein mentioned shall, within the Time also therein mentioned, deliver into the Court a Schedule containing a full and true Account of their Debts, Estates, and Effects as therein mentioned, and which Schedule is thereby directed to be forthwith filed in the said Court; And whereas it is expedient that the Creditors of such Insolvent Debtors residing out of the Limits of the said Company's Charter should have the Means of inspecting such Schedule with equal Facility with Creditors of such Insolvent Debtors residing within the Limits of the said Charter; be it therefore further enacted, That the principal Officer of the said respective Courts for the Relief of Insolvent Debtors shall without Delay, transmit to the Court of Directors of the said Company, by different Ships, Two or more Copies of each such Schedule, and the said Court shall retain the same, and permit any Person or Persons being a Creditor or Creditors of any such Insolvent Debtor to inspect and examine at all seasonable Times such Schedule, and shall, upon the Request and at the reasonable Costs and Charges of any such Creditor or Creditors (such Costs and Charges to be regulated by the said Court), provide for him or them a Copy or Copies of any such Schedule.

Schedules of Debtors in India to be transmitted to Court of Directors in England, and to be open to Inspection of Creditors.

MARINE REGULATIONS.

Under the Orders of Government, the following "proposed Amendments and Modifications of certain Pilot and Port Regulations" are published for general information, and will be continued from this date for four consecutive regular Gazettes prior to adoption.

Amendment in Rule 16 Page 24 of Rules and Regulations for the better order and government of the Bengal Pilot Service, as noted in the Sentences in Italics.

"It is however to be distinctly understood that the Vessel (Pilot) nearest to the strange Sail is instantly to examine her night or day, *and put a Pilot on board of her* without waiting for any order from the Senior Pilot, *or without referring her to any other Vessel whatever, especially in the night, subject however to the *discretion vested in the Senior Pilot present*, to whom he is to communicate any information he may obtain; during the night however, should any suspicion arise as to the stranger being an Enemy, the signal is to be made and every precaution taken to secure the Pilot Vessel."

* Note.—This discretion is as follows, and forms part of the Rule in question.

It is the duty of every Pilot to give Pilotage assistance to the utmost extent of his power, with promptitude and zeal, without reference to rotation.—When, however, it can be effected without delay or injury to the service, those Pilots who have been longest out may be selected by the Senior Officer present.

Additional Paragraph to the Notification now under publication touching the position of Pilots, the whole to be subsequently published in all British as well as Indian Ports.

Vessels approaching the station on seeing the Pilot Vessels are requested in the day to make for that Vessel on board of which they will see a large Red Flag flying at the main, (the customary signal for the next turn-Pilot) whenever they can do so without great inconvenience and delay. In the night the vessel having the next-turn Pilot on board is ordered to burn a Maroon every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night, from that Vessel; it being understood, however, that any Pilot Vessel, which may be first seen, is bound immediately to use every exertion to put a Pilot on board night or day, without referring to any turns, and that this latter is only allowed when no delay is occasioned thereby.

Referring to the revised rule under date 21st December 1830, which strictly forbids Pilots on pain of dismissal from moving Vessels in the river on any account at a greater than a certain fixed draft of water, it is proposed to substitute the following:

Pilots are required on their responsibility to move Vessels at the drafts of water noted in the margin* being those beyond which they have hitherto been restricted from moving Vessels, which restriction is hereby withdrawn; and Pilots are at liberty if they so think fit to move Vessels at greater drafts on requisition of the Commander.

Amendment in the practice of requiring from Vessels arriving at the Sand Heads three separate Reports—Lists of Crews, Passengers, Nautical Information, &c. &c. viz. one to the Marine Board, one to the Police Magistrates, one to the Master Attendant.

That the Report to the Police Magistrates be discontinued, that, that to the Marine Board be confined to Report of Arrival, Tonnage, and Date of receiving Pilot on board; and that to the Master Attendant to the above, and to List of Passengers and particulars of any Nautical Information obtained during the Voyage; the practice of sending Manifests from Kedgeree to the Marine Board having been discontinued.

ALTERATION OF RULES.

Present Rule.	Proposed Rules.
All Pilots are strictly prohibited from bringing any inward bound Ship or Vessel after sunset beyond the Floating Light Vessel, or from keeping any Ship or Vessel under way in the River after that time.	Pilots in the exercise of their discretion are cautioned against bringing any inward bound Ship or Vessel beyond the Floating Light in the S. W. Monsoon, whereby anchoring in the Eastern Channel for the night may become necessary; and they are prohibited from moving vessels during the night in the spaces noted in the margin.*. In all other parts of the River they are at liberty to move Vessels according to their discretion during the night, *with the concurrence of the Commander* or Commanding Officer on board.

*1st. From the upper part of Saugor Roads to Kedgeree Roads (or through Lloyd's Channel).

2d. From Kedgeree to Mud Point (or through the New Channel).

3d. From Tumlook to Fultah Point (or over the James and Mary).

To prevent accidents occurring, the following Rule is to be strictly attended to by all Vessels in the River between Saugor and Calcutta:

Vessels at anchor to shew a Light during the night at the Starboard fore yard arm.

Vessels underway *with a Steamer* to carry a Light at each fore yard arm, the Steamer shewing one where most convenient.

Without a Steamer, to shew a Light at the fore top gallant mast head.

Referring to the order which directs, that no Vessel shall be moved in the River without the Commander, and Principal Officers being on board, it is proposed to introduce the following Rule:

It being necessary in the management of a Ship or Vessel in this River that the Pilots' local knowledge and directions should be aided by the utmost possible efficiency in the equipments of the Vessel, and the presence of such Commander and Officer being on some occasions essential to that efficiency, it is therefore not expedient that Pilots should be compelled to move Vessels in the absence of such Commander or Officers unless satisfied that their presence on board may individually in any case be dispensed with. It is therefore competent to a Pilot in charge of a Vessel to decline to move her in the absence of her Commander or Officers, in the event of his considering such absence to render the Vessel inefficient. He will of course exercise this discretion, as all others, subject to responsibility, and any Commander seeing reason to question the exercise of this discretion will refer to the Master Attendant, whose decision is to be final.

By Order of the Marine Board,

C. B. GREENLAW, *Secretary.*

Fort William, Marine Board Office, The 14th May, 1835.

NOTICE.

POSITION OF PILOTS.

REFERENCES having been made to the Marine Board, with a view to ascertain the position in which Pilot Vessels may be expected to be found at the different Seasons of the Year, the following is published for general information:

During the S. W. Monsoon, from the 15th of March till the 15th of September, the Pilot Vessels Cruize during the day off Point Palmyras, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Light on the Point, bearing West to W. by S. if, however, about the beginning of September, the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels haul off to the Eastward, and may be found in a line between the Light on the Point and the Floating Light Vessel.

From the 15th September to the 15th March, the Pilot Vessel's Cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the Night East and West of each other, in Latitude 21° to 21° 10' North.

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 10 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

WHEREAS an Act was passed in the Ninth Year of the Reign of His late Majesty King *George* the Fourth, intituled *An Act to provide for the Relief of Insolvent Debtors in the* East Indies *until the First Day of* March *One thousand eight hundred and thirty-three;* and by another Act passed in the Second Year of the Reign of His present Majesty King *William* the Fourth the said Act was continued in force until the First Day of *March* One thousand eight hundred and thirty-six: And whereas, in and by the said Act to provide for the Relief of Insolvent Debtors in the *East Indies*, certain Provisions were enacted as to a Commission of Bankruptcy issuing against any such Insolvent Debtor as therein mentioned, and as to the Proceedings consequent thereon; and amongst other Things it was enacted, that a Certificate obtained under such Commission as therein provided should have the same Force and Effect in all Places situate without the Limits of the *East India* Company's Charter as if the same had been duly signed in the usual Way after such Bankrupt had duly surrendered and passed his last Examination; and it was also by the said Act amongst other Things provided and enacted, that whenever it shall be made to appear to the Satisfaction of any Court for Relief of Insolvent Debtors, upon the Application of any Insolvent, his Assignee or Assignees, or any of his or her Creditors, that the Estate of such Insolvent Debtor which shall have come to the Hands of the Assignee or Assignees shall have produced sufficient to pay and discharge Three Fourths of the Amount of the Debts which shall have been established in such Court, or that Creditors to the Amount of more than One Half in Number and Value of the Debts which shall have been so established shall signify their Consent in Writing thereto, it shall be lawful for such Court to inquire into the Conduct of the said Insolvent, and if it shall appear to such Court that the said Insolvent has acted fairly and honestly towards his or her Creditors, such Court shall be fully authorized and empowered thereupon to order that the said Insolvent shall be for ever discharged from all Liability whatsoever for or in respect of such Debts so established as aforesaid, and such Court shall, in the Order to be drawn up, specify and set forth the Names of such Creditors; and after any such Order shall have been so made no further Proceedings shall be had in the Matter of the Petition before the Court, unless upon Appeal made to the Supreme Court of Judicature of the Presidency where such Court for the Relief of Insolvent Debtors shall be holden as thereby authorized; and it was by the said recited Act also provided, that no such Order as last aforesaid shall prevent any Creditor who shall not have been resident within the Limits of the Charter of the said United Company at any Time between the filing of such Petition and the making of such Order as last mentioned, and who shall not have taken Part in any of the Proceedings under the said Petition, from bringing any Suit or Action in the *East Indies* for the Purpose of obtaining Execution against the Goods, Estate, or Effects of such Insolvent for any unsatisfied Claim of such Creditor, nor from bringing any Suit or Action for such Claim in any Court of the United Kingdom of *Great Britain* and *Ireland*, or elsewhere without the Limits of the said United Company's Charter, against such Insolvent, in the same Manner and with the like Consequences and Effects as if such Order as last mentioned had not been made: And whereas it is expedient to extend and add to the Provisions of the said Acts, so as to give to Insolvent Debtors, being Traders, who shall have acted fairly and honestly towards their Creditors, an additional and more complete Discharge, and also to render more effectual the Means of obtaining such Discharge, and at the same Time to preserve to such Insolvent Debtors such Relief as is already afforded by the said recited Acts: And whereas under the Provisions of the Act passed in the First and Second Years of His present Majesty King *William* the Fourth, intituled *An Act to establish a Court in Bankruptcy*, a Fiat is issued in Bankruptcy in lieu of a Commission of Bankrupt in every Case where the Lord Chancellor, by virtue of any former Act had heretofore Power to issue a Commission of Bankrupt: Be it therefore enacted by the King's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That any Person who now is or who shall hereafter become an Insolvent Debtor within the Intent and Meaning of the said Act of the Ninth Year of the Reign of His Majesty King *George* the Fourth, either upon Petition filed, or by Adjudication on an Act of Insolvency as therein provided, and who at the Time of such Petition being filed or Adjudication made as aforesaid shall have been or shall be a Person who, by an Act passed in the Sixth Year of the Reign of His late Majesty, intituled *An Act to amend the Laws relating to Bankrupts*, or by any Act hereafter to be passed, would be deemed a Trader liable to become Bankrupt, shall be at liberty, at any Time not earlier than Three Months from the making of such Assignment as in the said Act, intituled *An Act for the Relief of Insolvent Debtors in the* East Indies, directed, or from any such Adjudication of Insolvency as therein mentioned (as the Case may be), to apply by Petition for his Discharge to any one of the said Courts in the *East Indies* for the Relief of Insolvent Debtors, in the said last-mentioned Act mentioned, as shall have already Jurisdiction over the Matter of his Insolvency; and the Principal Officer of such Court shall cause a Notice of such Petition to be forthwith inserted in the Gazette of the Presidency within which such Court shall be holden; and the Chief Secretary of the Government of such Presidency shall, without Delay, transmit to the Court of Directors of the said United Company, by different Ships, Two at least of every such Gazette which shall contain such Notice as aforesaid, who shall, without Delay, cause such Notice to be inserted in the *London Gazette*; and thereupon, and at the Expiration of the said Fourteen Calendar Months from the filing of such Petition for Discharge as aforesaid, if it shall appear to such Court that the said Insolvent has acted fairly and honestly towards his Creditors, and unless Creditors to the Amount of One-Sixth in Number and Value of the Debts that shall have been established in such Court shall have given Notice of their Dissent as aforesaid, or unless a Fiat in Bankruptcy (not being a Fiat issued under the Provisions of the said recited Acts "to provide for the Relief of Insolvent Debtors in the *East Indies*,") shall have been sued out in *England* against such Insolvent within the Time hereinafter provided, such Court shall be authorized and

III. Provided nevertheless, and be it further enacted, That in such last-mentioned Case, upon any Application made to the Commissioner acting in such Fiat as aforesaid, to sign the Certificate of such Insolvent, and after the same shall have been signed by the requisite Number of Creditors under the Provisions of the said Act, intituled *An Act to provide for the Relief of Insolvent Debtors in the* East Indies, or any other Act passed or hereafter to be passed respecting Insolvent Debtors in the *East Indies*, then if it shall be made to appear to such Commissioner that such Order for a Discharge has been made by the Court in the *East Indies* as aforesaid, and if such Commissioner shall sign such Certificate, he shall also certify in Writing upon such Certificate that such Insolvent has obtained such Order for Discharge in the *East Indies* as aforesaid, and thereupon such Certificate shall have the same Force and Effect, as well within as without the Limits aforesaid, as a Certificate duly obtained under the said Act of the Sixth Year of the Reign of His Majesty King *George* the Fourth, intituled *An Act to amend the Laws relating to Bankrupts*, or in any other Act passed or to be hereafter passed respecting Bankrupts.

6 G. 4. c. 16.

In case there is no Bankruptcy, the Order of Discharge to have effect every where.

IV. And be it enacted, That any such Insolvent Trader who shall not be made a Bankrupt under the Provisions of the said Act for the Relief of Insolvent Debtors in the *East Indies*, or of any other Act passed or hereafter to be passed respecting Insolvent Debtors in the *East Indies*, if he shall, after such Order for his Discharge shall have been made as aforesaid, be arrested, or have any Action brought against him for any Debt, Claim, or Demand for which he was so liable as aforesaid, either within the Limits of the Charter of the said United Company or elsewhere, shall be discharged upon Common Bail, and may plead in general that the Cause of Action accrued before he became insolvent, and may give this Act and the special Matter in Evidence; and such Order as aforesaid, duly sealed with the Seal of the said Court, shall be sufficient Evidence in all Courts and Places whatsoever of all the Proceedings precedent to such Order being made, and of the same being duly obtained; and if any such Insolvent Trader shall be taken in Execution or detained in Prison for such Debt, Claim, or Demand where Judgment has been obtained before such Order of the Court for his Discharge as aforesaid, it shall be lawful for any Judge of the Court wherein such Judgment has been obtained, on such Insolvent producing such Order as aforesaid, to order any Officer who shall have such Insolvent in Custody by virtue of such Execution to discharge such Insolvent without exacting any Fee, and such Officer shall be hereby indemnified for so doing; and any such Insolvent Trader who shall be a Bankrupt under the Provisions of the said last-mentioned Act, and who shall be arrested within the Limits of the Charter of the said Company, shall be so discharged, and may so plead, and shall have otherwise such Relief within the said Limits, as herein-before mentioned; and if he shall also obtain such Certificate as, herein-before provided, he may be at liberty to avail himself either of such Certificate, or of such Order of Discharge as aforesaid, for the Purposes of his Discharge within the Limits aforesaid.

If there be a Bankruptcy, Discharge to be confined to India.

If Certificate obtained, it may be pleaded in India.

If a Fiat under the Bankrupt Act within Eight Months after Petition for Discharge, the Court to make no Order.

VI. And be it further enacted, That after the Expiration of such Eight Calendar Months as aforesaid no Fiat shall issue against any such Insolvent, upon any petitioning Creditor's Debt due before the filing of such Petition for Relief, or such Adjudication of Insolvency (as the Case may be); and in case any Fiat shall issue against such Insolvent Trader as aforesaid upon a petitioning Creditor's Debt incurred subsequently to such filing of the Petition for Relief or to such Adjudication of Insolvency as aforesaid, such Fiat shall not in any Manner affect, invalidate, or interfere, with the Proceedings under the Insolvency previously existing in the *East Indies*, nor shall the Assignees under such Fiat acquire any Right or Title to take possession of, demand, sue for, or recover any Property or Interest, Real or Personal, wheresoever situated, which belonged to such Insolvent at the Time of such Petition for Relief being filed, or of such Adjudication of Insolvency as aforesaid, but the Assignee or Assignees appointed by such Court for the Relief of Insolvent Debtors shall have the sole and exclusive Right and Title thereto; and all Debts, Claims, and Demands due and payable to such Insolvent at the Time of such Petition for Relief being filed, or of such Adjudication of Insolvency as aforesaid, shall be established under such Insolvency, and shall not be provable under such last-mentioned Fiat.

Schedules of Debtors in India to be transmitted to Court of Directors in England, and to be open to Inspection of Creditors.

VII. And whereas by the said recited Act of the Ninth Year of the Reign of His late Majesty King *George* the Fourth it is enacted, that all such Insolvent Debtors as therein mentioned shall, within the Time also therein mentioned, deliver into the Court a Schedule containing a full and true Account of their Debts, Estates, and Effects as therein mentioned, and which Schedule is thereby directed to be forthwith filed in the said Court: And whereas it is expedient that the Creditors of such Insolvent Debtors residing out of the Limits of the said Company's Charter should have the Means of inspecting such Schedule with equal Facility with Creditors of such Insolvent Debtors residing within the Limits of the said Charter; be it therefore further enacted, That the principal Officer of the said respective Courts for the Relief of Insolvent Debtors shall without Delay, transmit to the Court of Directors of the said Company, by different Ships, Two or more Copies of each such Schedule, and the said Court shall retain the same, and permit any Person or Persons being a Creditor or Creditors of any such Insolvent Debtor to inspect and examine at all seasonable Times such Schedule, and shall, upon the Request and at the reasonable Costs and Charges of any such Creditor or Creditors (such Costs and Charges to be regulated by the said Court), provide for him or them a Copy or Copies of any such Schedule.

ANNO QUARTO AND QUINTO.

GULIELMI IV. REGIS.

CAP. LXXIX.

An Act to amend the Law relating to Insolvent Debtors in *India*. [14th *August* 1834.

WHEREAS an Act was passed in the Ninth Year of the Reign of His late Majesty King *George* the Fourth, intituled *An Act to provide for the Relief of Insolvent Debtors in the East Indies until the First Day of* March *One thousand eight hundred and thirty-three*; and by another Act passed in the Second Year of the Reign of His present Majesty King *William* the Fourth the said Act was continued in force until the First Day of *March* One thousand eight hundred and thirty-six: And whereas, in and by the said Act to provide for the Relief of Insolvent Debtors in the *East Indies*, certain Provisions were enacted as to a Commission of Bankruptcy issuing against any such Insolvent Debtor as therein mentioned, and as to the Proceedings consequent thereon, and amongst other Things it was enacted, that a Certificate obtained under such Commission as therein provided should have the same Force and Effect in all Places situate without the Limits of the *East India* Company's Charter as if the same had been duly signed in the usual Way after such Bankrupt had duly surrendered and passed his last Examination; and it was also by the said Act amongst other Things provided and enacted, that whenever it shall be made to appear to the Satisfaction of any Court for Relief of Insolvent Debtors, upon the Application of any Insolvent, his Assignee or Assignees, or any of his or her Creditors, that the Estate of such Insolvent Debtor which shall have come to the Hands of the Assignee or Assignees shall have produced sufficient to pay and discharge Three Fourths of the Amount of the Debts which shall have been established in such Court, or that Creditors to the Amount of more than One Half in Number and Value of the Debts which shall have been so established shall signify their Consent in Writing thereto, it shall be lawful for such Court to inquire into the Conduct of the said Insolvent, and if it shall appear to such Court that the said Insolvent has acted fairly and honestly towards his or her Creditors, such Court shall be fully authorized and empowered thereupon to order that the said Insolvent shall be for ever discharged from all Liability whatsoever for or in respect of such Debts so established as aforesaid, and such Court shall, in the Order to be drawn up, specify and set forth the Names of such Creditors; and after any such Order shall have been so made no further Proceedings shall be had in the Matter of the Petition before the Court, unless upon Appeal made to the Supreme Court of Judicature of the Presidency where such Court for the Relief of Insolvent Debtors shall be holden as thereby authorised; and it was by the said recited Act also provided, that no such Order as last aforesaid shall prevent any Creditor who shall not have been resident within the Limits of the Charter of the said United Company at any Time between the filing of such Petition and the making of such Order as last mentioned, and who shall not have taken Part in any of the Proceedings under the said Petition, from bringing any Suit or Action in the *East Indies* for the Purpose of obtaining Execution against the Goods, Estate, or Effects of such Insolvent for any unsatisfied Claim of such Creditor, nor from bringing any Suit or Action for such Claim in any Court of the United Kingdom of *Great Britain* and *Ireland*, or elsewhere without the Limits of the said United Company's Charter, against such Insolvent, in the same Manner and with the like Consequences and Effects as if such Order as last mentioned had not been made: And whereas it is expedient to extend and add to the Provisions of the said Acts, so as to give to Insolvent Debtors, being Traders, who shall have acted fairly and honestly towards their Creditors, an additional and more complete Discharge, and also to render more effectual the Means of obtaining such Discharge, and at the same Time to preserve to such Insolvent Debtors such Relief as is already afforded by the said recited Acts And whereas under the Provisions of the Act passed in the First and Second Years of His present Majesty King *William* the Fourth, intituled *An Act to establish a Court in Bankruptcy*, a Fiat is issued in Bankruptcy in lieu of a Commission of Bankrupt in every Case where the Lord Chancellor, by virtue of any former Act had heretofore Power to issue a Commission of Bankrupt: Be it therefore enacted by the King's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That any Person who now is or who shall hereafter become an Insolvent Debtor within the Intent and Meaning of the said Act of the Ninth Year of the Reign of His Majesty King *George* the Fourth, either upon Petition filed, or by Adjudication on an Act of Insolvency as therein provided, and who at the Time of such Petition being

Creditors who shall not dissent within 14 Months to be deemed to assent.

Court may then order Discharge, unless 1-6th dissent or a Fiat in Bankruptcy issue under the General Bankrupt Acts.

But no Fiat to issue against a Trader who is already before the Insolvent Court after the Eight Months from the Petition for Discharge.

VI. And be it further enacted, That after the Expiration of such Eight Calendar Months as aforesaid no Fiat shall issue against any such Insolvent, upon any petitioning Creditor's Debt due before the filing of such Petition for Relief, or such Adjudication of Insolvency (as the Case may be); and in case any Fiat shall issue against such Insolvent Trader as aforesaid upon a petitioning Creditor's Debt incurred subsequently to such filing of the Petition for Relief or to such Adjudication of Insolvency as aforesaid, such Fiat shall not in any Manner

REFERENCES having been made to the Marine Board, with a view to ascertain the position in which Pilot Vessels may be expected to be found at the different Seasons of the Year, the following is published for general information :

During the S. W. Monsoon, from the 15th of March till the 15th of September, the Pilot Vessels Cruize during the day off Point Palmyras, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Light on the Point, bearing West to W. by S. if, however, about the beginning of September, the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels haul off to the Eastward, and may be found in a line between the Light on the Point and the Floating Light Vessel.

From the 15th September to the 15th March, the Pilot Vessel's Cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the Night East and West of each other, in Latitude 21° to 21° 10' North.

MARINE REGULATIONS.

Under the Orders of Government, the following "proposed Amendments and Modifications of certain Pilot and Port Regulations" are published for general information, and will be continued from this date for four consecutive regular Gazettes prior to adoption.

Amendment in Rule 16 Page 24 of Rules and Regulations for the better order and government of the Bengal Pilot Service, as noted in the Sentences in Italics.

"It is however to be distinctly understood that the Vessel (Pilot) nearest to the strange Sail is instantly to examine her night or day, *and put a Pilot on board of her* without waiting for any order from the Senior Pilot, or *without referring her to any other Vessel whatever, especially in the night, subject however to the *discretion vested in the Senior Pilot present,* to whom he is to communicate any information he may obtain; during the night however, should any suspicion arise, as to the stranger being an Enemy, the signal is to be made and every precaution taken to secure the Pilot Vessel.

* NOTE.—This discretion is as follows, and forms part of the Rule in question.

It is the duty of every Pilot to give Pilotage assistance to the utmost extent of his power, with promptitude and zeal, without reference to rotation.—When, however, it can be effected without delay or injury to the service, those Pilots who have been longest out may be selected by the Senior Officer present.

Additional Paragraph to the Notification now under publication touching the position of Pilots, the whole to be subsequently published in all British as well as Indian Ports.

Vessels approaching the station on seeing the Pilot Vessels are requested in the day to make for that Vessel on board of which they will see a large Red Flag flying at the main, (the customary signal for the next turn-Pilot), whenever they can do so without great inconvenience and delay. In the night the vessel having the next turn Pilot on board is ordered to burn a Maroon every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood, however, that any Pilot Vessel, which may be first seen, is bound immediately to use every exertion to put a Pilot on board night or day, without referring to any turns, and that this latter is only allowed when no delay is occasioned thereby.

Referring to the revised rule under date 21st December 1830, which strictly forbids Pilots on pain of dismissal from moving Vessels in the river on any account at a greater than a certain fixed draft of water, it is proposed to substitute the following:

Pilots are required on their responsibility to move Vessels at the drafts of water noted in the margin* being those beyond which they have hitherto been restricted from moving Vessels, which restriction is hereby withdrawn; and Pilots are at liberty if they so think fit to move Vessels at greater drafts on requisition of the Commander.

Amendment in the practice of requiring from Vessels arriving at the Sand Heads three separate Reports—Lists of Crews, Passengers, Nautical Information, &c. &c. viz. one to the Marine Board, one to the Police Magistrates, one to the Master Attendant.

That the Report to the Police Magistrates be discontinued, that, that to the Marine Board be confined to Report of Arrival, Tonnage, and Date of receiving Pilot on board; and that to the Master Attendant to the above, and to List of Passengers and particulars of any Nautical Information obtained during the Voyage; the practice of sending Manifests from Kedgeree to the Marine Board having been discontinued.

ALTERATION OF RULES.

PRESENT RULE.	PROPOSED RULES.
All Pilots are strictly prohibited from bringing any inward bound Ship or Vessel after sunset beyond the Floating Light Vessel, or from keeping any Ship or Vessel under way in the River after that time.	Pilots in the exercise of their discretion are cautioned against bringing any inward bound Ship or Vessel beyond the Floating Light in the S. W. Monsoon, whereby anchoring in the Eastern Channel for the night may become necessary; and they are prohibited from moving vessels during the night in the spaces noted in the margin.* In all other parts of the River they are at liberty to move Vessels according to their discretion during the night, *with the concurrence of the Commander* or Commanding Officer on board.

*1st. From the upper part of Saugor Roads to Kedgeree Roads (or through Lloyd's Channel).
2d. From Kedgeree to Mud Point (or through the New Channel).
3d. From Tumlook to Fultah Point (or over the James and Mary).

To prevent accidents occurring, the following Rule is to be strictly attended to by all Vessels in the River between Saugor and Calcutta:

Vessels at anchor to shew a Light during the night at the Starboard fore yard arm.

Vessels underway *with a Steamer* to carry a Light at each fore yard arm, the Steamer shewing one where most convenient.

Without a Steamer to shew a Light at the fore top gallant mast head.

Referring to the order which directs, that no Vessel shall be moved in the River without the Commander, and Principal Officers being on board, it is proposed to introduce the following Rule:

It being necessary in the management of a Ship or Vessel in this River that the Pilots' local knowledge and directions should be aided by the utmost possible efficiency in the equipments of the Vessel, and the presence of such Commander and Officer being on some occasions essential to that efficiency, it is therefore not expedient that Pilots should be compelled to move Vessels in the absence of such Commander or Officers unless satisfied that their presence on board may individually in any case be dispensed with. It is therefore competent to a Pilot in charge of a Vessel to decline to move her in the absence of her Commander or Officers, in the event of his considering such absence to render the Vessel inefficient. He will of course exercise this discretion, as all others, subject to responsibility, and any Commander seeing reason to question the exercise of this discretion will refer to the Master Attendant, whose decision is to be final.

By Order of the Marine Board,

C. B. GREENLAW, *Secretary.*

GENERAL ORDERS BY THE HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, *25th May*, 1835.

No. 133 of 1835.—The attention of the Government having been drawn to Clauses 2 and 4, of General Orders No. 163, of 17th August 1827,—the former, restricting to two the number of Regimental Captains that may be absent at the same time from a Corps of the Line, on Staff or other public permanent employ,—and the latter, providing for the return to his Corps of any Staff Officer on promotion to the rank of Captain, who would otherwise be an absentee in that grade in excess to two, the Governor General of India in Council has had under consideration, the consequences which have resulted from their combined operation, and being of opinion, that a strict adherence to the rules laid down in those Clauses must, occasionally, be productive of injury to the public service, and unnecessary hardship to Individuals, is pleased to modify the provisions of both, to the extent herein after specified.

When two Regimental Captains are absent from a Corps of the Line, on Staff or other permanent employ, a third Captain shall not be withdrawn for such employment, but a Staff Officer promoted from the rank of Subaltern to that of Regimental Captain, shall not, in consequence of his promotion, be required to vacate an appointment which he previously held, and to which he is eligible in his advanced rank, although two Captains be already absent from his Corps in Staff or other permanent situations, unless the Commander in Chief should consider the return of such Officer to his Regiment essential to its due efficiency, and by application to the Government, obtain its sanction to that measure.

When at any time, under the operation of this Order, the number of Captains absent from a Corps of the Line shall have been encreased beyond two, no other Captain shall be taken from such Corps, for the Staff, or other detached employ, till the number of its absentees in that grade be reduced to one.

No. 138 of 1835.—The following Extracts from a Letter No. 65, from the Honorable the Court of Directors to the Governor of the Presidency of Fort William in Bengal, under date the 17th December, 1834, are published in General Orders :

" We have no hesitation in expressing our opinion that Officers have no strict right to succeed to the appointments of Brigadier or Brigadier General on the ground of mere Seniority, these being Staff appointments, involving both confidence and responsibility. But we must express our firm reliance

on the discretion and good feeling of our several Governments, that the claims of Officers to these or any other appointments arising out of length of service will never be set aside, except on public grounds.

With respect to the question raised as to the disqualification of Colonels, eligible by Seniority to Divisional Commands to hold certain Offices which they could not hold under the present Regulations as General Officers,—We are of opinion, that Colonels so situated ought to have the option of either retaining their appointments, or of succeeding to Divisional Commands as Brigadier General; but if they prefer the retention of their Offices, the Divisional Commands should not afterwards be open to them, except in special cases to be determined by Government, and reported to us for our approbation and sanction.

The same principle ought to be applied in the case of Senior Brigadiers, waving their right to succeed to Divisional Commands. If they prefer remaining as Brigadiers, the superior appointment of Brigadier General ought not, in our opinion, to be open to them, except in special cases.

All the Members of your Government concur in recommending that General Officers or Colonels at Home, appointed by us to Divisional Commands, should not displace Officers previously in possession of these appointments, but wait the occurrence of vacancies after their arrival at the respective Presidencies. In compliance with your recommendation, we direct that henceforth a General Officer or Colonel, appointed by us to a Divisional Command, shall not succeed to that Command until the occurrence of a vacancy, unless we shall have specially directed otherwise.

On the last case put by the Governor General, the possibility of there being in India Supernumerary Major Generals in the Company's Service,—We concur in opinion with him and the other Members of your Government, that no reason exists why Major Generals should, in that event, vacate any Offices or Staff appointments of which they may be in possession until it actually comes to their turn to accept or decline Divisional Commands, when the same rule will apply to them as We have now directed to be applied to Colonels holding Staff appointments."

If Exchange Rowanahs be required, they will be granted on application, with reference to the Provisions of Sections XXVI. and XXVII. of Regulation IX. of 1810. If Rowanahs shall have become time-expired between the date of Original Export and that of Re-land, then no such Certificates can be granted; and the Goods in question will, if brought for Re-exportation, be treated as Fresh Exports.

If Goods are Exported only in part, and not in full, of the quantities specified in Rowanahs, then those Rowanahs remain in the hands of the Parties concerned; and in the event, consequently, of such portion of Goods being Re-landed, no such Certificates as those above described will be issued.—[9th February 1833.]

BEBEE ROSS GHAT.—Notice is hereby given, that for some years past, Bebee Ross's Ghat has ceased to be a Tide Waiter's station, though an Officer is sent thither at a particular season of the year for purposes chiefly relating to certain Articles imported on board NATIVE VESSELS;—and that Parties who may desire to pass Goods at that Ghat will be required, if permission be granted, to pay for an Extra Tide Waiter, as a condition understood and implied in their Applications, upon the principle which is generally applicable to the passing of Goods elsewhere than at the Custom House.—[23d February 1833.]

MAFFEE ROWANAHS.—All Persons concerned are requested to take notice of the subjoined Orders, as published in the Government Gazette of April 1831, otherwise the delay and inconvenience which may be experienced will rest upon themselves.

Samples of the Goods must be produced at this Office, and the No. and Date of Sea Import Register must be stated if possible. But by Order of the Board of Customs, dated 2d April 1833, to obtain Maffee Rowanahs for Goods of such sorts as are produced in this country, (and then are liable to Transit Duty) as well as Imported by Sea, either Sea Import No. and Date must be given, or whole Despatches must be produced for inspection at the Custom House;—otherwise Transit Duty will be charged.

All applications for MAFFEE ROWANAHS, must communicate the following particulars.—1st. The general or common name of each variety, or quality of Goods.—2d. The quantity and value of each description.—3d. The sort of packages in which the Goods are contained, with the marks or directions upon them.—4th. The number of each sort of package.—[9th April 1833.]

FORT WILLIAM,

FINANCIAL DEPARTMENT, THE 27TH OCT. 1834.

NOTICE is hereby given, that from and after the 15th November next, the Board of Trade has been empowered and directed to receive Tenders for advances to be made on Goods and Merchandize consigned to England, covered by Bills of Exchange, to be drawn, payable to the Hon'ble Court of Directors of the East India Company in London, under the conditions and in the forms following:—

1st.—The parties to whom advances may be made shall agree, that the respective Consignments shall be delivered into the Warehouses of the East India Company, or into such other Warehouses as the Court of Directors may appoint, and that they shall be subject to the management of the Court of Directors, so long as the Court shall continue to manage the Goods of individuals.

2d.—Upon each Consignment, the value of which is to be ascertained by the Officers of Government, an advance of 2-3ds of such ascertained value will be made.

3d.—For repayment of the advance, Bills of Exchange are to be drawn in triplicate, at six months sight, at the rate of 2s. 2d. per Calcutta Sicca Rupee.

4th.—The parties will be required to place in the hands of the Board of Trade Bills of Lading of the Consignment and Policies of Insurance effected thereon both in triplicate. The Bills of Lading must be drawn, deliverable to the East India Company, or indorsed to order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company as the parties interested.

5th.—In case of default being made, either in acceptance, or payment of the Bills, the Court of Directors are to be authorized in the mode subsequently stated to sell the Goods for the purpose of repaying the Company the amount of the advances made thereon, together with the interest, should any have accrued; the Company, on the other hand, allowing discount when any part of the proceeds shall be realized before the Bills fall due.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods subject to all the conditions agreed upon with the Company, on payment of the Bills, and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision in case of the party, upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent, or in such case, should the Consignor prefer it, the Agency may be wholly withdrawn, and the settlement of either surplus or deficiency be made with the Consignor himself by the Government from whom he received the advance, at the rates of Exchange, at which the Company may at the time be drawing Bills upon India.

7th.—After the arrival of the Goods in England, and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with any charges which may be due to the Company thereon.

8th.—The rate of Discount to be allowed by the Company shall not be less than £3 per Cent. per Annum.

9th.—Parties receiving advances are to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Board of Trade, signifying their assent to all the foregoing Conditions, but more particularly for the purpose of expressly authorizing the Sale of the Goods, by the Company (without either notice to or concurrence of any person whomsoever) at any period, after default shall be made either in acceptance or payment of the Bills, also authorizing in such cases the repaying to the Company, the advances made either principal or interest, appointing the Agent in England, for each transaction, and signifying the wishes of the parties in the contingency referred to in the Sixth Article.

10th.—Upon the acceptance of any tender of Goods in Security for advances to be made on the above terms, the Goods will be valued by the Export Warehouse-keeper, and for the sum that may be settled as to be advanced thereon, the Board will grant an Order on the General Treasury, payable at 40 days sight.

11th.—The total sum to be advanced on Bills in the present season being limited in amount, the Board of Trade will use their discretion in giving a preference to tenders secured on Goods of a more valuable description, such as Silk and Indigo.

By Order of the Hon'ble the Vice President in Council,

H. T. PRINSEP, *Secy. to the Govt.*

GENERAL CONSULTATION, 7TH MARCH, 1835.

The Governor General of India in Council has attentively considered the two letters from the Secretary to the Committee dated the 21st and 22d January last, and the Papers referred to in them.

2d. His Lordship in Council is of opinion that the great object of the British Government ought to be the promotion of European Literature and Science among the Natives of India, and that all the Funds appropriated for the purposes of education would be best employed on English education alone.

3d. But it is not the intention of His Lordship in Council to abolish any College or School of Native learning while the Native Population shall appear to be inclined to avail themselves of the advantages which it affords, and His Lordship in Council directs that all the existing Professors and Students at all the Institutions under the Superintendence of the Committee, shall continue to receive their Stipends. But His Lordship in

Council decidedly objects to the practice which has hitherto prevailed of supporting the Students during the period of their education. He conceives that the only effect of such a system can be to give artificial encouragement to branches of learning, which in the natural course of things would be superceded by more useful Studies, and he directs that no Stipend shall be given to any Student who may hereafter enter at any of these institutions, and that when any Professor of Oriental learning shall vacate his situation, the Committee shall report to the Government the number and state of the class, in order that the Government may be able to decide upon the expediency of appointing a successor.

4th. It has come to the knowledge of the Governor General in Council, that a large sum has been expended by the Committee in the printing of Oriental Works. His Lordship in Council directs that no portion of the Funds shall hereafter be so employed.

5th. His Lordship in Council directs that all the Funds which these reforms will leave at the disposal of the Committee be henceforth employed in imparting to the Native Population a knowledge of English Literature and Science through the medium of the English Language, and His Lordship in Council requests the Committee to submit to Government, with all expedition, a plan for the accomplishment of this purpose.

NOTICE.—Several complaints having reached this Office of much injury having been done to the Letters sent in the Mails, owing to the use of a description of Wax, which when exposed to the heat, adheres to whatever is brought in contact with it, the public are recommended not to use any other Wax for the purpose of closing letters intended for despatch by Dâk than the hard Country Sealing Wax, which is entirely free from the objection above mentioned.

This notice has been called forth by several successive reports coming in of late from different parts of the Country, in which it is stated, that great difficulty has been frequently found in separating the letters, and that many are unavoidably torn open in the attempt.

It is stated that the Wax in question is used at several of the Public Offices.

FORT WILLIAM, FINANCIAL DEPARTMENT,

THE 17TH JUNE, 1835.

Notice is hereby given, that the Hon'ble the Court of Directors having, in an Advertisement dated East India House, the 17th of September, 1834, notified to Proprietors of Bengal Six per Cent. Remittable Paper, resident in Europe, who had made known, or might make known before the 1st of December following, at the Auditor's Office in the India House, their wish to transfer their Notes of that Loan into the New Five per Cent. Transfer Loan, under the conditions specified in the Court's advertisement of the 14th May, 1834, that the Property in the New Loan would be held in the Form of Stock instead of Promissory Notes; that Stock Receipts would be granted in Bengal to the respective Proprietors or their Agents, in exchange for the Promissory Notes transferred; and that the New Stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India:—in pursuance of that Notification and the Orders of the Hon'ble Court, the Sub-Treasurer at Fort William is authorized to receive any of the Six per Cent. Promissory Notes of this Government, bearing date the 30th June, 1822, that may be tendered for Transfer into the New Five per Cent. Loan, in fulfilment of the intention of the Proprietors signified at the India House under the advertisement of the 17th of September last, and to grant Stock Receipts to the respective Proprietors, or their Agents, in exchange for the Promissory Notes transferred.

2. A Bonus or Premium of 5 per Cent. will be granted on all Transfers made under this Advertisement; that is to say, for every Note surrendered for transfer, a Stock Receipt will be granted for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the Stock Receipt will bear Interest at the rate of 5 per Cent. per annum, payable, if the Proprietors are resident in India, in Cash at the Place of Registry, and, if resident in Europe, at their option, either in Cash in India, or by Bills on the Court at twelve months' date at 2*s.* 1*d.* the Sicca Rupee.

3. The Transfers under this Advertisement will take effect only at the period when the Notes to be transferred shall fall to be discharged, according to the Notices published from the Financial Department under the dates respectively of the 9th May and 13th October, 1834.

4. The Property of the New Loan here advertized is to be transferable only in Books to be kept in Bengal, at Madras, at Bombay, and in London, and not by Endorsement of Stock Receipts, on the face of which it is to be declared that they are not transferable. Proprietors of Stock Receipts will be entitled to the option of transferring from the Books of Bengal to those of either Madras, Bombay, or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the Interest payable on the Stock so transferred will be issued in England at the same periods as when the Bills would have become due, had the remittance of Interest been previously received by Bills under the option allowed in the Second Article of the present Notice.

6. It is hereby declared and stipulated, that no part of the Transfer Five per Cent. Loan opened by this Advertisement, shall be paid off before the 22d April, 1854, and whenever it shall be redeemed, a previous Notice of fifteen months shall be given by public Advertisement, which notice may be issued at any time after the 21st of January 1853. Payment shall then be made at the option of the Creditors, either in Cash in India, or by Bills upon the Court at twelve months' date, and at 2*s.* 1*d.* the Sicca Rupee; with power to the Court to postpone payment of those Bills for one, two, or three years, upon allowing Interest at Five per Cent. per annum for the period of the postponement. The Notice of Payment duly advertized as above, and published in the *Government Gazette* of Calcutta, shall be considered as equivalent to a Tender of Payment on the date advertized for discharge, and all Interest will cease from that day.

7. Proprietors who shall transfer to the Books of Madras and Bombay, will be entitled to receive Interest at the exchange of One Hundred and Six and a Half Madras or Bombay Rupees, for One Hundred Calcutta Sicca Rupees, from the General Treasuries of those Presidencies respectively.

8. The Accountant General of the Supreme Government may, on the application of Proprietors of Stock registered in the Books of Bengal, and for their convenience, make the Interest of such Stock payable at any other Treasuries of Issue under the Bengal or Agra Presidencies; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

9. Stock of the Five per Cent. Transfer Loan opened by this Advertisement, may be consolidated and divided at the pleasure of the Proprietors in the Books in which it is registered.

10. Proprietors of Six per Cent. Remittable Paper who may transfer into the Five per Cent. Loan now advertized, shall not be subjected on this operation to the Fees prescribed in the Regulations for the Government Agency.

11. Proprietors of the Five per Cent. Transfer Notes issued under the Advertisement of this Department, bearing date the 13th of October last, or their authorized Agents, will be permitted to transfer their Property into the Book Debt Loan. For this purpose a period of Four Months will be allowed to the Holders of Five per Cent. Promissory Notes or their Agents, and it is hereby Notified, that during the same period fresh transfers will be allowed to the Book Debt by Holders of Six per Cent. Remittable Paper.

12. Forms of Stock Receipts will be published in a future Notice.

GENERAL CONSULTATION, 7TH MARCH, 1835.

The Governor General of India in Council has attentively considered the two letters from the Secretary to the Committee dated the 21st and 22d January last, and the Papers referred to in them.

2d. His Lordship in Council is of opinion that the great object of the British Government ought to be the promotion of European Literature and Science among the Natives of India, and that all the Funds appropriated for the purposes of education would be best employed on English education alone.

3d. But it is not the intention of His Lordship in Council to abolish any College or School of Native learning while the Native Population shall appear to be inclined to avail themselves of the advantages which it affords, and His Lordship in Council directs that all the existing Professors and Students at all the Institutions under the Superintendence of the Committee, shall continue to receive their Stipends. But His Lordship in Council decidedly objects to the practice which has hitherto prevailed of supporting the Students during the period of their education. He conceives that the only effect of such a system can be to give artificial encouragement to branches of learning, which in the natural course of things would be superceded by more useful Studies, and he directs that no Stipend shall be given to any Student who may hereafter enter at any of these institutions, and that when any Professor of Oriental learning shall vacate his situation, the Committee shall report to the Government the number and state of the class, in order that the Government may be able to decide upon the expediency of appointing a successor.

4th. It has come to the knowledge of the Governor General in Council, that a large sum has been expended by the Committee in the printing of Oriental Works His Lordship in Council directs that no portion of the Funds shall hereafter be so employed.

5th. His Lordship in Council directs that all the Funds which these reforms will leave at the disposal of the Committee be henceforth employed in imparting to the Native Population a knowledge of English Literature and Science through the medium of the English Language, and His Lordship in Council requests the Committee to submit to Government, with all expedition, a plan for the accomplishment of this purpose.

NOTICE.—Several complaints having reached this Office of much injury having been done to the Letters sent in the Mails, owing to the use of a description of Wax, which when exposed to the heat, adheres to whatever is brought in contact with it, the public are recommended not to use any other Wax for the purpose of closing letters intended for despatch by Dâk than the hard Country Sealing Wax, which is entirely free from the objection above mentioned.

This notice has been called forth by several successive reports coming in of late from different parts of the Country, in which it is stated, that great difficulty has been frequently found in separating the letters, and that many are unavoidably torn open in the attempt.

FORT WILLIAM, FINANCIAL DEPARTMENT,
THE 17TH JUNE, 1835.

Notice is hereby given, that the Hon'ble the Court of Directors having, in an Advertisement dated East India House, the 17th of September, 1834, notified to Proprietors of Bengal Six per Cent. Remittable Paper, resident in Europe, who had made known, or might make known before the 1st of December following, at the Auditor's Office in the India House, their wish to transfer their Notes of that Loan into the New Five per Cent. Transfer Loan, under the conditions specified in the Court's advertisement of the 14th May, 1834, that the Property in the New Loan would be held in the Form of Stock instead of Promissory Notes; that Stock Receipts would be granted in Bengal to the respective Proprietors or their Agents, in exchange for the Promissory Notes transferred; and that the New Stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India:—in pursuance of that Notification and the Orders of the Hon'ble Court, the Sub-Treasurer at Fort William, is authorized to receive any of the Six per Cent. Promissory Notes of this Government, bearing date the 30th June, 1822, that may be tendered for Transfer into the New Five per Cent. Loan, in fulfilment of the intention of the Proprietors signified at the India House under the advertisement of the 17th of September last, and to grant Stock Receipts to the respective Proprietors, or their Agents, in exchange for the Promissory Notes transferred.

2. A Bonus or Premium of 5 per Cent. will be granted on all Transfers made under this Advertisement; that is to say, for every Note surrendered for transfer, a Stock Receipt will be granted for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the Stock Receipt will bear Interest at the rate of 5 per Cent. per annum, payable, if the Proprietors are resident in India, in Cash at the Place of Registry, and, if resident in Europe, at their option, either in Cash in India, or by Bills on the Court at twelve months' date at 2*s.* 1*d.* the Sicca Rupee.

3. The Transfers under this Advertisement will take effect only at the period when the Notes to be transferred shall fall to be discharged, according to the Notices published from the Financial Department under the dates respectively of the 9th May and 13th October, 1834.

4. The Property of the New Loan here advertised is to be transferable only in Books to be kept in Bengal, at Madras, at Bombay, and in London, and not by Endorsement of Stock Receipts, on the face of which it is to be declared that they are not transferable. Proprietors of Stock Receipts will be entitled to the option of transferring from the Books of Bengal to those of either Madras, Bombay, or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the Interest payable on the Stock so tranferred will be issued in England at the same periods as when the Bills would have become due, had the remittance of Interest been previously received by Bills under the option allowed in the Second Article of the present Notice.

6. It is hereby declared and stipulated, that no part of the Transfer Five per Cent. WEDNESDAY, JUNE 24, 1835.

FORT WILLIAM, FINANCIAL DEPARTMENT,

THE 17TH JUNE, 1835.

Notice is hereby given, that the Hon'ble the Court of Directors having, in an Advertisement dated East India House, the 17th of September, 1834, notified to Proprietors of Bengal Six per Cent. Remittable Paper, resident in Europe, who had made known, or might make known before the 1st of December following, at the Auditor's Office in the India House, their wish to transfer their Notes of that Loan into the New Five per Cent. Transfer Loan, under the conditions specified in the Court's advertisement of the 14th May, 1834, that the Property in the New Loan would be held in the Form of Stock instead of Promissory Notes; that Stock Receipts would be granted in Bengal to the respective Proprietors or their Agents, in exchange for the Promissory Notes transferred; and that the New Stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India:—in pursuance of that Notification and the Orders of the Hon'ble Court, the Sub-Treasurer at Fort William is authorized to receive any of the Six per Cent. Mr. T. E. Colebrooke, Assistant to the Magistrate and Collector of Allahabad, has obtained leave of absence from his Station for two months, to proceed to Calcutta, on his private affairs.

GENERAL CONSULTATION, 7TH MARCH, 1835.

The Governor General of India in Council has attentively considered the two letters from the Secretary to the Committee dated the 21st and 22d January last, and the Papers referred to in them.

2d. His Lordship in Council is of opinion that the great object of the British Government ought to be the promotion of European Literature and Science among the Natives of India, and that all the Funds appropriated for the purposes of education would be best employed on English education alone.

3d. But it is not the intention of His Lordship in Council to abolish any College or School of Native learning while the Native Population shall appear to be inclined to avail themselves of the advantages which it affords, and His Lordship in Council directs that all the existing Professors and Students at all the Institutions under the Superintendence of the Committee, shall continue to receive their Stipends. But His Lordship in Council decidedly objects to the practice which has hitherto prevailed of supporting the Students during the period of their education. He conceives that the only effect of such a system can be to give artificial encouragement to branches of learning, which in the natural course of things would be superceded by more useful Studies, and he directs that no Stipend shall be given to any Student who may hereafter enter at any of these institutions, and that when any Professor of Oriental learning shall vacate his situation, the Committee shall report to the Government the number and state of the class, in order that the Government may be able to decide upon the expediency of appointing a successor.

4th. It has come to the knowledge of the Governor General in Council, that a large sum has been expended by the Committee in the printing of Oriental Works, His Lordship in Council directs that no portion of the Funds shall hereafter be so employed.

5th. His Lordship in Council directs that all the Funds which these reforms will leave at the disposal of the Committee be henceforth employed in imparting to the Native Population a knowledge of English Literature and Science through the medium of the English Language, and His Lordship in Council requests the Committee to submit to Government, with all expedition, a plan for the accomplishment of this purpose.

NOTICE.—Several complaints having reached this Office of much injury having been done to the Letters sent in the Mails, owing to the use of a description of Wax, which when exposed to the heat, adheres to whatever is brought in contact with it, the public are recommended not to use any other Wax for the purpose of closing letters intended for despatch by Dâk than the hard Country Sealing Wax, which is entirely free from the objection above mentioned.

This notice has been called forth by several successive reports coming in of late from different parts of the Country, in which it is stated, that great difficulty has been frequently found in separating the letters, and that many are unavoidably torn open in the attempt.

It is stated that the Wax in question is used at several of the Public Offices.

FORT WILLIAM, FINANCIAL DEPARTMENT,

THE 17TH JUNE, 1835.

Notice is hereby given, that the Hon'ble the Court of Directors having, in an Advertisement dated East India House, the 17th of September, 1834, notified to Proprietors of Bengal Six per Cent. Remittable Paper, resident in Europe, who had made known, or might make known before the 1st of December following, at the Auditor's Office in the India House, their wish to transfer their Notes of that Loan into the New Five per Cent. Transfer Loan, under the conditions specified in the Court's advertisement of the 14th May, 1834, that the Property in the New Loan would be held in the Form of Stock instead of Promissory Notes; that Stock Receipts would be granted in Bengal to the respective Proprietors or their Agents, in exchange for the Promissory Notes transferred; and that the New Stock would be transferable at the place of registry, in books to be kept for that purpose in London and in India:—in pursuance of that Notification and the Orders of the Hon'ble Court, the Sub-Treasurer at Fort William is authorized to receive any of the Six per Cent. Promissory Notes of this Government, bearing date the 30th June, 1822, that may be tendered for Transfer into the New Five per Cent. Loan, in fulfilment of the intention of the Proprietors signified at the India House under the advertisement of the 17th of September last, and to grant Stock Receipts to the respective Proprietors, or their Agents, in exchange for the Promissory Notes transferred.

2. A Bonus or Premium of 5 per Cent. will be granted on all Transfers made under this Advertisement; that is to say, for every Note surrendered for transfer, a Stock Receipt will be granted for a principal sum exceeding the principal sum of the Note surrendered, in the proportion of 105 for every 100 Sicca Rupees; and the Stock Receipt will bear Interest at the rate of 5 per Cent. per annum, payable, if the Proprietors are resident in India, in Cash at the Place of Registry, and, if resident in Europe, at their option, either in Cash in India, or by Bills on the Court at twelve months' date at 2*s.* 1*d.* the Sicca Rupee.

3. The Transfers under this Advertisement will take effect only at the period when the Notes to be transferred shall fall to be discharged, according to the Notices published from the Financial Department under the dates respectively of the 9th May and 18th October, 1834.

4. The Property of the New Loan here advertized is to be transferable only in Books to be kept in Bengal, at Madras, at Bombay, and in London, and not by Endorsement of Stock Receipts, on the face of which it is to be declared that they are not transferable. Proprietors of Stock Receipts will be entitled to the option of transferring from the Books of Bengal to those of either Madras, Bombay, or London. Having availed themselves of that option, the property cannot again be registered in Bengal, or at either of the other places, unless upon transfer effected at the place at which they may have chosen to register it.

5. After transfer has been made to London, the Interest payable on the Stock so transferred will be issued in England at the same periods as when the Bills would have become due, had the remittance of Interest been previously received by Bills under the option allowed in the Second Article of the present Notice.

6. It is hereby declared and stipulated, that no part of the Transfer Five per Cent. Loan opened by this Advertisement, shall be paid off before the 22d April, 1854, and whenever it shall be redeemed, a previous Notice of fifteen months shall be given by public Advertisement, which notice may be issued at any time after the 21st of January 1853. Payment shall then be made at the option of the Creditors, either in Cash in India, or by Bills upon the Court at twelve months' date, and at 2*s.* 1*d.* the Sicca Rupee; *with power to the Court to* postpone payment of those Bills for one, two, or three years, upon allowing Interest at Five per Cent. per annum for the period of the postponement. The Notice of Payment duly advertized as above, and published in the *Government Gazette* of Calcutta, shall be considered as equivalent to a Tender of Payment on the date advertized for discharge, and all Interest will cease from that day.

7. Proprietors who shall transfer to the Books of Madras and Bombay, will be entitled to receive Interest at the exchange of One Hundred and Six and a Half Madras or Bombay Rupees, for One Hundred Calcutta Sicca Rupees, from the General Treasuries of those Presidencies respectively.

8. The Accountant General of the Supreme Government may, on the application of Proprietors of Stock registered in the Books of Bengal, and for their convenience, make the Interest of such Stock payable at any other Treasuries of Issue under the Bengal or Agra Presidencies; but Proprietors shall not be entitled to claim this accommodation if the Accountant General should think proper to refuse it.

9. Stock of the Five per Cent. Transfer Loan opened by this Advertisement, may be consolidated and divided at the pleasure of the Proprietors in the Books in which it is registered.

SAILING DIRECTIONS AND REMARKS ON THE PORT OF COLOMBO,

by James Steuart, Esq., Master Attendant.

Colombo, the seat of the British Government of the Island of Ceylon, is situated in lat. 6° 57′ N. and long. 79° 52′ E.; it is one of the most healthy places in India, abounding with good water, and other refreshments; *its exports to Europe are cardamoms,* cinnamon, coffee, cocoa-nut oil, coir cordage, ebony, pepper, plumbago, and satin-wood: several of these articles are increasing yearly.

The land about Colombo is low near the sea, with some hills to the eastward, at a distance in the country. The high mountain, having on it a sharp cone, called Adam's Peak, bears from Colombo E. 7° S., distance twelve leagues and a half. Its height above the level of the sea is estimated at about 7,000 feet, according to a rough trigonometrical measurement by Colonel Willerman. When the atmosphere is clear, it may be seen thirty leagues. During the prevalence of the north-east monsoon, Adam's Peak is generally visible in the morning, and frequently the whole of the day; but it is rarely seen in the south-west monsoon, dense vapours generally prevailing over the island at this season.

Ships approaching Colombo in the night have a brilliant light to direct them, which is exhibited every night from a lighthouse in the fort. The height of the light above the level of the sea is ninety-seven feet, and may be seen in clear weather as far as the light appears above the horizon.

A steep bank of coral, about half a mile broad, with fifteen fathoms water on it, lies seven miles west from Colombo, extending northward towards Negombo (where its surface is sand) and a few miles to the southward of Colombo; outside the bank, the water deepens at once to twenty-three fathoms; and in two miles to twenty-eight fathoms, greenish sand, which is not far from the edge of soundings. Within the bank there are twenty-five fathoms, gradually shoaling towards the shore.

A bed of sunken rocks, called the Drunken Sailor, lies S. W. by W. ½ W. from Colombo lighthouse, distance one thousand yards: the length of the ledge may be estimated at one hundred yards, and the breadth twenty yards. On its north end a small spot, about the size of the hull of a twenty ton boat, is said to have only three feet water on it at low-water; but, during several recent visits, when some of the coral from its surface was brought up, there did not appear to be less than seven feet six inches water on the shallowest part. On the other part of the ledge there is four, five, and six fathoms. The sea breaks on the shallow part of these rocks almost constantly during the south-west monsoon: but this is very seldom the case during the north-east monsoon.

There appears to be no doubt that the Drunken Sailor is granite or stone of the same description as the rocks on the shore, with its surface incrustated with coral. If there ever was so little water as three feet on it, it may be supposed to be sinking.

The Drunken Sailor should not be approached under nine fathoms during the night, as there are eight fathoms very near to it, and in its stream to the southward.

In the north-east monsoon of 1826, the Hon. Company's brig of war Thetis, Captain Terrol, touched on the Drunken Sailor, having stood too close to the land in beating up to the anchorage from the southward; but, with common attention to the depth of water approaching the rock, it may be easily avoided.

The passage within the Drunken Sailor is clear, and some ships have sailed through; but no advantage can be gained by approaching the shore so very near at this point.

The Drunken Sailor lies so near the land, and so far to the southward of the anchorage in Colombo road, as scarcely to form any impediment to ships bound to or from Colombo.

The currents off Colombo are subject to considerable variation; but they are never so strong as to cause inconvenience to ships which may have to communicate with the shore in either monsoon, without coming to anchor.

Colombo road affords good anchorage, free from foul ground, and is frequented at all seasons of the year.

The best anchorage during the prevalence of south-west winds from April to October, is in from seven to eight fathoms, with the lighthouse bearing S. by E. ½ E.; Dutch Church E. by S. In the north-east monsoon, from November to April, it is more convenient to anchor in six fathoms and a half, with the lighthouse bearing S. or S. ½ E., and the Dutch Church E.S.E.

Ships requiring pilots to conduct them to the anchorage should make the usual signal; the charge for pilotage is fifteen shillings.

The bar is a bank of sand, with seven feet water on its shallowest part, the northern extremity being about four hundred yards north-west of the Custom-House Point; small vessels that draw less than ten feet water ride within the bar, protected from the south-west wind and sea.

When the sea is high, it breaks with great force on the bar, and renders the passage from the shipping in the outer road dangerous for small boats; the native boats generally pass out and in to the southward of the bar, close to the breakers on the rocky point of the Custom-House; but, as the passage is narrow, it should not be attempted by strangers when the sea breaks upon the bar; it is better to proceed round to the northward of the bar, which may be easily distinguished by the breakers.

What is strictly understood by a gale of wind is a rare occurrence at Colombo; this may be owing to the vicinity of the equator; the strong gales which blow on the Malabar coast are felt in small squalls, and a high sea, but there is scarcely wind to endanger vessels properly found in ground tackling; it is true, ships have sometimes required the aid of a second anchor, but in most cases the cause has been attributable to some defect in the first anchor or cable, a light anchor, an anchor breaking, a short chain, or the chain coming unshackled. An instance occurred in Colombo road, of two ships receiving cargo during the south-west monsoon, whose chain-cables came unshackled twice: twice did it occur to each ship.

On the 2d of June, 1831, the Hector drove in a squall; having about eighty fathoms of chain ahead, they let go the second anchor, but finding the ship did not immediately bring up, they made sail and slipped their cables. This ship stood out of the roads under double-reefed fore and mizen topsails, and from its size, a single-reefed maintopsail, foresail, fore and main trysails, and driver, and returned to anchorage on the 4th. Instances of ships putting to sea are rare; and when it is considered, that, although the sea is high, the wind is not violent; and, as at these times, the wind having fallen in the interior, strong freshes escape to the south-west, from the Kalany Ganga, it is by no means surprising that Colombo road proves a safe anchorage.

Remarks on the Passage from Port Jackson, through the Barrier Reef and Torres' Strait. *By Mr. R. Towns. With an Extract of a Letter from Captain Blackwood, R.N., on the advantages of the Inner Route. From Captain P. P. King, R.N., F.R.S., &c.*

If a ship sail from Port Jackson before the month of April, or with a northerly wind, an offing should be gained without delay, to avoid the southerly current which invariably prevails from September to March, particularly during fine weather, and when the wind is from the northward. Upon reaching the meridian of 157° or 158°, the course may be directed for the east end of Wreck Reef, with a free wind, as the trade is generally well to the eastward in the early part of the season, and is usually attended by squally weather and thick showers; but if the wind be southerly, or after the middle of April, an offing is not necessary, and the Cumberland's track, or a little more to the eastward of it, will be found sufficient; this, however, ought to be pursued with great caution, as a reef has been reported to the southward of Cato's Bank, by Captain Scarvell, in the Philip Dundas, in 1826, (situation not remembered.)

As you approach Wreck Reef, the greatest caution is requisite to guard against the current; no ship should pass it without sighting Bird Island on its eastern end, because the situation of this reef being correctly ascertained, and corresponding with other dangers as laid down in the best charts, you will obtain thereby a good departure, and, if required, be enabled to correct your chronometers. After leaving Bird Island, the Cumberland's track may be pursued as far as latitude 15° south, with safety, passing between Kenn's and Frederick Reef, and to the eastward of Alert Reef and Diana Bank. Kenn Reef was not generally known to exist, until it be proved fatal in the wreck of the Bonavista, on the 18th of March, 1828. In this vessel, great confidence having been placed in three good chronometers, the mean of which, at 6 P.M., gave the situation of the vessel fifteen miles east of Bird Island, which they passed without sighting it, she was steered N.N.W. for four hours, at five knots per hour, with moderate breezes from the eastward; the weather afterwards became squally, and the wind veered from E.N.E. to E.S.E., with heavy rain, and a close sea. Having of necessity run to leeward during the squalls, which now (midnight) had become violent, the ship was hauled up to N. by W. to guard against Frederick Reef, naturally expecting the current to be setting to the westward. About thirty minutes after midnight broken water was seen on the lee-bow; the helm was immediately put down, but, finding the ship could not clear the reef on that tack, and no hopes of the vessel's staying, the trysail being down, and a possibility of the vessel's wearing, the helm was put up, but before she could veer, had entered the breakers. Although a man was stationed at the mast-head, the danger was first seen from the deck, and in less than three minutes the unfortunate ship was a total wreck. The current was found to set over the reef to the northward, at the rate of four knots, and must have drifted the vessel to the N.E. at least twenty miles, during six hours and a half. The advice given by Captain Flinders cannot therefore be too strictly attended to, i. e., *easy sail during the night, and a very strict look-out, as it is impossible to have any idea of the rate and direction of the current in those seas*, particularly in stormy weather, which generally occurs with the change or full of the moon.

On pursuing the Cumberland's track until you reach latitude 15° south, and longitude 151° east, you will then have passed Alert Reef, and Diana Bank, the only dangers known in this route. On the former, the brig Venus was wrecked in 1826: on this occasion, the weather being moderate, the Venus was drifted so close to the reef shortly after midnight, that she grounded before they could make sail, and almost directly went to pieces. They found the current setting over the reef at the rate of four or five knots. The other two vessels, being a little to windward, escaped by making sail. Having gained the latitude 15° south, as before recommended, a more westerly course should be steered gradually towards Sir Charles Hardy Island, so as to gain the latitude 12° or 12° 10′ S., in the longitude of 145° E., then steer west for the Barrier Reef, where several safe passages will be found between 12° 10′ and 11° 56′. As you approach them, a detached reef will be made, or rather should be made, in latitude 12°, longitude 143° 55′, where an open space will be seen on either side: this reef appears about three or four miles in circumference, with smooth water in the centre, and several small stones or rocks on the north-west side; off its eastern end, breakers will be seen from aloft, bearing N.E. by N., about ten miles distant, trending to the westward. At the same time, the reefs to the southward will bear about S. or S. by W., distant eight or ten miles, trending to the westward and northward. Passing to the northward of this detached reef, at one and a half or two miles distant, steer west for the Grand Barrier, which is about eight miles therefrom, and trends north and south, or rather forms a very deep sinuosity. When within a mile, or a mile and a half from it, edge off to the northward, keeping a good look-out from aloft for detached rocks. If the weather be clear, one or two sandhills will be seen inside the main reef; the southernmost of the two is a guide for the passage. In running to the northward, along the reef, several openings or passages will be seen through, in a S.W. and W.S.W. direction, and they are probably safe; but the one about to be described, which I have passed twice, will be distinguished by the following remarks:—

After having passed two or three small openings, and approached the reef where it begins to trend to the N.E., with high breakers, the two last or most northern passages will be seen. The more northern one of the two opens at N.W. by W., or W.N.W., and appears very clear, but about two miles to the southward of it is the passage mentioned. Its latitude is 11° 56′, or 11° 57′, and extends through the reef W. S. W.: as you open it, haul up for mid-channel,

and, if the weather be clear, the more southern sand-hill will be seen bearing about W. by S., about a sail's length on with the S. W. point of the reef which forms the northern side of the channel. When in the fair way, Sir Charles Hardy Island will be seen W. ½ N. Should the weather be hazy, so that you cannot see the sandhills, it will be satisfactory to notice the following marks:—As you enter the channel, you will see a small sand patch on the N. E. point of the reef, which forms the south side, and two large black stones, resembling turtles at a distance, on the west side, and a dry sandbank on that of the north-west, which forms the north side: these are sufficient to distinguish this passage from any other one; yet I am of opinion that the one to the northward, running W. N. W., is equally clear, and more direct, having observed it from both sides of the reef.

Having entered the channel as above, keep a little to the northward of mid-channel, to avoid discoloured water which will be seen from aloft; although I have passed over it in twelve fathoms, it will be advisable to give it a berth, as there is plenty of room to the northward. When through, you have a fine clear, smooth sea, as far as the eye can reach; steer round the southwest point of the northern reef, and at half a mile off, and thence steer W. by N. northerly, until you make the second sandhill; pass this on the north side, at three quarters of a mile distant; you will then see a third sandhill, smaller and lower than the two former, bearing about W. N. W.; pass this also to the northward, and at the same distance. All these sandhills have reefs projecting to the south-east and north-west. Before we proceed further, it is necessary to remark on the time of passing the Barrier Reef. If in the morning, or before noon, with a good breeze, you will reach Bird Island before night; but if the entrance be not passed until afternoon, it will be advisable to anchor under the second or third sandbank, in nine or ten fathoms; or else, if there be time, you may anchor under Sir Charles Hardy Island: this last, however, should only be adopted in cases of emergency, because, in getting under weigh, to proceed you will have to haul out to the N. E. by E. to clear Cockburn Reef, and gain the fair way; and if the wind be far easterly, you will find some difficulty in doing so; although, while at anchor in the Asia, off Sir Charles Hardy Island, we found regular tides, the flood setting to the westward, and ebb to the E. N. E. By anchoring under the second sandhill, you will be in the fair way, and a W. by N. or more northerly course, will clear the east end of Cockburn Reef, which bears from Sir Charles Hardy Island N. E. by N., and from Cockburn Island E. Give this reef a berth from half a mile to a mile, passing to the northward of it, and then steer west, until you approach the extensive reef to the north-west of Cockburn Island, keeping a good lookout from aloft at all times, in case of detached patches; steer along this reef at a prudent distance, edging to the northward, with the lead going, until you make a small sandbank to the W. N. W. When this bank bears W. by S., if the weather be clear, Bird Island will be visible open to the northward of it; then haul up for Bird Island, giving the bank a wide berth; pass between it and another sandbank and reef, which bears from the former about N. W. six miles, over a clear channel of sixteen or nineteen fathoms.

If entering the Barrier before noon, and pushing for the anchorage at Bird Island, great caution is requisite, should the sun be far westward; but, should necessity require, you have anchorage the whole passage through from the Barrier towards Booby Island; if it be very late in entering, and not daylight to reach the sandhills, you may come-to, immediately inside the reef; but if at anchor under the sandhills, weigh at daylight, and, with the ordinary breeze you will reach good anchorage at Mount Adolphus, Turtle Island, or Cairncross Islands. The passage immediately to the northward of Cockburn Island, discovered in the Asia, Captain T. F. Stead, is decidedly the best yet known, and, with common care, may be termed perfectly safe, and obviates the objection hitherto made against that by Sir Charles Hardy Island, namely, the rocky grounds and extensive reefs which lie to the westward of it, which we sounded, in order to buoy a channel for the Asia, and found unsafe; but, notwithstanding, many spots may be found where vessels may cross it in three, four, or five fathoms, by conning the course from aloft, whence the rocks are easily distinguished; the risk, however, is great, particularly with a large ship. I passed over the reefs in the Bonavista, in 1827, and had three fathoms and a half in the shoalest part; the western side of it is very steep, with from five and fifteen to twenty fathoms. A deep channel runs between this and Cockburn main Reef. The ship Lalla Rookh passed to the southward of this danger; but this cannot be done with the wind far from the south. Should a vessel be obliged to attempt this passage from necessity, or otherwise, the following remarks may be serviceable:—Steer from Sir Charles Hardy Island W. by S. and W. S. W., along a very extensive bank, with a lead going; you will carry regular soundings from eight to six fathoms. As you approach the rocky ground, which lies about six miles therefrom, the vessel should be under easy sail, to enable you to see the rocks in time to avoid them, especially if the sun be a-head. When a dry sandbank, which will be seen to the southward, bore south, when in the Bonavista, I found that she had crossed the danger, and was in deep water; she was then steered along at two cables' length from the south side of Cockburn's Reef, carrying twelve fathoms. The reef is dry in many parts: a middle ground lies between it and the Islands off Cape Grenville. About two miles to the westward of the dry sandbank, on which I had a cast of five fathoms, I edged to the northward, and deepened into twelve, and then followed the course of this reef, until nearly abreast of Sunday Island, when Bird Island was seen bearing N. N. W., under the N. W. side of which I anchored in ten fathoms, sand and coral.

After passing these dangers, King's charts will be found very correct. They will direct you through a fine open channel, from six to ten miles wide, between the main land of Australia and the reefs and islands fronting the coast which form the channel and shelter from the sea.

Extract from a letter from Captain Blackwood, of H. M. Ship Imogene, dated "At sea, 28th September, 1833," addressed to Capt. P. P. King, R. N.:

"In the foregoing sheets I have made some observations respecting the inner route through Torres' Strait, which I hope may prove useful.

"I consider, with you, the inner passage far preferable in all respects, to that of the outer one by the Barrier Reef. In adopting the former you always insure yourself safe anchorage, and, I should say, fine weather; whereas, in choosing the latter, until after entering the Barrier Reef, you have no anchorage, with a very great uncertainty as to weather. The Imogene's striking is no proof that the inner route is not to be preferred, as she struck on two sunken, and apparently isolated rocks, and, by the bearings of the Low Islands, *to the eastward of the eastwardmost of your tracks.* Such an accident might happen in the Irish Channel, or the Bay of Bengal, and it would be difficult to say, if, on such an extended line of coast as that of the north-east coast of New Holland, you, or any one, could answer for every single rock below water being discovered and laid down, however careful and exact the survey may be.—With respect to the passage by the Barrier Reef, we saw, and boarded one fine brig, wrecked and deserted; and the Strathfieldsay (which ship sailed from Sydney the same day as the Imogene, and, in company with the Asia, went the passage by the Barrier Reef) saw a ship, a wreck, a short time after entering the reef, which had but lately been deserted by her crew. This is but a sorry proof of the safety of the passage by the Barrier Reef, and I believe seldom a year passes without accidents of this sort happening to ships pursuing this

route. I doubt very much if the outer passage is a saving of time to ships that adopt it, in proof of which I send you some papers picked up on Booby Island. We lost, *at the very least*, one entire day at the wreck, and anchoring early under Bird Island, to examine a bottle that we saw fastened to a flag-staff on the point. * * *

"I have, I think, spoken all I can now think of respecting the inner route to Torres' Strait, which I trust will for the future be the one adopted by all ships coming to these seas, as I am sure it is the most safe, and oftentimes the shortest. It now only remains for me to say, that your charts, for their correctness, were the admiration of all on board, and that nothing could be more correct than the book of Directions you furnished me with at Sydney. * * * * * Nothing could be more perfect than the weather we experienced the whole of the time we were in the strait."

The above letter was accompanied by the Imogene's log, during the time she was on the passage, and by the following documents, which were found at Booby Island, at the west end of the strait :—

(No. 1.)

"*July* 22, 1833.

"The brig Helen, Taylor, and George Hibbert, Captain Lusk, from Sydney, the 23d of June, having had a long passage, in consequence of two heavy gales of wind, which detained us seven days, and four days of south-west wind at Wednesday Island, came by the inner passage: met with no accident. The Helen, bound to Swan River, with live stock, and George Hibbert, for Sincapore, in ballast. All well.

(Signed,) "— TAYLOR."

(No. 2.)

"Ship George Hibbert, Captain Lusk, passed Booby Island on July 22d, 1833, all well. Sailed from Sydney 23d June, in company with the Helen brig, Captain Taylor. We have experienced a strong gale, and have had a deal of westerly wind during the passage."

(No. 3.)

"*Saturday, July* 27, 1833.

"The ship Westmoreland, Brigstock, master, passed Booby Island this day, having got through Torres' Strait; saw a brig on shore on Cockburn's Reef, supposed to be the Richard Bell, Wardle, master; but Captain Brigstock was not nearer than five miles.

(Signed,) "JOHN BRIGSTOCK."

(No. 4.)

"*Ship Enchantress, in company with the Jupiter, under Booby Island, the 5th August, at noon*, 1833.

"Sailed from Sydney, New South Wales, the 14th July; entered the Barrier August 2d; anchored under the first Sandhill same night; next day anchored under Bird Island; and on the 4th, at 4 P. M. anchored under York Island a beautiful bay, six fathoms water. We have had a most delightful passage through.

"Whoever may find this, please to report at first place of their arrival, that the Enchantress, from Sydney, bound to the Mauritius, was this day safe through Torres' Strait, all well; and have the honour to be your most obedient servant,

"DAVID ROXBURGH, Commander."

Now, from the above document, it appears that the Helen and George Hibbert were thirty days on their passage, but were detained by westerly gales eleven days, which bad weather must also have been experienced by ships without the reefs. On such an occasion, it is very evident that a ship inside the Barrier Reefs, at a safe anchorage, with the wind off the land, must have been much more secure than one beating about in bad weather, to leeward of the Barrier and among the coral reefs outside. It does not appear when the Westmoreland left. The Enchantress was twenty-one days from Sydney to Booby Island, by entering the Barrier Reefs at Charles Hardy Islands. The Helen and George Hibbert came by the inner route, and, deducting the days she was detained by westerly winds, made the passage in nineteen days.

In the month of July, westerly gales, with thick weather and rain, are of frequent occurrence in the neighbourhood of the Barrier Reefs.
